

Potat Wins Grid Contest; Predicts Tennessee Score

Weekly Entires Show First Big Epidemic Of Correct Guessers for Tar Heel Game

In winning the past weekend's Graham Memorial football contest, winner Otis Y. Potat, of 302 Mangum, established a new record. It is the first time the weekly winner has predicted the correct score between the Carolina team and its opponent. Potat nosed out John D. Von Canon of 34 Old East by virtue of gazing into the crystal ball and coming up with the right score. Von Canon favored the Tar Heels over Tennessee.

There was a record-breaking number of correct-score guessers this week. Of the nine who predicted correctly, Prince Nufer and Alice Robertson represented the coeds. Rodman Spruinn, W. H. Gully, M. C. Brown, R. N. Davis, George McAden, Edgar Bowers and A. H. Payne came through for the males.

"A. Kilroy," whose weekly entry is eagerly awaited by the ballot checkers, floored out on an eight-wrong count, while "Tyron Power" of Spencer dormitory missed half the games. Monogram club prexy Mike Morrow bit the dust on six failures.

An even 2,000 ballots for the coming weekend's games were distributed early this morning at the YMCA and Graham Memorial lobby. Blocks must be marked and dropped into the ballot box at Graham Memorial before six o'clock Friday afternoon.

Bedrooms will house ten double decked beds, five on each side; an individual locker and clothes hangars for each of the 20 residents; and writing tables. All huts are commodious enough to give each resident plenty of space.

The three study halls will be the last word in modernity, furnished with two rows of fluorescent lighting. Furthermore, tables, chairs, book racks and other conveniences will make the huts one of the best places on the campus where a student can do serious studying.

Not Like Iceland
All 36 huts are nearing completion and it will not be long until many veterans will be residing in those Icelandic structures. But they will not find the cold, damp structures they

expect. Instead they will be stepping into the most modern dormitories on the campus.
