

# Rushing Begins Tonight; Strict Silence Observed

By Wood Smethurst

Fraternity men and rushees will meet tonight in the first session of the week-long ordeal called "rush week."

The rushees will go from house to house tonight, meeting hundreds of boys in a succession of bull sessions. And for them, the first night will be a jumble of half-remembered names and faces and home towns.

But for the fraternity men, it will mark the beginning of one of the toughest jobs forced on a college boy . . . judging a boy's potential worth to the community, his compatibility with the group, and his personality . . . and then making a decision that may easily effect the rushee's life.

Then as rushing comes to a close, the weight of the decision rests with the rushee. Whether to join or not to join. And then which one.

The rushee comes to his decision with all the experience of about a month on campus to back him up. He weighs the advantage of fraternity life against those of dorm life, and makes his choice.

There will be a period of strict silence from 9:30 Thursday until Sunday at 7, to give the rushees a chance to think and to catch up with studying.

Sunday is "Shake-up" day. "Shaking up" is the act of agreement between a rushee and a fraternity in regards to pledging that fraternity. This is the tensest time of all around at the houses.

Then another period of strict silence until Noon Wednesday, October 17. By then it's all over but the shouting. This is pledge day, with the actual pledging

ceremonies being held that night. This does not mean that boys who have trouble deciding cannot wait until they have made up their minds. The Interfraternity Council admonishes the rushee to "Take your time in making a decision."

## Press Group Elects Three From Raleigh

Three Raleigh High School students stole the show at the final session of the North Carolina Scholastic Press Institute, meeting in Gerrard Hall yesterday afternoon by taking the top elective posts.

Gary Williams of Hugh Morson High School, Barbara Sneed of Cathedral Latin High, and Evelyn Briggs of Needham Broughton High were elected easily for president, vice-president, and secretary. Nick Fisher, of High Point, was elected treasurer.

Elected to advisory posts were Mrs. Doris Sigmon of Hickory High, yearbook advisor, and Mrs. A. H. Farmer of Bailey High, newspaper advisor.

The Saturday session closed a two-day convention in which 200 newspaper and yearbook workers representing 33 high schools participated in seminars, heard speeches by leading North Carolina newspapermen, and attended a banquet last night at the Carolina Inn ballroom. They heard Miss Carolyn Goldberg, Hollywood correspondent for N. C. newspapers speak on "Reporting Hollywood."

## — Negro —

(Continued from page 1) Greater University regarding the segregation of Negro students at intercollegiate games, we, the students, so segregated, humbly implore his Excellency, pursuant to Section 114-2, subsection 5, of the General Statutes, to request of the Attorney General a ruling on the legality of the Administration's action in this matter.

"We sincerely desire to avoid further litigation. It is our belief, however, that the administration's announced policy is not in keeping with the law as declared in the case of McLaurin versus Board of Regents and likewise is contra to the order issued by Judge Hayes in the case of McKissick versus Carmichael.

"We believe the question pre-

sented to be one of sufficient importance and public concern to warrant ruling or opinion by the Attorney General.

"Any attention given this matter by his Excellency will be greatly appreciated."

The McLaurin case refers to the U. S. Supreme Court's decision three years ago whereby the University of Oklahoma was directed to stop segregating Negro student, G. W. McLaurin in his seating in the library, classroom, and dining hall.

Segregation in this case was deemed discriminatory.

In the other case cited, McKissick versus Carmichael, the students referred to the Federal court suit where the first Negro students were admitted here.

## Drivers Set Up Tent

Cement-mixer truck drivers set up tent headquarters and then established picket lines across the street from their employer in their second day of a strike against the Construction Supply Company of Durham yesterday. But delivery of some concrete is being made, company officials said.

The truck drivers strike will hold up construction on projects here, company officials indicated. Although carpenters returned early last week, cement is needed now to fill up the wooden molds in the building project.

Main reason for the strike are the drivers' wish to have the Teamsters and Chauffeurs Union, Local 81, recognized as their bargaining agent.

This classy campus caper-cutter got his snootful of cute cigarette tests. It didn't take him long to dig out the fact that cigarette mildness can't be determined by a mere single puff or quick-sniff experiment! Millions of smokers, on and off the campus, have discovered there's only one true test of cigarette mildness.

IT'S THE SENSIBLE TEST . . . the 30-day Camel Mildness Test, which simply asks you to try Camels as your steady smoke — on a day-after-day basis. No snap judgments. Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why . . .

After all the Mildness Tests —
