Classes To Begin Critic Robert Morrison announced that classes in parliamentary procedure will begin next Wednesday night at 8 o'clock in the Di Chamber. All senators, except those excused by the critic, will be required to attend; the classes will also be open to the Phi and to members of the student body. At the regular session the Di discussed a number of phases of the current labor problem. Pittman announced that the Senate's Sesquicentennial Celebration Committee had invited former Vice-President Henry Wallace to be the principal speaker of the program.

All in all, there were four pitched balls, three outs, and a triple play, a record in baseball history. Played Against Duke

One of Vinson's mist humorous baseball stories-which substantiates the fact that many people who perform great works never get credit for it-concerns Center's game with Duke, then Trinity College.

In that particular game, Vinson, as shortstop, was really "hot," swoopsnagging flies, and leaping into the air for fast balls hit over his head.

The next morning, the Durham paper came out saying: "That Center shortstop pulled balls out of the sky, and dug them out of the dirt. What a ball player! In fact, that Pritchard looked like a big leaguer." (Pritchard was the right fielder.) Vinson said that he guessed he just wouldn't ever get any publicity. By the way, Vinson had entertained the thought of being a professional baseball player, but maybe it was this incident that changed his mind to law, and consequently into one of the highest positions in the United States Government.

Born in Louisa, Kentucky, in 1890, Vinson graduated in law in 1911, and set up a practice in his home town.

Due to his popularity, the confidence he commands among both Democrats and Republicans, and his excellent record in previous government service, Truman, soon after he became president, named Vinson as Secretary of the Treasury.
