UNC Given Money For Big Project

(Continued from page 1)

which political money flows, will take Dr. Heard to Washington, New York, and other parts of the country.

The project will be concerned with political financing on local, state, and national levels. Also tentatively planned as a special phase of the project is a limited comparative study of money in politics in Great Britain and Canada.

Dr. Heard has done extensive research in the field of political behavior, particularly in the area of Southern politics. In addition to writing "A Two-Party South?" he was collaborator with V. O. Key Jr., on "Southern Politics in State and Nation" published in 1949, and was co-editor with Donald S. Strong of "Southern Primaries and Elections," published in 1950.

A two-year study of political behavior in two North Carolina counties, under his direction, is nearing completion. This latter research was made possible by a grant to the University from the Ford Foundation.

Dr. Heard took his Ph.D. in political science at Columbia University.

Other members of the project staff includes Ernest E. Harrill (M. A. University of North Carolina and member of the political science faculty of Furman University), research fellow, whose special interest is campaign finance in Canada, and Mrs. Peggy Cook, executive secretary, 1953 A.B. graduate in political science at the University of North Carolina.

The University gradually is working toward numbering football jerseys according to positions, in accordance with the current trend. Old boys, accustomed to certain numbers, will be permitted to keep them, but new candidates will be assigned numbers by positions.
