

DRAMA PRESENTS MOST TALENTED CAMPUS ACTORS

Cast of Forest Production Is Drawn From Students and Members of Faculty.

A cast composed of the outstanding dramatic talent on the campus will perform in the 14th Playmaker Forest theatre production Friday and Saturday, *A Midsummer Night's Dream*, directed by Professor F. H. Koch.

The characters include Playmakers, members of the Playmakers staff and of the French and German faculties. The variety is made complete by children of the village who accompany Titanis and Oberon, performing fairy dances directed by Phoebe Barr.

Spann and Holmes

The humorous characters of two rustic clowns are taken by Dr. Urban T. Holmes and Dr. Meno Spann. Dr. Holmes appears as "Bully" Bottom, the weaver, who swaggers through the play with an ass' head and who takes the part of the dotting Pyramus in the farcical skit of *Pyramus and Thisbe*. Dr. Spann, as Snug, the joiner, plays the part of a lion in the same skit, which is presented for diversion by a group of clownish laborers.

Appearing in a former Forest theatre production in 1928, Shakespeare's *The Tempest*, Dr. Holmes played the part of Shakespeare's "missing link" character, Caliban, as which he was compelled to enter upon the stage with a dead fish in his mouth.

Two other characters in *A Midsummer Night's Dream* appear. (Continued on last page)

BELL RINGERS TO MEET PATTERSON

University Carillonneur Will Organize Guild to Have Charge of Memorial Chimes.

Students interested in learning to play the Morehead-Patterson memorial chimes, and those who have played the carillon during the past year, are asked to meet Walter B. Patterson at the bell tower on Tuesdays, Thursdays, or Saturdays at 5:00 o'clock in the afternoon.

The purpose of these meetings is to prepare for registration in the Guild of Bell Ringers and to select members who will be on the ringing staff next fall.

Organization

The organization consists of several faculty members who ring occasionally; the master ringer, whose duty is to supervise the playing and to instruct those who wish to learn; the journeyman ringers who have contributed three melodies adapted and transposed to suit the chimes; and apprentices, who are receiving instruction and who are in the process of transposing selections to be played on the chimes.

The only prerequisite for candidates is a knowledge of note valuation and the ability to read easy passages at sight. Easy transposition will be taught those interested, and as soon as the apprentices have adapted three melodies they will be entered as journeymen and will be permitted to perform at regular times during the year.

Miss Beale To Address Library School Today

Miss Marjorie Beale, secretary and director of the North Carolina Library commission, will speak at a meeting of the library school today at 12:00 o'clock.

Miss Beale will lecture upon the state library extension agencies. Since assuming her duties September 1, 1930, she reports that 44,377 requests for books were filled by the end of the year 1932, and in addition to this, that the traveling library has at the same time served 1,005 places in the state and sustained a total circulation of 170,775 books.

COMPLETE PLANS ANNOUNCED FOR CLASS REUNIONS

Alumni Headquarters Will Be Established in Graham Memorial Sunday, June 4.

The complete program has been announced for the annual class reunion of Carolina alumni, for which graduates from the late 1870's to the class of 1932 will gather here June 5.

Alumni headquarters will be established Sunday, June 4, in Graham Memorial, where rooms will be assigned to visiting graduates. The reunion program begins Monday morning at 10:30 o'clock with a reminiscence symposium, presided over by Judge Francis D. Winston in Gerrard hall, where a roll call by classes will be made.

Alumni Luncheon

At 1:00 o'clock an alumni luncheon will be given in Swain hall, for which Judge John J. Parker, president of the University Alumni association, is to be toastmaster. Together with alumni, members of the faculty and all seniors are urged to attend the luncheon, since the formal installation of the class of 1933 into the Alumni association will be conducted. There will be a charge of 75 cents for the luncheon.

At 3:00 o'clock the Carolina Playmakers will present a program for alumni in the Playmakers theatre. This will be followed by a reception for seniors and their parents by President and Mrs. Frank Graham. (Continued on last page)

TROOP SCHOOL MEETS TONIGHT IN DAVIE HALL

The 316th field artillery troop school will meet in Davie hall tonight at 7:30 o'clock. All reserve officers and interested civilians are urged to attend meetings, which are devoted to study and instructions in the army extension courses. Tonight's class will be the final session of the school year.

Supper of Committee

The permanent executive committee of the class of 1933, appointments to which were announced Monday, will gather at a supper meeting tonight at 6:30 o'clock in Graham Memorial.

Editorial Board Meeting

The editorial board of the DAILY TAR HEEL will meet tonight at 7:00 o'clock in the office of the paper in Graham Memorial. Tonight's meeting will be the last gathering of the group for the year.

Killinger Finds Relationship With Prominent Nazi Leader

Letter From Close Friend of Hitler Declares His People Are Making Strenuous Effort to Rid Themselves of Poison That Has Collected in Its System Since World War.

Some months ago George Killinger, instructor in psychology, donned a snappy polo coat and strode into his laboratory. The derision that greeted him from the students was equalled only by that of his colleagues. Among the wise-cracks passed later was, "He looked like a German nobleman in that get-up."

Now Killinger has the laugh on the anonymous author of that breezy remark. For, polo coat or no polo coat, waxed moustaches or not, he is related to German nobility. Of course, he has but recently had occasion to make public his lineage, but that hardly renders thinner his noble blood.

Scientific Curiosity

It was the natural curiosity of a scientist that led Killinger to his discovery. Struck by the resemblance between his own name and that of an influential nobleman in the Nazi party, he wrote to a certain Manfred von Killinger of Dresden inquiring whether or not there existed a relationship.

There was indeed a common ancestry. The coat-of-arms of the American Killinger corresponded in its main features with that of a certain Johann Melchior Killinger, who in 1763 had nobility conferred upon him by Charles VII of Austria. Thereafter, the family enjoyed a steady, if unspectacular rise, until at the present date von Killinger is a name respected in the Nazi organization.

Manfred von Killinger descendant of Johann, is now "Reichskommissar fur das Land

Sachsen," which simply means that he is the commissioner for the state in the province of Saxony.

The history of the family can be traced long before the time it became a member of the nobility. As early as the ninth century, a town named Chulinger existed in what is now Wuttenburg, one of the federated German states. This village is now known by the name of Killingen, and the possibility of a relationship between the names of the town and family is an excellent one.

The German writer of the letter received by Killinger was most willing to correspond with his American cousin and anxious to give all information that could be of use or interest to him. His activity in the National Socialist party is evidenced by his almost immediate turn to what he calls "propaganda" in the closing paragraphs of his letter. He says in part, "While I am writing these lines, things are happening, which through misrepresentation and lies, threaten to cloud the name of Germany as once before. Only I do not wish to introduce 'propaganda' in this, our first exchange of letters. I have a firm conviction that you are one of the many Americans who appreciate the terrific effort made by a vigorous people to rid itself of the poison that has collected in its system during the temporary exhaustion of defeat."

Herr Killinger is one of the (Continued on last page)

Carver Abandons Study Of Peanut To Devote Efforts In Other Fields

Negro Scientist Has Won Many Victories Over Nature in His Services to Humanity; Will Spend Remaining Days in Endeavor to Extract New Things for Man.

Turning aside now in his old age from scientific study of the peanut, Dr. George Washington Carver, director of the department of agricultural research at Washington Institute, at Tuskegee, will spend the remainder of his days in other fields and in the development of other products. "No," he said in answer to a query as to whether he would further investigate the resources of the nut he has made great, "I don't think I'll ever go back to it. There is so much work for me to do and so short a while in which to do it that I shall have to leave that to others."

His shoulders were stooped and his hand shook as he spoke to the reporter in his high, nervous voice Tuesday night following his lecture here. The little old man seemed tired and somewhat out of patience with all the show and attention from which he had but a moment before escaped. There was nothing about him to suggest the greatness which is his. He was loath to talk of himself and only through questions concerning his work would he reveal himself.

The Negro scientist has no interest in the commercial aspects of his discoveries except for a small amount to enable him to carry on his investigations into

still other fields. He has been at his research since 1896 when he first went Tuskegee, and although during the past forty years he has won many victories over nature, he feels that his service to humanity is not yet done. "I shall never stop," he said, "until the great Creator says I have done enough."

When he goes to face his Maker to give an account of his life, his desire is not to have it measured in wealth or fame but in service to his fellow man. Wealth he could have for the asking and fame has been thrust upon him, but his service has been his goal. In 1923 he was awarded the Spingarn medal for the greatest achievement of any member of his race, and some years later he was made a member of the London Royal Society of Arts. He holds the degrees of Bachelor of Science, Master of Science and Doctor of Science.

His plans for the future are only to continue the work he has already done, to probe deeper into the problems of natural resources and to carry his research into fields heretofore unsuspected. His answer to the question as to what he was working on at the moment is indicative of his spirit.

"Working on?" he said in (Continued on last page)

Famous Architect To Lecture Tonight

Albert Simons, well-known architect of Charleston, S. C., will appear in 111 Murphey hall tonight at 8:00 o'clock in an illustrated lecture on "Tendencies of Modern American Architecture."

The Fine Arts committee of the University is sponsoring the program, which is brought here under the auspices of the American Institute of Architects.

The speaker will acquaint the audience with the development of the American style of architecture and with the aid of illustrations show the trends of modern art in this field.

BOARD WORKS ON STUDENT REPORT OF EXPENDITURES

Annual Report by Auditors Under Sherrill Nears Completion for Release.

The audit board report which has been in the process of preparation for the past several weeks is about completed and will be ready for release the early part of next week. This report is compiled under the direction of R. H. Sherrill, auditor, and the student Audit Board.

The organizations in this report are divided into two groups: for one group the fiscal year ending on April 30; the second group runs on the basis of the school year. Those organizations in the first group are freshman, sophomore, junior, and senior classes, the electrical, civil, mechanical, and chemical engineering societies, the medical society, the law association, the pharmacy association, woman's association, student government, and the debate council. Among those organizations in the second group are Graham Memorial, athletic association, student entertainment, and the Publications Union board.

The Student Audit Board consists of two faculty members, Dean Bradshaw and R. H. Sherrill, and three student members, Haywood Weeks, Claiborn Carr and Francis Anderson.

CAIN SOCIETY MEETS TONIGHT IN PHILLIPS

The William Cain society, the University chapter of the American Society of Civil Engineers, will convene tonight at 7:30 o'clock in room 319 Phillips hall.

Election of officers for next year will take place. A discussion will also take place on the rotation of the faculty sponsor and contact man. Final plans for the senior trip will be announced.

Engineers to Meet

The American Institute of Chemical Engineers will meet next Tuesday, May 23, as the meeting this Tuesday was postponed. At this time, the annual reward in chemical engineering will be announced.

Nine in Infirmary

The following were confined in the infirmary yesterday: E. C. Bodenheimer, W. J. Jervey, J. R. McInner, James Mallonee, G. H. Crane, H. A. Brooke, Sybille Berwanger, E. B. Kahn, W. T. Heady.

EDDIE DUCHIN TO PLAY FOR FINAL DANCES OF YEAR

Commencement Dances Presented by German Club to Be Presented June 6, 7, 8.

Eddie Duchin's famous broadcasting and recording orchestra has been signed to furnish the music for the final commencement dances of the German club. The annual series of dances will be given this year in the Tin Can Tuesday, Wednesday and Thursday, June 6-8.

This will be the first appearance of the orchestra on this campus, but to radio listeners it is already well known. Duchin has been a regular broadcaster over the Columbia network for some time and may be heard several nights each week over WABC and associated stations. The orchestra has also made many popular phonograph records for leading companies.

Duchin's well-known orchestra is at the present located at the Central Park Casino in New York City. They have been playing an extended engagement there since September, 1931, and it is from there that the orchestra does most of its radio broadcasting.

At Inaugural

The band was among those chosen to play for the recent presidential inaugural ball in Washington, where it is said to have made quite a favorable impression. University students who attended the ball report that Duchin had fully as many followers as the Lombardos or any of the other popular bands there.

Eddie is recognized by many dance fans as one of the out- (Continued on page two)

SENIORS TO MEET FACULTY MARSHAL

Candidates for Degrees to Be Informed as to Commencement Procession.

All candidates for degrees are asked to meet with Dr. Charles S. Mangum, faculty commencement marshal, in Gerrard hall this afternoon at 4:30 o'clock to receive instructions pertaining to the academic parade on graduation night.

The parade will precede the graduation ceremonies, which, following a precedent set last year, will take place in Kenan stadium in the evening.

Candidates will assemble for the procession at 6:15 o'clock and form columns of two's on the walk leading from the Playmakers theatre by Steele, Saunders, and Murphey toward the stadium. The head of the parade will be in front of Bingham hall.

Liberal Arts Leads

At the head of the procession will be candidates for A. B. degrees, with the other divisions in the order to be announced in last Tuesday's paper.

The faculty, trustees, and alumni will assemble and form a column at the south entrance of South building.

Final instructions concerning the procedure at the stadium will be given by Dr. Mangum this afternoon. Candidates are urged to cooperate in order to prevent delay, confusion, and possible personal embarrassment.
