

BARTER SYSTEM USED BY LIBRARY

Plan for Exchanging Books at Low Cost Worked Out with Several Institutions.

The library of the University has returned to the old fashioned system of barter in acquiring books. Because of reduced funds an exchange system has been worked out with the Library of Congress, the New York public library, the library of the University of Chicago, and the Duke University library.

Since every large institution acquires duplicate copies of books which some other library needs, these libraries have made arrangements by which these duplicate copies are exchanged for those that are needed. The only expense is for freight charges.

Recently the Library of Congress sent the library here approximately 500 volumes of books, bound magazines, and newspapers in exchange for selections of pamphlets. A great deal of material has also been obtained from the other libraries in the group.

Varsity Runs Through Practice With Frosh

(Continued from page three) sion, the varsity and frosh gridsters went through a long dummy practice in Kenan stadium. This lasted long after dusk, and the arc lights had to be turned on to give the men light enough to work.

Stress was laid on a pass defense which the Golden Tornado of Georgia Tech will endeavor to penetrate. Passes and more passes were thrown until the sky seemed to fairly rain with white-shelled pigskins, which are used in the night games.

Time-Blocking Improved
The timing and blocking on the running plays showed some improvement. But the Carolina coaching staff is still worried as to whether or not the Tar Heels will be able to stop the trio of Yellow Jacket backs, Martin, Roberts, and Phillips.

Phillips Is Tar Heel
Phillips, the best of these ball-carriers, is a native Tar Heel. He hails from Waynesville. This Phillips is one of those triple-threat backs that one reads about. He can run with the best of them in Dixie while his passing and kicking is little short of peerless.

The Carolina athletic office announced last night a large advance sale of Homecoming Day tickets for the Georgia Tech contest. Already the decorators on the campus have gotten busy and the graceful columns of Graham Memorial are adorned with colorful streamers and posters.

SPECIAL SHOW TONIGHT

The Carolina theatre will present a special showing of Maurice Chevalier's latest picture, "The Way to Love," tonight at 11:15 o'clock. Tomorrow morning there will be a matinee presentation of the same film at 10:30 o'clock. The theatre will be closed for the Carolina-Tech game, but showings will begin immediately afterward.

REV. STEWART TO PREACH

The Reverend Donald Stewart of University, Virginia, will preach at 11:00 o'clock Sunday morning at the Presbyterian church and will lead the discussion in the student forum at 7:30 o'clock in the evening. The Sunday school and Bible class will be conducted at 9:45 o'clock in the morning.

SOCIAL TALK POSTPONED

Professor E. J. Woodhouse's talk on "Tools for Social Change," to have been held at the Bull's Head yesterday afternoon, was postponed when it was discovered that this date conflicted with the meeting of the Woman's association and with the cake race. The talk was postponed until next Tuesday in order that it would not interfere with other activities.

Bryson Says State Should Aid Project

North Carolina should back the Tennessee Valley reclamation program wholeheartedly although it may be 15 years before this state will be benefited by the plan, Herman Bryson, state geologist, declared in an address to the Chapel Hill Rotary club Wednesday night.

Bryson gave the major purposes of the plan as utilization of rivers and other natural resources, development and reforestation of waste land, and study of county and municipal government.

Work on the Morris dam, to cost \$4,000,000, will be begun immediately, he said, with other projects. The Morris dam is to generate six times the present power developed from the river.

Bryson pointed out that 15 per cent of the territory generally described as the Tennessee Valley is in North Carolina.

YACKETY YACK NOTICE

All photographers who have not tried out for the Yackety Yack are urged to come out. There will be a meeting of these men at 1:30 o'clock in the annual office at Graham Memorial.

Cold Story by Freeze

The American Journal of Hygiene for May contains an article by H. L. Freeze entitled "A Study of the Common Cold in an Isolated Community." The facts center around Spitzbergen.

TAR BABIES PLAY WOLVES TONIGHT

(Continued from page three) Tar Babies lies in the State freshmen's passing attack. The Carolina gridsters have been working full time on a defense to meet the Wolflets' aerial threats.

The freshmen won their opening game from a strong Louisville eleven, 12-0, while State freshmen have beaten Davidson 14-0 and tied Duke 6-6. The Greensboro battle tonight is expected to play an important part in settling the Big Five freshman championship.

Coaches Fetzer and Cerny stuck to the Dunham-Dashiell-Cooner-Hutchins basketball combination during the past few days' scrimmage. All indications were that this would be the backfield to start in the State tilt.

The probable starting line-up for Carolina tonight is as follows: Buck, left end; Trimpey, left tackle; McIver, left guard; Lipscomb, center; Oberne, right guard; Singer, right tackle; McCarn, right end; Durham, quarterback; Cooner, right halfback; Dashiell, left halfback; and Hutchins, fullback.

MANGUM AT MEETING

Dr. Charles S. Mangum, dean of the medical school, will leave Saturday for the naval hospital in Minneapolis to attend a meeting of the Association of American Medical colleges. He will be away during next week.

From Our Contemporaries

One of the best ways to distinguish a freshman from an upperclassman, since the gentleman of the first year rarely wear the "pot," is observation that the freshman will often run to avoid being late to class.—Purdue Exponent.

What you want in your pipe

... is tobacco that's made to smoke in a pipe. This means the right kind of leaf tobacco—the kind that grows for pipes.

It means that it's made right... and old man Wellman, who taught us how to make Granger, knew how. It means that it's cut right.

Just pack Granger good and tight in your pipe and strike a match. Folks seem to like it.
