

Girls Representing Nearly Every Part Of This State Feature Mid-Winter Hops

Series Of Five Dances Came To A Brilliant Close Last Night By Ball Featuring German Club Figure.

The mid-winter set of dances of the German club was brought to a close last night by a ball featured by the club figure, Steve Millender of Asheville with Miss Frances Moore of Rock Hill, S. C., led the final figure, assisted by Arthur Sickles of Rochester, N. Y., with Miss Elizabeth Barber of Raleigh and Barron Grier with Miss Pauline Webb of Statesville.

The set of five dances opened Friday afternoon with a tea dance in Bynum gymnasium, and a ball Friday night. The junior figure was the feature Friday night and was led by Willis Henderson and Miss Alice Quarles of Charlotte. Several states and almost every section of North Carolina were represented by the girls attending the dances.

The Pi Kappa Phi fraternity held the only house party of the week-end with over a dozen girls attending. Among these were: Misses Elizabeth Bryan and Mary Simmons Andrews of Raleigh; Elizabeth Morris, Roxboro; Nell Adams, Alice Fries and Alice Caldwell of High Point; Glenn McDougal, Clarkton; Billie Gholson, Henderson; Julia Pendergraph, Mount Airy; and Sue Thomas of Charleston, S. C.

Bynum gymnasium was converted into a ballroom and was attractively decorated to represent an outdoor scene. Frazier Glenn and Baron Holmes, University students, had charge of the decorations which consisted of festoons of vari-colored crepe paper streamers which covered the ceiling, while a canopy of gold centered the whole. The orchestra stand and the chap-

DR. COKER HEADS TEACHING STAFF

Will Teach Field Zoology This Summer At Allegany School Of Natural History.

The general education supervision at the Allegany School of Natural History is furnished by Dr. Charles C. Adams, director of the New York State Museum. The teaching staff will again be headed by Dr. Robert E. Coker, professor of zoology, University of North Carolina. At various times Dr. Coker has been special investigator for marine birds and fishes, Peru; director, United States Fisheries Biological Stations, Fairport, Iowa; and Woods Hole, Mass.; and chief, division of scientific inquiry, United States Bureau of Fisheries. He has been the director since the school was established and has held high standards in inspiring his students to develop the ability "for stimulating others to the study and appreciation of nature. Dr. Coker will teach field zoology.

This outdoor training school, which has an exceptionally interesting and varied terrain for its purposes, has established an outstanding reputation among the growing number of such centers for field instruction.

Conducted by the Buffalo So-

Bradshaw To Return From Atlantic City

F. F. Bradshaw, dean of students, was in Atlantic City the latter part of the week attending the meetings of the National Association of Personnel and Placement Officers and the National Vocational Guidance Association.

Dean Bradshaw is president of the former organization which is holding its meeting at the same time the National Education Association and several allied groups are meeting in Atlantic City.

Mr. Bradshaw will return to Chapel Hill today.

GLEE CLUB WILL SING IN RALEIGH

The Entire Group To Appear In St. Mary's College Auditorium Monday Night.

Tomorrow night at 8:15 in the St. Mary's College auditorium, Raleigh, the full Carolina Glee Club of 35 men will give a program similar to those of the fall tour.

During all of next week these 35 members will be closely observed by glee club officials, in order that the best 28 can be determined for the national contest of March 8.

In connection with the contest, the glee club has had the special honor to be invited to luncheon at the Harvard Club, the day of the contest, as guests of Albert E. Pickernell.

Mr. Pickernell, a wealthy financier, has been almost solely responsible for the Intercollegiate Glee Club Association's active and successful existence, which has extended over a period of more than 12 years.

Among those who will appear tomorrow night and who will be considered for the New York trip are: Brown, Boynton, Bremer, Barfield, Carter, Clark, Connolly, Fleming, Goodwin, Humphreys, Hammond, Lyon, Lynch, Miller, Duffy, Midgett, Overman, Parsley, Petty, Patton, Prouty, Park, Reynolds, Stimpson, Swain, Stewart, Stahr, Scurlock, Slaughter, Trull, Whitsett, Winston, and Wilson.

DEUTSCHER KLUB WILL MEET THIS AFTERNOON

The meeting of the Deutscher Klub, which was postponed from last Sunday, will take place at 4:30 this afternoon at the home of Dr. and Mrs. Metzenthin, 402 Hillsboro St. During the last week a group of students have been practicing Die Deutsche Studentlieder, some of the most popular German student songs, in preparation.

Those who studied and practiced the songs, which are selected from more than 250 folk-songs, are unanimous in proclaiming them not only charming in their musical setting, but also rich in the combination of deep romantic sentiment with wholesome humor.

Dr. Metzenthin urges that anyone interested in typical German songs and willing to join heartily in the singing of them attend this informal meeting for this meeting.

CORNERSTONE OF MEMORIAL HALL IS SOLID GRANITE

Much Regret Felt Because The Stone Contains No Papers Or Other Valuable Tokens.

The forty-seven year cornerstone, located on the northeast side of Memorial hall, was removed Saturday morning from the dismantled building. Upon examination the cornerstone was found to be solid granite and it does not contain a box.

Disappointment was felt among University officials, students, and even a part of the wrecking crew, because the cornerstone did not yield any papers or other valuable tokens. Much speculation was prevalent as to the contents of the cornerstone. Some students thought that a part of the observations taken by Dr. Caldwell at his observatory might be found, but alas! According to Charles T. Woollen, business manager of the University, the building committee of Memorial hall was unable to give much time or money to putting a box in the cornerstone, as they were hard pressed for funds during the whole time of the erection of this structure.

The cornerstone measures twelve inches in thickness, thirty inches in height and forty inches in width. The weight of the stone is approximately 1200 pounds. The cornerstone was removed with little difficulty, for, like the rest of the building it was not properly set up.

The United States geological survey has its official mark upon the stone showing the elevation of the land adjacent to the building, which is 503 feet above sea level. By way of protection this official marker bears the following inscription: "250 dollars fine for disturbing this mark." The elevation was calculated and the mark set up by "B. M."

The Memorial hall cornerstone was erected September 25th, 1883. The building committee was composed of Paul C. Cameron, Kemp P. Battle and John Manning, while Samuel Sloan was architect and Henry Richards was mason.

Daily Tar Heel Manager States View On Theatre Controversy

For the benefit of any students who may not understand the Daily Tar Heel's position regarding the recent move to boycott the Carolina Theatre, concerning which false and misleading rumors may have been circulated, the following explanation is offered.

The student paper this year derives approximately 40 per cent of its revenue from student fees. The other 60 per cent is provided by advertisers, the bulk of whom are local concerns, catering to student trade.

These advertisers have always been most generous in helping to maintain the student paper, and to forward other student activities.

The Daily Tar Heel is, assuredly, a student paper, with whom student interests must always come first.

Receiving its support, however, as it does, from local business houses as well as from students, The Daily Tar Heel has always been required as a matter of policy to steer clear of participation in controversial matters between students and local

SCOUT SEMINAR CLOSES AFTER THREE-DAY MEET

Votes To Hold Meeting In Chapel Hill Again Next Year.

The second Boy Scout Seminar to be held at the University during the current academic year came to a close this afternoon with a meeting conducted by Commodore Longfellow, head of the life saving work of the Red Cross.

The Scout executives have been holding a three-day session under the joint auspices of the University Extension Division and the Regional Educational Committee of the Boy Scouts of America.

The seminar consisted of a series of discussions by University faculty members and scouting officials on subjects pertaining to scouting, such as public health, life saving, taxidermy and the growth of the Scout movement.

At the final session it was voted to hold similar sessions here next year and to request the University to offer a credit course in scouting. A committee was appointed to arrange for the patrol leaders camp to be held here this summer.

North Carolina scout officials in attendance were J. E. Steere of Charlotte, A. W. Allen of Asheville, B. W. Hackney of High Point, Claude Humphries of Raleigh, O. B. Gorman of Reidsville, Herbert Stuckey of Wilson, H. T. Thompson and W. E. Vaughn-Lloyd of Winston-Salem, W. B. White of Greensboro, E. E. Shields of Gastonia, and W. E. Pennington of Goldsboro. Paul Schneck, Boy Scout Commissioner of the South, of Greensboro; D. E. Dabbs, field secretary, of Atlanta; and Commodore Longfellow, head of the life saving work of the Red Cross, of Washington, D. C., were special officials at the seminar.

University faculty members who led discussions were Professors H. D. Meyer, D. A. McPherson, E. K. Plyler, and K. H. Fussler.

Joint Meeting Of Literary Societies Duke - Carolina Receives Much Approval

A Textile Survey

On the editorial page of this issue the editor presents a suggestion for a nationwide, impartial economic and social survey of the textile industry, including the tentative personnel of a commission proposed to conduct the survey. This suggestion is an outgrowth of the statement prepared by a group of ten of North Carolina's most thoughtful men and women, signed by 415 of the state's most prominent citizens, and published last Sunday in a number of newspapers.

PLAYMAKERS ARE PRAISED HIGHLY

Receive Commendation From South Carolina And Georgia Newspapers.

Reviewers are being favorably impressed with the work of the Carolina Playmakers at every city where the famous group plays. The Southern tour is taking the Playmakers through South Carolina, Georgia, and North Carolina.

In Greenville, South Carolina, where the group played Monday night the *Greenville News* has the following to say: "The plays were rich in presentation of the human element, and the characters themselves interpreted the plays in a faithful and characteristic fashion, copying well the locality in which the drama was laid by the authors." Homles Bryson who is playing the lead in Paul Green's "No 'Count Boy" and Loretto Carroll Bailey who is playing the part of Kizzie in her own play "Black Water" received especial commendation for their work.

Concerning the Playmakers performance at Emory college on the following night the Atlanta Constitution said: "Emory College Tuesday night was given a privilege that should have gone to metropolitan Atlanta, that of convenient attendance at the Carolina Playmakers' program of three acts, the best non-professional dramatic performance that is apt to grace Atlanta's boards this season."

Wednesday night the players appeared in Columbus, Ga., and the Columbia Enquirer-Sun said of them, "The wide interest felt in the Carolina Playmakers and in their director and originator, Professor Koch; the human element which dominated the plays written by the Playmakers themselves; and the artistry of the actors who presented them all contributed to make the performance of the student actors last night at the Springer opera house a memorable one."

ENGINEERS NOT TO MEET

The University of North Carolina student branch of the American Institute of Electrical Engineers will not hold a meeting this week, because of the engineers' ball which will take place Friday evening.

The Chi Phi fraternity announces the pledging of W. B. Patterson, of Rochester, N. Y.

Many Faculty Members And Student Leaders Indorse Session Which Is To Be Held Here Wednesday Night.

The joint meeting of the Carolina and Duke literary societies here, next Wednesday night, February 26, seems to be gaining more support and endorsement every day. The students of Duke have enthusiastically received and indorsed the plan for this meeting, and they have promised to come by the hundreds. From all indications, it seems as though Gerrard hall will not hold the large crowd that is expected to attend this meeting. Speaker John Lang, however, has announced that a larger auditorium will be resorted to if Gerrard is unable to take care of the crowd next Wednesday night.

A number of endorsements of this joint session have been received from some of the University's most outstanding faculty members. In endorsing this meeting, Professor R. D. W. Connor says: "Fine business! The plan has my hearty endorsement. I trust that the plan proposed will meet with enthusiastic and sustained support from both institutions."

Dean Addison Hibbard in speaking of this session says: "With so much possible through cooperation and common effort, it is difficult to believe that any one could find reason for objection to the programme outlined by the four cooperating literary societies." Professor Frank Graham considers this meeting as the natural step in bringing about wholesome cooperation between the two universities. Doctor Howard W. Odum thinks that the Duke-Carolina combination offers an

TAYLOR SOCIETY TO MEET TUESDAY

Malcolm D. Taylor, Associate Professor Of Economics To Speak On Marketing Management.

At the meeting of the University student branch of the Taylor Society to be held Tuesday evening in Bingham hall, Malcolm D. Taylor, associate professor of economics, will speak on "Scientific Marketing Management."

Professor Taylor, who is a specialist in merchandising and advertising, teaches the courses in salesmanship and purchasing, sales management, retail merchandising, and sales relations in the school of commerce and economics.

In his talk Professor Taylor will discuss the part of scientific management in marketing, the phase of industry which has yearly received more and more attention from those operating producing and distributing units.

Professor Taylor is the fifth of a series of faculty speakers who are speaking before the Taylor Society this quarter on subjects related to business. At the following meeting, March 4, Dean D. D. Carroll, head of the school of commerce and economics, will speak on "Education for Business Leadership."
