Stage Now Set To Terminate Price Control

Complete Abandoning Scheduled by 1947

Washington, Oct. 15 — (UP) — In his speech last night, President Truman left the door open for a complete abandonment of wage controls by the end of the year—if not before.

Tonight, less than 24 hours later, the Reconversion Advisory Board has told Mr. Truman that wage controls are dead and that the stabilization of wages and prices should be made a matter of collective bargaining between labor and management. If that recommendation is accepted—and there's reason to believe it will be—it will mean the end of our wartime control economy.

Office Readies End

The machine that will bring the nation back to a free economy already is rolling. The OPA is working on a list of hundreds of other items soon to be freed from controls. It is believed that when the OPA publishes that list early in November, the only items to remain under control will be rents, cars, building materials, furniture, household appliances and farm equipment. When that is done, an estimated 60 to 65 per cent of the national economy will be uncontrolled and the government will have surrendered its leadership in the anti-inflation fight to labor, industry, and the consuming public.

Kentucky Train Wreck Kills Two Enginemen

Paris, Tenn. Oct. 15 (UP)—The Pan-American, crack Louisville and Nashville railroad passenger train, has been derailed one and one-half miles north of Russellville, Ky. The engineer and fireman are reported killed and about 16 passengers injured.

Assistant Division Superintendent K. W. Graham says the engine and four coaches left the rails at 3:08 p. m., after the fast train hit a large truck loaded with heavy machinery. The truck had stalled on the rails. The engine turned over, but the four coaches remained erect. The fifth car, a Pullman-sleeper, did not leave the rails, according to Graham.

Ban on Mexican Cattle Lifted by Government

Washington, Oct. 15—(UP)—The Agriculture Department announced tonight that its quarantine on Mexican cattle will be lifted at one minute after midnight Friday. The action had been expected following President Truman's disclosure last night that an investigation had shown that there no longer was any reason for the embargo against Mexican beef. Some 300,000 head of cattle are being prepared for movement across the border.

Justice Jackson Asks Further War Tribunals

Washington, Oct. 15—(UP)—Supreme Court Justice Robert Jackson, chief U. S. prosecutor at the Nuernberg trials, has recommended to President Truman that "many" German industrialists, politicians and diplomats be brought to justice through war crimes trials. Endorsing the verdicts of the Nuernberg tribunal in a formal report to the President, Jackson said that "a considerable number of industrialists and financiers, leading cabinet ministers, top SS and police officials, and militarists" should be prosecuted.

Fire at Fair Opening Fails to Daunt Crowd

Raleigh, Oct. 15—(UP)—The biggest opening day crowd in history milled through the State Fair grounds here today, enjoying the carnival and looking at the exhibits. An early morning fire wiped out ten concession booths at the fair, but no one was injured. The damage is estimated at 25,000 dollars.

Wives of Vets Get Services

The scope of services offered to married veterans at the University was discussed yesterday at a meeting of the committee to advise and help married veterans.

Dr. E. McG. Hedgepeth, infirmary head, said that all veteran wives were eligible for infirmary service after paying the small quarterly student infirmary fee.

Says Services Here Superior

Mrs. John Alcott, committee member who has just returned from a trip to the University of Chicago, the University of Wisconsin and Northwestern University, said that health services offered to veterans and their families on this campus were superior to those given to men and women on any of the three campuses she surveyed.

The committee officially commended the work of the church nursery schools now caring for children.

J. S. Bennett, supervisor of operations, replied to the committee's request that Mason Farm roads be paved by saying that the work was already planned. The committee also recommended that lights be installed on Pittsboro Road.

Committee members are Mrs. Clarence Heer, Mrs. John Alcott, Dean E. L. Mackie, Dr. E. McG. Hedgepeth, Col. Carlyle Shepherd, Prof. Muriel McLauchlin and J. S. Bennett.

Soviet Warm Port Aim In Big Three Clash Is Discussed by IRC

The International Relations club at its weekly meeting discussed the Dardanelles in relation to the controversy between United States, Britain and Soviet Russia.

Significant among the points brought out was the motive behind Russia's drive for a warm water outlet on the Black Sea. Conclusions reached by the group were: Soviet Russia prepares for world peace by military and commercial domination of southern Europe and the almost certain probability that Great Britain and the United States would ally themselves against any aggrandizement by Russia.

The consensus would put the club on record as supporting and demanding that the 1939 pact made between Turkey and Great Britain and the United States be maintained and its provisions upheld with a possible settlement of further disagreement by the UN.
