

YRC To Meet Tonight At 7

The Young Republicans Club will meet today at 7 p.m. in Roland Parker Lounge 2 in Graham Memorial.

At the meeting there will be a discussion of the state convention and plans will be made concerning the picture for the Yack-Yack.

EAT, DRINK, AND BE MARRIED

On a recent tour of seven million American colleges, I was struck by two outstanding facts: first, the great number of students who smoke Philip Morris; and second, the great number of students who are married.

The first phenomenon — the vast multitude of Philip Morris smokers — comes as no surprise, for what could be more intelligent than to smoke Philip Morris? After all, pleasure is what you smoke for, and pleasure is what Philip Morris delivers. Try one. Light up and see for yourself... Or, if you like, don't light up. Just take a Philip Morris, unlighted, and puff a couple of times. Get that wonderful flavor? You bet you do! Even without lighting you can taste Philip Morris's fine natural tobacco. Also, you can make your package of Philip Morris last practically forever.

No, I say, it was not the great number of Philip Morris smokers that astounded me; it was the great number of married students. Latest statistics show that at some coeducational colleges, the proportion of married undergraduates runs as high as twenty per cent! And, what is even more startling, fully one-quarter of these marriages have been blessed with issue!

Now, to the young campus couple who are parents for the first time, the baby is likely to be a source of considerable worry. Therefore, let me devote today's column to a few helpful hints on the care of babies.

First of all, we will take up the matter of diet. In the past, babies were raised largely on table scraps. This, however, was outlawed by the Smoot-Hawley Act, and today babies are fed a scientific formula consisting of dextrose, maltose, distilled water, evaporated milk, and a twist of lemon peel.

After eating, the baby tends to grow sleepy. A lullaby is very useful to help it fall asleep. In case you don't know any lullabies, make one up. For example:

*Go to sleep, my little infant,
Goo-yoo moo-moo-poo-moo binafant.*

A baby sleeps best on its stomach, so place it that way in its crib. Then to make sure it will not turn itself over during the night, lay a soft but fairly heavy object on its back — another baby, for instance.

All you need is a little patience and a lot of love.

So, as you see, raising a baby is no great problem. All you need is a little patience and a lot of love. Also diapers, rompers, soakers, crib, mattress, sheets, bumpers, blankets, high chair, diapers, talcum, baby oil, fish liver oil, paregoric, diapers, safety pins, cotton, cotton covered toothpicks, bottles, diapers, nipples, diapers, bottle brushes, booties, diapers, nighties, wrappers, diapers, rattles, teething rings, pacifiers, diapers, and unlimited funds.

When Baby is fast asleep — the little angel! — why not relax and give yourself a treat? With Philip Morris, of course! Made in long size and regular by the sponsors of this column.
