### University Helps Support Mountain Biological Lab

#### Dr. Coker and Colleagues Carry On Important Research Work In Mountains

By LOUISE JORDAN  
"Few professors, not to mention students, have any idea that the University helps to support a laboratory at Highlands," Dr. W. C. Coker, head of the Botany department, said recently in describing some of the outstanding work of his department. Cause for such an observation lies elsewhere, however, rather than in the importance of the laboratory.

The laboratory is located on a seven acre lake which is owned by the corporation. Dr. and Mrs. Coker have a cottage opposite the laboratory and go there every summer usually to spend the month of August. Last year they and the students stayed about seven weeks.

The mountain biological laboratory and museum at Highlands, N. C., is a (Continued on page two)

### LITTLE SYMPHONY WELL RECEIVED IN 200 CONCERTS

#### Alumnus To Direct Hill Hall Program Tomorrow Night

Thor Martin Johnson, alumnus of the University, will conduct the University of Michigan Little Symphony orchestra in a concert here tomorrow night at 8:30 in Hill Music hall. Acclaimed by music critics over a large part of the country as being outstanding in its presentations, the recently formed group has given over 200 concerts in the past three years and has been enthusiastically received at each presentation.

Johnson, after graduating from here, proceeded to the University of Michigan where he took a graduate course and received his masters degree in music. While there he organized the University of Michigan Little Symphony orchestra which he has directed ever since.

Johnson's record here was somewhat similar to that of another well-known orchestra leader who graduated from Carolina some years ago. Like Hal Kemp, Thor Johnson took an active part in musical activities on the campus. While attending school he was a member of the University Symphony orchestra and then organized his own band which played mostly popular music. With four other members of his band, he toured Europe and was enthusiastically received (Continued on last page)

### YWCA OPPOSES RECENT POLICIES OF BUCCANEER

#### Women Maintain Jokes Are Not Representative

Recognizing the need for and place of a humor magazine on the campus, members of the YWCA cabinet nevertheless expressed themselves at a meeting last night as opposed to recent policies of the Carolina Buccaneer.

The cabinet representing the YWCA, recognized the possibilities of the Buccaneer to show a side of student life not presented by other publications or campus organizations in presenting students, their affairs and campus events in a casual, humorous light.

In criticizing the recent issues of the Buccaneer, the cabinet maintained that its attempts at humor are not representative of the campus for the reason that an institution such as the University should be interested in a higher type of joke than could be purchased in a cheap humor magazine, and to an objectionable extent this is the type of joke to which the Buccaneer has reverted. Neither is it representative if, as the editor implies himself, the humor is too subtle to be understood.

One cabinet member remarked that (Continued on page two)

Ten questions will be asked and the polls will be open from 8:30 in the morning until 3:30 in the afternoon on both days. The ten questions which will be asked are: Do you favor continuance of the present kind of Buccaneer? Do you approve admittance of Negroes to any department of the University? Do you favor increasing out-of-state tuition 50 dollars per year? Should the CPU allow its programs to be broadcast?

Should the Republicans nominate Senator Taft for President in 1940? Should the Democrat's 1940 presidential nominee be a New Dealer? Was it wise for congress to override the president in reducing relief appropriations 150 million dollars?

### BANDS CONSIDERED FOR MAY FROLICS

#### Shaw Not Available At Desired Dates

Several nationally known orchestras, Kay Kyser, Hal Kemp, Larry Clinton and Jimmie Dorsey, are under consideration by the May Frolics committee to play for the annual set of dances, Watt Miles, chairman of the committee, announced yesterday.

The committee has tentatively set April 14 and 15 as dates for the affairs. However, in order to get a name band which is on tour during April, the committee may change the dates to either April 7 and 8 or April 21 and 22. The income of the organization is limited, so it is necessary that in getting a well known band, one will be chosen which will be on tour in the state at that time.

NOT SUITABLE  
Artie Shaw's orchestra was seriously considered until yesterday, when a wire was received stating that the only available date would be April 12 and 13. The committee decided the date was not suitable, since it would place the dances within the week, instead of the week-end.

The choice of orchestra depends on which of the prominent orchestras will be touring this section during April. Announcement of the selection and the definite date will be made within the next few days.

Members of the committee are: Watt Miles, chairman, Beta Theta Pi; Victor Harlee, Sigma Chi; Ernest Craige, Sigma Nu; Kenneth Tanner, Sigma Alpha Epsilon; Kenneth Royall, Delta Kappa Epsilon; Gilbert McCutcheon, Kappa Sigma; and Thomas Parrott, Zeta Psi.

#### Sociologist Says Two Viewpoints Must Be Considered

Renewed interest in the problem of equal educational facilities for Negroes as a result of the student questionnaire sent by Miss Pauli Murray and President Graham's reply to her application for entrance in the University graduate school, makes pertinent a statement made yesterday by Dr. Howard Odum, head of the sociology department.

In regard to the means of providing equal educational opportunity, Dr. Odum said, "Everybody with common sense knows that there are two phases to this problem. One is the long time problem extending far back in the history of society and race conflict and looking forward to the long time equitable adjustment in the future. Everybody hopes too that we can do better in the future than we have in the past."

"But there is also always the very realistic problem of what to do now and how to do it best. We must keep asking the question, 'Do we want to (Continued on last page)'"
