

Brief Speeches Made As Many Candidates Receive Nominations

"Red" Greene and Marion Alexander running for President Student Body.

THIRTY-FIVE NOMINEES

Yarborough and Jones for Tar Heel Editorship; Hamer and Farrel for Presidency of "Y".

Since the nominations for student body offices held in Gerrard hall yesterday, the setting of the political arena has taken definite form. An array of nominees, portending a hotly-contested election, now stands on the records of the pre-election meeting.

For the highest office of the campus, that of student body president, R. C. "Red" Greene and Marion Alexander were presented as nominees. These men, already outstanding figures on the campus, were nominated in short, direct speeches by Mayne Albright and Bill Speight, respectively. Ray Farris, presiding, announced that the presidential nominees will speak in Gerrard hall Thursday morning at 10:30.

Nominations, in addition to those made by the various staffs and announced in yesterday's issue of the Tar Heel, were made for the editorships of the publications. Joe Jones received a nomination to the chief of these offices, that of editor of the Daily Tar Heel. For editor of the literary supplement, the Carolina Magazine, J. C. "Red" Williams was nominated, and of the Buccaneer, Kermit Wheary was named.

Additional nominations made for the Y. M. C. A. offices were Claude Farrell for president and Ellis Fysal and Sam Gorham for vice-president.

Nominations for the minor offices followed, being made by a long train of enthusiastic speakers. In spite of continuous requests for brevity, no word of the "praise for the worthy" went unspoken. Emphatic tones and very determined language set forth the qualities of "the man." Headed by Phi Beta Kappa keys and monograms, an interminable train of evidences of worth were dangled before the hearers. With few exceptions each speaker announced that he "would like to nominate a man" and proceeded to show it was a man he had in mind. The exceptions had desires of nominating "a real man" and took upon themselves the additional task of expounding the "real."

A complete list of nominees follows:

President of the student body, Marion Alexander and Red Greene; editor of the Tar Heel, Will Yarborough and Joe Jones; editor of the Magazine, J. C. "Red" Williams, Richard A. Chace and Jay Curtis; editor of Yackety Yack, Clyde Dunn and Douglas Kincaid; editor of Buccaneer, Kermit Wheary and Gil Pearson; president of Y. M. C. A., Ed Hamer and Claude Farrell; vice-president of Y, Ellis Fysal, Sam Gorham; secretary of Y, Harry Finch and John Miller; treasurer of Y, F. M. "Pardner" James and William Draper; president of athletic association, Burgess Whitehead and Jim Wagner; vice-president of the

Withdrawal Notice

All candidates for either campus or class office who wish to withdraw their names from the official ballot are requested by Ray Farris, president of the Student Body to notify him before 7:00 o'clock tonight at the Sigma Phi Sigma house.

MISTAKE CAUSES DEBATE TURMOIL

Maryland and Carolina Teams Both Prepare for Affirmative Side; Disarmament Question.

Due to a misunderstanding, both the Carolina and Maryland debaters had prepared to argue the affirmative side of the question when the two teams met in Gerrard hall last night. Only after the first speaker for the Carolina team had been announced and had begun his argument was the mistake discovered.

Dr. George McKie, chairman for the debate, expressed his regret that such an unfortunate incident had occurred, and after a few seconds of consultation with the representatives of the two universities, he announced that, due to the fact that the question was of great current interest, all the debaters would present their arguments for the affirmative side of the subject, "Resolved, That the nations of the world should adopt some plan of complete disarmament of all forces, except those which are needed for police purposes."

G. P. Carr of the local team and Herbert Eby and Nicholas Janetzke, members of the University of Maryland team, presented speeches upholding the affirmative of the query. J. A. Wilkinson, the other member of the Carolina team, gave an extemporaneous talk in defense of the negative side.

WOODHOUSE TALKS TO LAW STUDENTS

At the second regular meeting of the newly-formed Pre-law School, Association Monday night Professor E. J. Woodhouse of the department of government spoke to the group on the relation of government to the study of law. Dealing with the relations of government and law to sociology, psychology, history and other lines of study, he emphasized the importance of an active interest in politics on the part of all citizens of the country in order that the best and most democratic form of government may be instituted and retained. Professor Woodhouse expressed various preferences in regard to institutions of government such as conventions over direct primaries, two divisions of power as against three in federal government, etc. He expressed doubt as to whether the American form of government is as democratic as is generally thought. The talk was concluded with an endorsement of the study of law and of the Carolina school of law.

After the more formal address, the meeting was turned into an informal forum for the questioning of the speaker.

194 HIGH SCHOOLS COMPETE DEBATE CONTEST APRIL 4

Teams To Meet In Triangulars For State-Wide Contest Friday Night.

WINNERS MEET APRIL 17-18

One hundred and ninety-four high schools scattered throughout all sections of the state will take part in the triangular debates on April 4 of the High School Debating Union of North Carolina, according to an announcement made yesterday by E. R. Rankin, secretary of the High School Debating Union.

The query which will be discussed by representatives of the schools in all of the debates is: "Resolved, That North Carolina should adopt the proposed constitutional amendment, authorizing the classification of property for taxation."

The high schools which win both sides in the triangular debating contest will send their teams to the University on April 17 and 18 to participate in the final contest for the state trophy, the Aycock memorial cup.

The 194 high schools which are members of the High School Debating Union have been arranged in triangles for the state-wide contest on Friday evening as follows:

Greensboro High Point and Winston - Salem; Salisbury, Charlotte and Asheville; Raleigh, Durham and Fayetteville; Rocky Mount, Goldsboro and Wilson; Edenton, Elizabeth City and Hertford; Roanoke Rapids, Tarboro and Farmville; Belmont, Mt. Holly and Stanley; Lilesville, Burnsville and Morven; Old Town, Vienna and Walkertown; Candler, Fairview and West Buncombe; Emma, Flat Creek and Venable; Churchland, Griffith and Reeds.

Concord, Lexington and Statesville; Hamlet, Rockingham and Laurinburg; Cary, Wakelon and Wendell; Rich Square, Woodland-Olney and Roxobel-Kelford; Chowan, Kitty Hawk and Manteo; Marshville, Unionville and Wingate; Black Creek, Gardner's and Saratoga; Benson, Erwin and Four Oaks; Canton, Hendersonville and Waynesville; Dunn, Edward Best and Enfield; Scotland Neck, Weldon and Williamston.

Franklinton, Louisburg and Roxboro; Roseboro, Mt. Olive and Selma; Greenville, New Bern and Washington; Creedmoor, Hillsboro and Wake Forest; Beech Glen, Mars Hill and Weaverville; Beaufort, Vanceboro and Washington Collegiate Institute; Belhaven, Pantego, and Swan Quarter; Cliffside, Henrietta-Caroleen and Lattimore; Cove Creek, Glade Valley and McRae Institute; Bethel Hill, Wilson and Zeb Vance.

Vote Light In Prohibition Balloting Here; Repealers Leading Both Other Groups

Senior Notice

Several business concerns will have representatives in Chapel Hill within the near future to interview seniors concerning employment.

The Eastman Kodak Co. representative will be here on April 14, the Remington-Rand Business Service, Inc. man on April 16.

Representatives from the Proctor & Gamble Co. and S. H. Kress & Co. have promised to come, but no definite dates have been set for their visits. Besides these, there are a few other companies which may visit the campus later in the spring.

Seniors who wish to interview any of these men should make arrangements to do so through the Bureau of Vocational Information, 204 South building.

REUNION OFFICERS GATHER SATURDAY

Representatives of Reunion Classes To Gather for Arranging Alumni's Part at Commencement.

The Reunion Committee of the General Alumni Association will meet at the Carolina Inn Saturday evening at six o'clock, according to an announcement made in the central alumni office.

Dr. Hubert Haywood, '05, of Raleigh, Alumni Commencement marshal and chairman of the reunion committee, is expecting 12 or 15 class secretaries and representatives here for the gathering. The meeting is called for the purpose of arranging for the alumni part of the commencement program, and secretaries of the classes which hold reunions this June are members of the committee.

Commencement dates are June 7-10, and Alumni Day is Monday, June 9. This is a change from the custom of the past several years, which has been to have Alumni Day on Saturday. The alumni board of directors voted to make the change, believing that many alumni were kept away from Alumni Day because it came on Saturday.

The alumni will be guests of the athletic association at the Georgia Tech vs. Carolina track meet on Emerson field in the afternoon and will have supper together at the Inn. Dr. Haywood will preside.

Alumni who are members of the reunion committee and their classes, follow: T. H. Battle, '80, Rocky Mount; Harry Howell, '95, Fayetteville; Dr. R. E. Coker, '96, Chapel Hill; J. A.

Only 241 Votes Cast at End of Second Day; Non Drinkers Outnumbers Drinkers.

BALLOTING ENDS TODAY

119 Vote For Repeal With 68 For Modification and 54 for Enforcement; Repealers Leading at University of Virginia.

With 241 votes cast during the first two days of the prohibition poll being conducted by the Daily Tar Heel, the non-drinkers at the university outnumber the drinkers 123 to 118 while those favoring repeal or modification of the 18th amendment outnumbered those favoring enforcement 187 to 54.

The poll will be closed at 6 o'clock today and those planning to vote are urged to vote at the ballot box in the lobby of the Y. All students are urged to take part in this poll as the final tabulation will be taken to indicate the sentiment of the entire student body.

In tabulating the vote yesterday it was noticed that of those who do not drink only 52 favored enforcement of the law, while among those who drink frequently not one favored enforcement. The vote among the non-drinkers was as follows: for enforcement 52, for modification 32, and for repeal 39.

Sentiment favoring repeal was evinced among those drinking only occasionally as 42 voted for repeal while 34 voted for modification. In the class of those who drink frequently sentiment was almost unanimous against either enforcement or modification with only 2 votes being cast for modification and none for enforcement.

In a similar poll now being conducted at the University of Virginia almost half of the student body has participated in the balloting with those favoring repeal leading by a large majority. The vote for enforcement there through Monday was very light.

The final count of the vote will be announced in Thursday's issue of the Tar Heel.

Local Woman's Club Holds Clean-Up-Week

Ordinarily it costs 75 cents per month for garbage removal in Chapel Hill. This week those people who allow their rubbish to accumulate for a year are being rewarded, for the city is doing the work free.

Sponsored by the Chapel Hill Women's Club, Clean Up Week began Monday. The trucks engaged in rubbish removal started Monday working in the territory north of Franklin street, and are proceeding in a clockwise direction around the city. The work will be finished Thursday or Friday.

Di Senate Halts Meeting For Class Nominations

In order to allow the use of the hall for class nominations, the Dialectic Senate remained in session only ten minutes last night. The scheduled inaugural address by President Rector, together with certain committee appointments and elections, was postponed until the next meeting.

Iceland is soon to have a broadcasting station.

SET OF RENOWN BOOKS ACQUIRED BY THE LIBRARY

Copies of the Famous Egyptian Mathematical Volumes Are Brought Here Through Efforts of Math Department.

REVEAL EARLY MATH

The University library, thru the efforts of the department of mathematics, has acquired a set of the recently published Rhind Mathematical Papyrus, which is regarded by some as one of the triumphs of American scholarship.

The two volumes which were edited by A. B. Chace, chancellor of Brown University, comprise a photographic facsimile, hieroglyphic transcription, transliteration, literal translation, and mathematical commentary and bibliography of the Rhind Mathematical Papyrus which is in the British Museum.

The Papyrus, which dates from the twelfth dynasty of Egypt, about 1685 B. C., was found at Thebes in 1858. It passed into the hands of A. H. Rhind, from whom the Museum obtained it in 1864. For many years it could not be translated. When finally translated, the mathematical treatise threw much light on the condition of mathematics in Egypt during the early ages. It is thought that this papyrus was a copy of a still older one written about 1800 B. C.

The papyrus consists of two pieces, both of which are 33 centimeters wide. One piece is 206 centimeters long, the other, 319. When the papyrus had been translated it was found that there was one piece missing. This section was later found in the New York Historical Society, who had acquired it in 1907.

The recently acquired volumes are photographic reproductions of the papyrus together with translations and comments on the subject matter.

The papyrus consists of 87 parts, which were not numbered in the original but which have been numbered for easy identification. The first part of the manuscript consists of resolutions of fractions with 2 in the numerator and odd numbers from 5 to 101 in the denominator into others having unity in the numerator.

The second group of problems concerns arithmetic, and the third consists of problems in mensuration. There is a section of miscellaneous arithmetical problems and one section which has not yet been translated.

Through the translation of this papyrus, the condition of the science of mathematics at this early date, 1685 B. C., has become known and further proof is added to the statement that mathematics is the oldest of the sciences. This document also shows that mathematics of the early Egyptians was of a practical nature, which supports the contention of some Egyptologists that all science of these ancient people was of a kind that had a direct application in their life.

The University is fortunate to obtain this copy of the reproductions and translations of the papyrus, which is the oldest mathematical document in the world, and which makes available to the public the subject matter of this important document.

Prohibition Ballot

(Ballot Box in the Lobby of the "Y")

- Do not drink
- Drink occasionally
- Drink frequently
- Favor enforcement
- Favor modification
- Favor repeal
