

New S&F Show Has Music But No Lines

President Frank Graham urged today that everyone who can't dance or sing, but can explain Einstein's theory to try out for the winter show of Sound and Fury.

Pokey Alexander, president of S & F told the reporters from the damn Tar Heel that no talent was necessary since Mr. Alexander is a firm believer that talent has ruined the majority of

shows given at Chapel Hill.

Young girls are discouraged from trying out. Women between 60 and 80 are needed for the chorus line as their well developed personalities are a requirement. Hubba Hubba girls need not apply.

Tryouts will be held on the second floor of Graham Memorial in the janitor's closet from three to five in the morning.

Applicants need not worry about memorizing lines—there will be no lines. All the music is original, it was written by students in the second grade of P. S. 56. It is a new type of music rapidly gaining popularity in America. It consists of one note played constantly.

If you want to insure your campus fame, be a part of Sound and Fury.
