of the tree, that which formed the arm-rest and the natural seat. This has detracted much that is inviting from the appearance of the Kissing Tree. Squirrels seems to have caught the idea from boys and girls who have visited the tree. When the writer was observing the tree for description in this story he saw two of them in action. One was on the ground below and the other was climbing halfway up the trunk. The latter rodent ceased its climbing, turned its head and with an amorous look in its eye glanced at the squirrel on the ground as if to suggest, "Come up to see me sometime-anytime."

IT TAKES HEALTHY NERVES TO BE AMERICA'S GREATEST STUNT GIRL

● A SUDDEN NERVE-RACKING swing upward from a racing auto into a hurtling plane... It's all in the day's work for Mary Wiggins, famous stunt girl who also dives on fire into fire and does the suspension glide in mid-air while hanging only by her teeth. It means something when she says, "Camels never give me edgy nerves even when I smoke a lot."

JOE: I'm so glad to see you, Sue. Were you nervous during your first flight?
SUE: Not a bit. I smoked Camels all the way, and I never felt better! I haven't worried about nerves since I took your advice and changed to Camels.

Steady Smokers turn to Camels

LISTEN TO MARY WIGGINS, greatest of all girl stunt performers, as she tells of her discovery that one cigarette is different from the others! She says:
"I have to be sure my nerves are healthy to do my stunts, changing from a speeding auto to a plane, the high dive on fire into fire, wing walking while up in a plane, and the high-altitude parachute jump. As to smoking, I've found that Camels don't interfere with healthy nerves. I've tried all the brands. Camels are milder and better in flavor. They do not give me edgy nerves even when I am smoking a lot."

IT IS MORE FUN TO KNOW
Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.
