Phys Ed Department Has Carolina Makes An Impressive Stand Teacher-Training Course Against PDC's Powerful Aggregation

Teaches Men And Women To Teach Others In Important Work Of Physical Fitness

By Hardinge Menzies

It's interesting to note that our Physical Education Program here at Carolina is large enough to include one of the best teacher-training schools in the South. There are five main branches of the Physical program here: The Required Program, Teacher-Training, Hygiene, Intramural, and Varsity Athletics and this is the story of the little-known but very important divisions which majors in teaching men and women to teach others in the important work of physical fitness.

The major purpose behind this division of work is "to provide the necessary training for teachers in this field of physical education and thus to meet the need in North Carolina for knowledge about individual and public health and to promote wide-spread participation in wholesale recreation And to this end the entire faculty of this modern teachers' school of physical fitness is entirely devoted. The staff is headed by Dr. O. K. Cornwell and consists of outstanding men in the line of physical education such as Quinlan, Peacock, House, Mrs. Beard, Siewert, Bo Shepard, Dr. Lawson, Mullis, and Marvin Allen (who has just returned from the Navy.)

Professional Course

Teacher-Training is entirely a professional course which seeks to provide good, competent instructors in knowledge by actually witnessing the all parts of the south-land to receive the best in the country. this excellent instruction. Just to give you an idea of the range in which is represented graduates from our school, there are grads at Duke, State, Ra- tion. Its goal is ever to train those leigh, Durham, Charlotte, Winston- who will train others so that the state Salem, Greensboro, Asheville, and any of North Carolina will become one of number of other cities and towns the most advanced states in the union across this state and in many, many through the physical strength of its others. In fact, it is said that there are very few places in this state which are not touched in some part by skillful supervision of people who have attended this school.

People who are interested in physical education major in this course just as anyone else would do in any language and so on. The Undergraduate required subjects if he is to obtain his degree in this particular field. He must take certain courses from hygiene, principles of physical education, health education directed teaching of physical education, anatomy, physiology, individual p. e. for men (and school.

women), rhythmics for public schools

and colleges. The graduates may take courses in principles and administration of physical education, intramural and extramural activities. For grads there ium Saturday, after a 35-32 scrimare courses in tests and measurements, physicology of exercise, school Blue Devil crew that pulled its and community hygiene, modern problems, research, and a seminar course. team. Students may obtain a major in physical education which requires at least one full year of schooling after the under-grad credit is received.

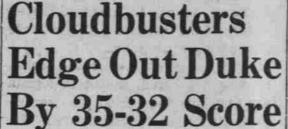

One of the many advantages which Jim Crowley shortly after Pearl students in this course have is the invaluable aid of actual experience. They aid the Physical ed. department and themselves by lending a hand as assistants to instructors, lab assistants, etc. They also gain valuable physical work for N. C.'s public schools great work of Carolina's physical deand colleges. And students flock from partment, which is said to be one of

Good Record

Holding one of the best records of any sports squad at Carolina, the swimming team has lost only one meet in the past four years and the lone defeat came at the hands of the Naval Academy in 1943.

The tanksters are riding a crest of 22 consecutive dual triumphs and Coach Casey hopes to extend this string of victories this season.

Coach Faces Problem

Visitors Held To Lone Tally By Tar Heels

Locals Have Ball Near Goal At End

By Irwin Smallwood

The sun beamed down hot on Kenan stadium's grassy turf Saturday and blood, sweat and toil told the story of the Carolina Tar Heels' practice game with the potent Greensboro PDC gridders. It was a nip and tuck battle all afternoon, and the youngsters of Carl Snavely put up a constant threat to the aggregation of collegiate and professional stars from the Gate City.

No official score was kept on the informal scrap, but the veteran football men of Capt. Ted Shipkey managed to cross into pay dirt only once, and by the airways then. Nonetheless, the "Distri Booters" of the Army Air Forces were always powerful on the ground, and at one time they had the ball on the Carolina one-yard stripe only to be shoved back with a 15-yard penalty. Plasman, big left end who played for Vanderbilt and the Chicago Bears before entering the army, then tried for a field goal, but it was no good.

PDC Scores on Pass

The score by the PDC squad came just 30 seconds before the first half ended, and it was a 25-yard pass to the end zone that netted the touchdown. The point was good, and Plasman blocked a Tar Heel punt late in the game to give the Army eleven

Carolina's first serious threat came shortly after the second half got underway, as five consecutive first Army three-yard line. A combination fumble and bad pass from center It appears now that at least two shoved Coach Snavely's lads back to the 18, and they were forced to kick from there. And the Snavelymen at the end of hostilities held the ball on the six-inch line with two plays to get the pigskin over.

Coaches on Field

All during the game, if it can be called that, something like three coaches from each side followed closely behind their charges, stopping things occasionally to give words of advice to the galloping gridders. Carolina's "Silver Fox" Snavely was very active during the afternoon, See FOOTBALL, page 4.
