Tin Can Still Holds Reputation of Activity Catch-All As Pajama-Clad Students Replace Crip Shot Experts

By Burke Shipley

Ever since the Tin Can became part of the University facilities 23 years ago it has been a general catch-all for student activities and has pinch-hit for many University emergencies.

Once again it has been an ace-in-the-hole for the administration in regards to its policy of admitting as many students as possible. The beginning of this quarter found nearly 275 students living within its steel, sheet-metal walls. Many since then have taken off for 'greener pastures.' However, there are still 160 sweating out moving day that is anticipated within the next few weeks.

No longer does sweet and hot music rock the Tin Can's roof, nor do basketballs bound off its backboards. On its floors now stands a veritable sea of double-decker beds. At first, similar to sardines in the proverbial can, the occupants now have a reasonable amount of breathing space for themselves and their belongings.

Week-day activities in the Can begin at 6:30 each morning with preparations for the race to Woolen gymnasium washing facilities. Nine wash-basins 'bottle-necking' the situation make the competition fairly rough among those trying to get to eight o'clock classes.

The elements also add their little inconveniences. Old Jupe Pluvius is an unwelcome guest, admitted by courtesy of the roof, each time it rains. The Can is noted for agreeing with the weather conditions outside and its heaters will face a real test later this fall.

John Walters, Jr., of Reidsville, manager of the residence, said "that after much preliminary grumbling and complaining, the fellows have become resigned to living in the Can as the best substitute under present cir-

Three "tin canners" dig down to study barracks' style. As soon as dormitory space can be provided for its present residents it will be used once again as an auxiliary gymnasium. Staff photo by Bob Reams.

cumstances." Co-managing the Can and also from Reidsville is James Moore.

Housing students is merely one item in a long line of duties the Tin Can has fulfilled. Once the students have been moved, it will revert to the Athletic association from the administration and serve as an auxiliary gym. Coach Bob Fetzer, who brought the Can to the campus in 1923, stated "along with an increase in student population, there must be a corresponding increase in recreational facilities, which the Tin Can will in great part provide."

Until 1938, the Tin Can was used

as the main area for indoor sports and many a track star will remember the Southern Conference indoor track meets held in that much maligned building. In addition to gym classes, boxing and wrestling bouts, the conference basketball games were played on the Can's long unused hardwood courts.

Also, it housed the University's dances and was the site of the first Sadie Hawkins' Day shindig here back in 1941. Before Memorial Hall was rebuilt, the Can doubled for an auditorium and more than one audience heard addresses and concerts within its 'eye-sorish' exterior.

Function of Rightists Cited by Dr. Kattsoff

At a meeting of the Carolina Conservative club Monday evening, Dr. L. O. Kattsoff spoke on the "Function of Conservatism." He warned against using such labels as "radical, reactionary, or conservative" as applied to people. He asserted that all human beings should strive for "truth, justice, and love."

In a speech of welcome to the audience, Mr. Mullinax, president of the club, stated "Carolina is not 'liberal' as now represented by the present meaning of the word; however we have a small and noisy minority here who insist on misrepresenting us."

Three new members were elected: George Strong, Philadelphia; Dan Jackson, Winston-Salem; and Charles York, High Point. Meek A. Carpenter, Kings Mountain, was elected Second vice president and publicity manager to replace Dan McFarland, forced to resign because of too great an academic load.
