

Taylor Society Will Hear Harry P. Kendall Tonight

President of the Kendall Company To Speak in Bingham Hall At 8 O'clock.

IS NATIONAL PRESIDENT

Will Speak on "Management Problems in The Textile Industry;" Under Auspices Of Local Society, North Carolina Club and Departmental Seminar.

Harry P. Kendall, president of the Kendall Company and president of the Taylor Society, will speak on "Management Problems in The Textile Industry" in Bingham Hall at 8:30 this evening. Mr. Kendall is appearing under the joint auspices of the University branch of the Taylor Society, the North Carolina Club, and the seminar of the department of economics and commerce.

The Kendall Company operates several textile plants in the south which have been under scientific management, and up to the present time has had no labor disturbances. In the present era of textile depression, the Kendall plants have been operating successful, and a large portion of the credit for their successful operation is accredited to scientific management.

Because of the fact that the mills under the direction of Mr. Kendall have been operated at a profit during the period of depression, the remarks which Mr. Kendall will make this evening are expected to be of interest to those who follow the textile situation.

Mr. Kendall is well-known in the field of successful business management, for he has written many articles on business management. Articles by him have recently appeared in *Factory and Industrial Management*, *The Textile World*, and *Barron's Weekly*.

Plants operated by the Kendall Company in the south are located at Edgefield, S. C.; Newberry, S. C.; Paw Creek, N. C.; and Camden, S. C. In addition to these mills Bauer and Black, Inc., makers of hospital supplies and surgical dressings, and the Lewis Manufacturing Company of Walpole, Mass., are divisions of the company.

The Taylor Society, of which Mr. Kendall is president, is an international organization for the promotion of the science of administration and management. Through the application of the principles of scientific management, the society hopes to secure a better understanding of these principles and an improvement in all phases of industry, as related to the worker, the manager, and the employer.

In the early part of April the Taylor Society will present to the campus F. M. Craft, chief engineer of the Southern Bell Telephone and Telegraph Company, who will speak on the five year management plan of the American Telephone and Telegraph Company.

Jones And Potter Leaving

Russell Potter and Howard Mumford Jones of the English department are leaving the University at the end of this academic year. Mr. Potter is to succeed George V. Denny as director of the Institute of Arts and Sciences of Columbia while Mr. Jones is to go to the University of Michigan.

CHI OMEGAS HOLD ANNUAL DANCE AT INN FRIDAY NIGHT

Spring festivities are beginning early in the quarter as is evidenced by the Chi Omega sorority giving its annual dance Friday night. The dance will be held in the Carolina Inn ballroom and will last from 9:30 until 1 o'clock.

The ballroom will be decorated in the Chi Omega colors, cardinal and straw. Alex Mendenhall and his Tar Heel boys will furnish the music.

Chaperones will be: Mrs. Stacy, Mrs. Lee, Mr. and Mrs. Connor, Dr. and Mrs. Trabue, Dr. and Mrs. Braune, Dr. and Mrs. Coker.

Formal invitations have been sent out by members of the sorority to their friends. The dance will be formal.

PHI ASSEMBLY FAVORS CONNOR

University Professor Endorsed As Successor To Chase; Graham Second.

The Philanthropic Assembly, at its regular meeting last night, endorsed Professor Connor for the presidency of the University. The names of Professor Connor and Graham were presented for the consideration of the assembly by members.

Ex-speaker John A. Lang introduced the name of Dr. Connor. He stressed Dr. Connor's administrative and scholastic ability and his acquaintance with the people of North Carolina and the students in the University. Others speaking for Connor were Representatives William Speight, Billy Brown, and Edward Yarborough. Representative John Wilkinson proposed Professor Graham. Representatives Thomas Baldwin and Bert Haywood suggested that the names of all the desirable names be presented to the trustees.

Speaker G. P. Carr, at the opening of the meeting, delivered his inaugural address. He traced the work of the assembly for the past two quarters and gave his aims of the work to be done during the present quarter.

Music Faculty Goes To Raleigh Meeting

H. S. Dyer, T. Smith McCorkle and Nelson O. Kennedy, of the University music faculty, attended a meeting of the state music teachers association at Raleigh last Friday.

The University was represented on the program by Mr. Dyer, who spoke on the position which the University takes regarding credit for outside music study.

As a result of the meeting official action was taken to unify the code of credits throughout the state, and as a first step in this procedure, a state-wide survey is now being made.

Mrs. Grace Woodman, also of the music faculty, is now in Chicago attending a national convention of music supervisors. Mrs. Woodman is the president of the Southern Supervisors' Conference, which will hold a meeting at Memphis, Tenn., in the spring of 1931.

Student Notice

By a recent action of the faculty, no changes in registration may be made after the expiration of ten calendar days from registration day. April 1st will therefore be the last day on which changes may be made.

COMPLETE DEBATE SCHEDULE ISSUED

Six Contests Listed for Carolina Debaters; To Meet Maryland April 1.

The remaining intercollegiate debates on the Carolina schedule will make use of three questions: "Resolved: That the nations of the world should adopt some plan of complete disarmament of all forces, except those which are needed for police purposes." "Resolved: That the principle of the chain store is detrimental to the best interests of the American public." "Resolved: That the thirteen months calendar should be adopted."

The following is the complete list of forensic events for the remainder of the collegiate year:

- 1—March 27, 7:30 p. m. Second discussion of the chain store store question.
- 2—March 31, 7:30 p. m. Tryouts on the chain store question.
- 3—April 1, Carolina vs. Maryland on the Disarmament question (here).
- 4—April 11, Carolina vs. Maryland on the chain store question (there).
- 5—April 15, Carolina vs. Northwestern on the Chain store question (here).
- 6—April 19, Carolina vs. Boston on the Disarmament question (here).
- 7—April 25, Radio debate, Carolina vs. Virginia on the Thirteen Months Calendar question (Raleigh).
- 8—Early in May, Carolina vs. Boston on the Disarmament question (there).

In addition to the foregoing well-established schedule, there is a possibility of a debate with The University of the South at Chapel Hill. In all probability, the first discussion of the Thirteen Months Calendar question will take place on Thursday night, April 3, this being the regular time of the squad's meeting. The date for the tryout on this query has not been set, but will probably occur on Thursday night, April 10.

The officials of the debate squad are still enrolling all eligible students who desire to participate in any of the tryouts which are to be held during the remainder of the quarter.

ROMEO AND JULIET IS NEXT REHEARSAL

All the amorous youths on the campus will probably focus their attention on Professor Koch's Playmaker tryouts scheduled for 4:30 Friday afternoon. The forthcoming production to be cast at that time will be Shakespeare's ever popular *Romeo and Juliet*.

Mr. Koch intends that the play shall serve as the final public attraction of the group for the current season, and that it shall be given in their forest theatre.

Rip Van Winkle and *The Tempest* were produced in the Playmakers' natural amphitheatre in 1929 and 1928 respectively.

Committee Appointed To Find New President Busy

BAITY-CHESLEY NUPITALS HELD DURING HOLIDAYS

Dr. Herman Baity, head of the department of civil engineering at the University, was married to Miss Elizabeth Chesley on March 17 at the home of the bride in Hamilton, Texas.

Mrs. Baity is the daughter of Judge and Mrs. H. E. Chesley of Hamilton. After completing her A. B. and B. S. degrees at the Texas State College for Women, she took an M. A. course at the University of North Carolina and succeeded in winning a graduate scholarship.

Dr. Baity was graduated from the University in 1918, receiving an A. B. degree. He obtained a B. S. degree in 1922, and later an M. S. degree at Harvard in 1925. Serving during the war as a lieutenant with the first army headquarters ammunition supply, he experienced active service at St. Mihiel and the Argonne. He is now professor of sanitary and municipal engineering, in addition to being head of the civil engineering department at the University.

Dr. and Mrs. Baity will be at home shortly after April 1 in Chapel Hill.

WILLIAM F. OGBURN VISITS PROF. ODUM

Professor William F. Ogburn of the University of Chicago, last year president of the American Sociological Society and now director of the President's Research Committee on Social Trends, recently spent a few days in Chapel Hill. Professor Ogburn and Professor Howard W. Odum of the University sociology department, who is serving with Professor Ogburn as director of the committee appointed by the president, were working out plans for further research for the next two years.

Other members of this committee are: Wesley C. Mitchell, Columbia University, Charles E. Merriam, University of Chicago, Dr. Alice Hamilton, Harvard, Shelby Harrison, vice-president of the Russell Sage Foundation. Professors Ogburn and Odum are the active directors of the work.

Professor Ogburn's visit here is of additional interest in that his father's family came from North Carolina, having lived in the neighborhood of Raleigh and Smithfield.

Y TEAM ON TRIP

The Y deputation team will make a trip this week-end to Rocky Mount to deliver a series of programs there. The team will leave here during the afternoon Thursday, arriving in Rocky Mount in time to give a program that night, and returning late Sunday afternoon.

While in Rocky Mount, the team will appear before nine schools besides a number of civic organizations and hospitals. This trip will be the second one that the team has made this year. The first trip was made to Fayetteville during the latter part of last quarter.

The team is to be composed of Jack Connelly, Fred Laxton, Woffard Humphries and John Miller, on the quartet, and Jack Dungan and Grady Leonard as speakers.

Members Had Individual Conferences With More Than Sixty Full Carolina Professors Over The Week-End.

CONSIDERING MANY MEN

Several Out-Of-State Men Are Now Under Consideration; Dr. Ivey Lewis and Dr. Edward Greenlaw Head This Group.

The special committee appointed by the board of trustees to find a successor to President Chase is to continue its work by interviewing several out-of-state men whose names have been brought up before it.

During the past weekend, the committee, headed by A. H. Graham of Hillsboro and comprised of Mr. Graham, Judge John J. Parker, recently appointed as associate justice of the United States Supreme court, Charles Whedbee of Hertford and Leslie Weil of Goldsboro, had individual conferences with more than 60 of the 81 full professors of the University.

These private interviews were held in order that the committee might obtain the opinion of the faculty as to the qualifications of the next president as well as to receive suggestions for Dr. Chase's follower. A large group of student leaders were also questioned with the same view in mind.

In addition to the group of men who have been mentioned as probable successors to Harry W. Chase, there are two or three gentlemen, now residing outside of North Carolina who are being considered. Dr. Ivey F. Lewis of the faculty of the University of Virginia has been mentioned, as well as Dr. Edward Greenlaw, former dean of the Graduate School at the University of North Carolina and now at Johns-Hopkins University.

The committee plans to travel as far as New England and the Middle West and it may be able to report its findings to the board of trustees in April although it may not be till June that another meeting will be called.

Thorndike Saville Consults Officials Over Power Survey

During the past week Thorndike Saville, professor of hydraulic and sanitary engineering, visited Washington and Norfolk, consulting with government officials regarding work of the water resources division of the state department of conservation and development.

While in Washington, Mr. Saville consulted with officials of the U. S. Geological Survey and the U. S. Coast and Geodetic Survey regarding a mapping program for the state of North Carolina. He also conferred with army engineers in regard to a power and navigation survey of North Carolina rivers.

In Norfolk Mr. Saville conferred with the district engineer of the war department relative to changes in the requirements that the state desires for a new power development on the Roanoke river.

All of the conferences held by Mr. Saville were made in connection with the work of the water resources division of the state department of conservation and development.

LATEST BOOK BY U. N. C. PRESS IS PRAISED HIGHLY

"The Life of Miranda" by William Spence Robertson Destined To Become One of Outstanding Biographies of Year.

(By E. C. Daniel, Jr.)

The Life of Miranda by William Spence Robertson, a publication of the University Press, has, since its recent appearance, become one of the outstanding biographies of the year. And if one is to judge by the statements of numerous literary critics printed in the daily press, this popularity of the book is due almost wholly to the romantic circumstances surrounding the career of the principal character, and, what is more interesting to those adventures of the author in seeking out the source material for his two volumes.

A series of seven reviews and critiques, appearing in newspapers from Hartford, Conn., to Galveston, Texas, have carried detailed accounts of the glamorous appeal of the book and of the valuable discovery of the personal papers of Francisco de Miranda. In addition, the Associated Press also sent out recently a despatch concerning *The Life of Miranda* that was printed in the book sections of its allied papers all over the nation.

Quoting from the Associated Press review: "Detective work of a high order in locating the lost archives of Miranda, famous South American patriot, after they had been missing a hundred years, has brought international fame to William Spence Robertson, professor of history at the University of Illinois." The archives are "of international importance as source material" since Miranda was the "only known participant in the American, French, and South American revolutions."

This last quotation is from the *New York World*, which publication used among its book reviews for the past Sunday a lavishly written article by Lawrence C. Woodman, with a two-column heading.

A reviewer for the *Galveston (Texas) Daily News*, while confessing that before he read Robertson's book he had never heard of Francisco de Miranda, declared it to be "difficult to name any historical figure who lived a more spectacular life" than he.

The *Saturday Review of Literature* also generously displays a criticism of the book written by L. S. Meyer of New York University. Mr. Meyer states in beginning his article the famous approximation of Miranda as made by Napoleon. "He is a Don Quixote—with this difference that he is not mad."

Continuing with a brief sketch of the accomplishments of the hero of Dr. Robertson's book, he concludes: "In one respect the author differs from the majority of present-day biographers. He is far more concerned with his subject's role in history than with his private life. . . . It is also refreshing to find a biography in which no attempt is made to psychoanalyze the subject. . . . The picture of the Venezuelan patriot is historically accurate and the most complete yet presented. It will undoubtedly take its place among the best biographies produced
