H.S. DEBATE QUERY IS MADE PUBLIC BY E. R. RANKIN

Comparison Will Be Made of English and American Radio Systems.

The query which will be discussed by members of the high school debating union this year is: Resolved: That the United States should adopt the essential features of the British system of radio control and operation. This was announced yesterday by Secretary E. R. Rankin, following a meeting of the central committee of the high school debating union here.

The topic which has been chosen for the high school debating contest is also the national high school debate subject for the current year, to be discussed by high school debating leagues in thirty-three states.

The schools becoming members of the high school debating union will take part in a statewide triangular debate in the spring. Schools winning both their triangular debates will send teams to the University to enter the contest for the Aycock Cup. This organization is an extension activity of the University.

A debate will be broadcast on the same subject November 1, from three to four o'clock, on coast-to-coast networks of both the National and Columbia Broadcasting companies' systems.

The debate will take place under the auspices of the National University Extension Association's committee on debate materials and inter-state cooperation.

The affirmative team is composed of: E. C. Buehler, of the University of Kansas; H. L. Ewbank, of the University of Wisconsin; and C. C. Cunningham, of Northwestern University. Representing the negative side of the question are: President Harry W. Chase, of New York University, and two others to be selected from the faculty of the University of Chicago.

SERVICE PLANNED BY FRAT BUYERS

Fraternity Buyers Association To Install Pressing Service Department for Members.

The Fraternity Buyers association yesterday announced definite plans for a pressing service department for its members, which will be located in Sutton building. The service will be for members only. No dry cleaning will be done by the association.

Last year the association, composed of 12 fraternities organized into a non-profit corporation, purchased coal for its members, creating a net saving of \$200. The pressing service will be a result of the success attained in the coal buying venture.

The officers of the organization are Herbert Taylor, president, Henry Anderson, secretary, and C. D. Miller, business manager. Any fraternity desiring membership can obtain such by purchasing one share of the corporation stock and by obeying the by-laws.

STUDENTS RALLY AT PEP MEETING BEFORE BIG GAME

1,500 Noisy Supporters Parade And Cheer in Demonstration Before Tech Game.

Torches blazed, fireworks thundered, strains of "Hark the Sound" filled the air as 1,500 Carolina supporters gathered around a roaring bonfire behind Memorial hall last night to promise their moral support against Georgia Tech here today.

The pep rally was one of the most spirited and exuberant held on the campus since the days of Kay Kyser and was the best attended rally of the year.

The procession started from the post office, winding down Columbia and ending behind Memorial hall. Led by Ernie Hunt, the mob let off steam with booming yells, after which Stephan-fetchit, venerable Carolina mascot, exhorted the student body to support the team tomorrow like he himself has done since 1916. George Bronson and Allan McDonald worked the students into a high state of frenzy with burning pep talks.

The rally ended in a huge snake dance which wound and twisted its way across the campus.

The fireworks for the pep rally were donated by E. C. Smith, manager of the Carolina theater.

Carolina's fighting Tar Heels rested last night after yesterday's light work-out in preparation for the all-important Homecoming Day game with Georgia Tech this afternoon at 2:00 o'clock.

Coach Bob Fetzer, in the absence of Head Coach "Chuck" Collins, who had gone to scout Wake Forest in their game with Catholic U., put the Carolina varsity through its final work yesterday. Coach "Bob" drove his charges hard, running through a light dummy scrimmage and a long drill of kicking off and returning punts.

The entire squad was enthusiastic and an optimistic spirit prevailed. Although the Tar Heels have lost their last three games, the team seemed confident over their chances of turning back the highly-touted Golden Tornado.

PRESS RELEASES LYNCHING STUDY

Book by C. H. Chadbourn Answers Questions Concerning Practice in General.

The University press recently released "Lynching and the Law" by C. H. Chadbourn, assistant professor of law. The book is one of the University of North Carolina study series.

Questions are answered concerning the reasons for legal processes breaking down in the face of mob violence, and reasons for lynchings generally going unpunished.

In the spring, the press released "The Tragedy of Lynching," by Dr. Arthur Raper, an alumnus of the University. This book has rapidly become the leading authority throughout the United States on lynchings in the south and their underlying causes. The book points out the fact that conditions of living in the localities where these tragedies have occurred have been largely responsible for them.

Dr. Raper's book presents the findings of the Southern Commission on the Study of Lynchings, a body appointed by the national administration to investigate the 21 lynchings which occurred in the south in 1930. The University was represented on this committee by Dean W. C. Jackson, Dr. Howard W. Odum, and Dr. Arthur Raper.
