CHAPEL HILL, N. C. THURSDAY, MAY 8, 1952

EIGHT PAGES TODAY

IF YOU ARE A Y COURT habitue you're familiar with the guy who occupies this spot during mid-morning each day. Dubbed "Sam the Squinter" by Y Courters, the construction worker moves into his bushy retreat and sipping coffee ogles the coeds. Two of yesterday's cups are circled.—Staff photo by Ruffin Woody.

NEWS IN BRIEF

DURHAM—Three Durham men were brought before U. S. Commissioner Henry Bane here yesterday on charges growing out of the Leaksville bank robbery. Two other men are being held in jail here in connection with the robbery and two others are being held elsewhere.

COLUMBUS, Ohio—Sen. Robert A. Taft yesterday won most of Ohio's 56 Republican presidential votes as Sen. Estes Kefauver made a strong bid for the Democratic delegates. The Tennessee Senator appeared likely to offset his Florida popularity primary loss to Sen. Richard B. Russell.

MIAMI—Senator Estes Kefauver received his first defeat in a presidential preference primary here yesterday as Sen. Richard B. Russell took most of the northern farm votes to win by a slender margin of about 30,000 votes.

WASHINGTON — Chair-Secretary Robert A. Lovett yesterday gave qualified endorsement to an anti-strike bill that would let Congress or the President throw operation of vital industries into the courts. The bill is said to "take up where the Taft-Hartley Act ends."

TOKYO—Gen. Mark Clark arrived in Tokyo yesterday with a pledge to make every effort to achieve an honorable peace in Korea. Gen. Clark is the newly-appointed UN and U. S. Far East commander.

SEOUL, Korea—Allied war planes ripped up two Red rail lines in 340 places Tuesday and were back blasting them again yesterday. More than 60 more gaps were opened up yesterday in the stretch of main line north of Red Korea's capital, Pyongyang.

Secretary Of Labor M. Tobin Will Speak At 8:30 Tonight

Speaker Due Early; Campus Tour Slated

Maurice J. Tobin, Secretary of Labor in President Truman's cabinet since 1948 and a former governor of Massachusetts, will speak here tonight at 8:30 in Memorial Hall. His topic is unannounced.

Tobin arrives at 2:16 this afternoon at Raleigh-Durham Airport and will be met by William C. Friday, assistant to President Gordon Gray, and members of the sponsoring Carolina Political Union and Forum.

The labor secretary will be shown about campus this afternoon and will be feted at a supper at 6:30 p.m. at the Carolina Inn. After his talk tonight, Tobin will be honored at a reception at 9:45 in the main lounge of Graham Memorial. He will leave for Washington tonight.

Forrest H. Shuford, N. C. Commissioner of Labor, will introduce Tobin.

Appointed Secretary of Labor in August, 1948, Tobin was named by President Truman as director of Defense Manpower in 1950 and was appointed member of the board of governors, American National Red Cross, in 1949. He is a member of the Defense Mobilization Board.

A native of Roxbury, Mass., Tobin was educated at Boston College and holds honorary degrees from it and a number of other colleges and universities.

He was associated with New England Telephone and Telegraph Company, 1922-37, in various executive capacities.

A member of the Massachusetts House of Representatives, 1927-28, Secretary Tobin was appointed to the New England Advisory Board E R A in 1933. He was elected Mayor of Boston in 1938.

MAURICE TOBIN

Middies Hold Parade; Get High Awards

The Naval ROTC put on a colorful show on Navy Field yesterday afternoon with 318 midshipmen passing in full-dress review.

Twenty medals and trophies were awarded for excellence in the various fields of military study, drill, and leadership this school year.

The awards were presented personally by a reviewing group composed of Judge E. Earle Rives, Greensboro, president of the General Alumni Association; Ben Cone, former mayor of Greensboro; Capt. J. S. Keating, commanding officer of the unit; Prof. R. H. Wettach of the University Law School, and Paul H. Robertson, Chapel Hill, sergeant-at-arms, State Department, American Legion, who substituted for the state commander.

Awards went to the following midshipmen:

"Professor of Naval Science Award," Joseph J. Gray Jr., Wilmington, for contributing most to the welfare of the unit.

"American Legion Medal," James C. Collins, Berwyn, Pa., for outstanding qualities of military proficiency.

"Best Drilled Company Award," Richard F. Davis Jr., Gainesville, Fla., for company leadership in inter-company drill championship.

"Best Drilled Platoon Award," Allan J. Donald, Ridgewood, N.J., for leadership in inter-platoon drill championship.

"NROTC Intramural Award," Raymond W. Stein, Lakewood, (See NAVY, page 8)

Card Board

The Card Board—planner of those elaborate stunts executed at home football games—will hold a meeting at 7:30 tonight in Roland Parker Lounge No. 1, Graham Memorial.

Vacancies exist in the artist, office, and usher staffs and students interested in working with the Card Board should attend tonight's meeting. All old members are urged to be present by President Jim Steegall.

Social Rooms Will Be Added In Nine Dorms

Long Range Plan Complete; Ready For Use In Fall

by Jody Levey

Nine men's dormitories will have social rooms added, furnished and ready for use next fall, it was revealed yesterday.

With the new room's in operation all men's dorms will have social room facilities.

This is part of the long range plan formulated by the University several years ago, but "this is much further than we expected to go in this period of time," said C. E. Teague, University business manager, yesterday.

During the summer all social rooms will be painted. The rooms will each be furnished with two couches, two easy chairs, two end tables, two table lamps, two floor lamps and a card table.

Dorms to be equipped are Battle-Vance-Pettigrew, Old West, Steele, Ruffin, Mangum, Manley, Grimes and Alexander. These rooms will be ready in the fall, said J. S. Bennett, director of operations.

The dorm social rooms program was started in B dorm, a graduate dorm.

Bennett emphasized that future uses and expansion of the social room plan depend on the care, attitude and use of the rooms by students.

Rooms to be used in the rooms are B-V-P, 1 Vance; Old West, 15; Steele, 14; Ruffin, 113; Mangum, 102; Manley, 102; Grimes 113; and Alexander, "A".

No Program Set To Mark Service Day

Armed Forces Day next Tuesday will not be formally observed here, Col. F. Carlyle Shepard said yesterday.

Colonel Shepard, chairman of the Armed Forces Day Committee, said, however, that all civic groups have been asked to observe the day "in any way they see fitting." He said flags would be displayed downtown through the courtesy of the American Legion.

Mayor J. Sullivan Gibson of Carrboro and Mayor Ed Lanier of Chapel Hill have issued proclamations for the observance of the day. The NROTC and AF-ROTC units will march through Chapel Hill Tuesday in the only organized observance scheduled, Colonel Shepard added.

Federalists To Meet

The Student World Federalists will meet today at 1 p.m. upstairs in Lenoir Hall.

New Blood For Youngest Democracy

UNC Prof To Set Up Physics Department At Israel School

by Bill Justice

Sometime next fall a UNC professor of physics will leave Chapel Hill to direct and staff a newly-created physics department for the world's youngest democracy—Israel.

"I hate to leave," Dr. Nathan Rosen said yesterday, "but I can see there's something important to be done in Israel."

"It's a young country struggling for its existence and I feel that I ought to help it," the physics professor who came here in 1941 added.

Rosen will go to the Hebrew Institute of Technology at Haifa.

There he will be faced with several challenges.

Not only will he be director of the new department, but he will have to obtain a staff of four or five people and carry them to Israel with him.

He also will be called upon to aid in planning and erecting a new physics building.

The present site and buildings of Technion are too small, Dr. Rosen explained. An expansion is therefore underway.

"Technion," he said, "has been primarily an engineering school since 1924. Work in the pure sciences was added only recently. These courses in-

clude mathematics, physics, chemistry, mechanics and geology."

The government of Israel has given the school 250 acres of land for the new expansion program, Dr. Rosen said. The new physics building will be one of the first buildings to go up on this new site, located about six miles from Haifa.

\$10,000,000 of the total \$20,000,000 expansion fund will be raised by the American Technion Society which has been supporting the school, Rosen said. The other half will be provided largely by the government of Israel.
