Fighting Men Seeing Action Overseas

More Production, **Fewer Meetings** Insure Victory

By Walter Klein

"Eighty per cent of England's troops and military equipment have been shipped overseas."

Sir Gerald Campbell, British Minister addressing a 1,200-man audience last night for the IRC, thus destroyed rumors of England reserving all her war power at home and letting the colonials do the fighting.

"We have shot down 9,346 Axis planes since the war's start, and that doesn't include those knocked out by the RAF on the Russian front." Campbell stated that Englands production still outstrips Americas, but by mid-June the United States will surge ahead. "And we British wont be jealous of that."
