## Secretary Frances Perkins Will Speak And Lead Forum Here Next Wednesday Night

### CPU Guest Will Be Honored By Special Reception

Maintaining an established reputation for presenting nationally known speakers on its forum, the Carolina Political union will sponsor an address here by Secretary of Labor Frances Perkins next Wednesday night, January 11, at 8 o'clock in Memorial hall.

CPU Chairman Voit Gilmore said yesterday that Miss Perkins will lead the usual open forum discussion which all speakers brought here by the organization are asked to take part in.

Miss Perkins, in private life Mrs. Paul C. Wilson, was scheduled to appear here last December 8, three days after President Franklin Roosevelt's speech here, but urgent administrative duties forced her to postpone the trip to Chapel Hill until this month.

### PERTINENT SPEECH

Miss Perkins has indicated that recent developments in the ranks of labor would make her speech very pertinent. She is expected to take some official stand on the current labor split between the American Federation of Labor and the Congress of Industrial Organizations.

The speaker was appointed by President Roosevelt to the role of labor department chief soon after his election to the presidency in 1932. Thus she became the first woman to hold a cabinet position in the United States government. Throughout her period of federal service Miss Perkins has been under political fire by opponents who claimed she has failed to take any decisive action in the direction of solving current labor problems. A movement recently started in congressional circles would allegedly result in her impeachment or otherwise cause her replacement as secretary of labor.

According to present plans Miss Perkins will arrive in Chapel Hill early next Wednesday afternoon. She will be honored by a reception in Graham Memorial at 4:30. Her address will be broadcast over a state-wide radio hook-up.

Miss Perkins is the only CPU speaker this far to make a definite agreement.

## PHI BETA KAPPA WILL INITIATE

### Eleven Students May Be Inducted

About ten men students and one woman student will be initiated into the Phi Beta Kappa society at their next meeting to be held tomorrow night at 7:30 in the banquet hall of Graham Memorial.

These students, who have become eligible to membership in the society by completing nine quarters of work in the University with an average of 92 or better, are the last to be selected by the old method which has been employed by the Phi Beta Kappa for some time. Henceforth, the members will be selected by a new plan, the details of which have not yet been divulged.

Although little is known about the new method to be used, it has been ascertained that the change will be concerned with technicalities in the by-laws of the organization. The new plan was conceived and worked out by the executive committee of the local chapter and has since been approved by the National Senate of the Phi Beta Kappa.

It seems that due to these amplified rumors many persons were under the impression that a large cheating ring had been broken up and it was this belief that Joyner wished cleared up.
