

David Parker, Evelyn Moore Head Symposium Tasks & Exhibit Units

EVELYN MOORE

David Parker, sophomore from Lexington, and Evelyn Moore, junior English major from Winston-Salem are currently handling the duties of chairman of the Carolina Symposium's Organization and Administration Committee and Exhibits Committee respectively.

Parker's committee is unlike all other Symposium committees as it has no specific job assigned to it, but is rather charged with the task of assisting in the office in a variety of tasks.

They are providing office assistants for typing and other work and are coordinating with the permanent office staff. They will also be working under Al Goldsmith and the Symposium's Finance Committee in making purchases immediate-

ly prior to the Symposium Week.

Parker is a member of the Pi Kappa Alpha social fraternity and is on the Student Traffic Committee, chairman of the Student Government Committee and a Morehead Scholar.

Members of his committee include: Gary Greer, Tog Sanders, Jenky Jenkins, Chris Woodbury, Kay Ziegler and Frank Martin.

Exhibits Committee

Miss Moore's committee has been and will continue to be busily engaged in working out and completing arrangements for the many exhibits to be seen on campus during the Symposium Week.

Exhibits will be seen at Memorial Hall, Graham Memorial, Lenoir Hall and all other important campus buildings. In Memorial Hall there will be a large Symposium calendar

with a list of speakers, topics and times of address. There will also be a poster on each individual speaker prepared by various members of the committee.

Also seen in Memorial Hall will be book displays. These books will include those written by the speakers and books pertinent to the Symposium theme-survival. In addition there will be a display of one of our latest guided missiles—the Majador.

Court Displays

In Y-Court there will be general publicity posters and a continuous 16 mm film projector showing subjects on survival. Display X will also be seen, coming either from the Civil Defense Authority or from the Atomic Energy Commission.

Posters will be spread throughout the campus of various sizes and shapes. Lenoir Hall will have a special Symposium Menu and some type of roving exhibit. Displays will be seen at the library and a short will be shown at the free flicks.

Miss Moore is active on campus as a member of the Election Board, G.M.A.B., the Y hospital committee and is on the Yack advertising staff.

Her committee includes the following people: Jerry Adams, Bill Dorroh, Anne Eckerson, Bob Furlado, Clara Maek, Nancy Milan and Mary Montgomery.

Also, Lynn Moody, Mike Strong, Anne Thomas, Bob Turner, Paddy Wall, Jane Rae White, Mark Wilson, Frannie Winbourne, Kenneth McIntyre and Mrs. Myra Lauterer.

DAVID PARKER

ART LEAGUE

The University Art League will present a lecture by Robert Howard, professor of sculpture in the Department of Art, on "Modern Sculpture." The meeting, which is open to the public, will be held Monday at 7:30 p.m. in Room 210 Gardner Hall.

Covering The University Campus

STUDENT FUNDS

Heads of organizations which want to initiate aid from student funds are requested by Student Government Treasurer Bob Carter to see him at the Student Government office today.

SQUARE DANCE

A public square dance for persons over eight year of age will be held at the Hillel House on West Cameron Avenue tonight at 7:30. Representatives of the Community Church of Chapel Hill, sponsors of the affair, say previous experience in square dancing is not necessary.

COUPLES ONLY

The Rendezvous Room and the billiard room of Graham Memorial will be open tonight to couples only. A free dance will be held in the Rendezvous Room from 7 p.m. to 11 p.m. with music furnished without charge of juke box.

FREE FLICK

The Tonight's free flick, "The Titled Thunderbolt" will be shown at 7:30 in Carroll Hall.

BIRD CLUB TO MEET

The Chapel Hill Bird Club will hold an open meeting in the assembly room of the library Sunday at 3 p.m. Jack Degmid of the North Carolina State Wildlife Resources Commission will speak on "Animal and Bird Tracks."

MARDI GRAS COMMITTEE

The Mardi Gras committee will meet Monday for organization of the decoration committee. Chairman Gerry Boudreau will give a brief account of the events to date. All who are interested in working on the Mardi Gras are urged to attend. If they are unable to attend they should call Boudreau at 9-1301.

MIMEOGRAPHING

Mimeographing in Graham Memorial is done at 9 a.m. on Tuesday, Thursday and Saturday and at 2 p.m. on Monday, Wednesday and Friday. All stencils that are already cut must be submitted before these hours to be run any particular day. If GM is to cut the stencils, material must be submitted in a legible form 24 to 48 hours in advance. There will be no exceptions to this rule.

PHYSICS TALK

The third and final lecture in a series of talk on "The Energy-Momentum Tensor in General Relativity" will be delivered by Dr. Christian Moller of the University of Copenhagen on Monday at 2:30 p.m. in Phillips Hall.

STUDENT WIVES

The Student Wives Club will meet Tuesday at 8 p.m. in the Victory Village Nursery. Dr. Charles E. Flowers, Jr., associate professor of obstetrics and gynecology, will show two films on maternity and childbirth.

news brief

Flowers' Trial

SMITHFIELD, Feb. 14 (AP)—A jury deliberating whether Percy Flowers' store should remain padlocked appeared hopelessly deadlocked late today.

One juror told Superior Court Judge C. W. Hall he didn't think "We will ever" reach an agreement. The jury was deadlocked 9-3 when Judge Hall called a recess until 7 o'clock tonight.

Judge Hall summoned the jurors to the courtroom and asked them if they wanted to go to supper or continue on through on their deliberations. One of the jurors then spoke up that "I don't think there is any need to come back," indicating there was a hopeless deadlock.

When the jury reported it was divided 9-3, Judge Hall said he didn't want to know which way the jury was divided.

Student Legislature, over cases arising within agencies of the executive branch of student government.

Section I: This council shall be composed of four (4) members of the Men's Council and three (3) members of the Women's Council, elected by each of these councils from their membership within two weeks after the spring elections for a term of one year.

Section II: This council shall be presided over by a chairman elected from its membership.

Cuts

(Continued from Page 1)

Several of the University deans met this week with Dr. James Godfrey, dean of the faculty, to consider questions not immediately answered by the Council's action on Feb. 7 in eliminating class attendance regulations.

In a mimeographed letter to members of the faculty today Dr. Godfrey included several of the questions concerning the new attendance regulations as discussed and interpreted by the deans.

As a personal notation in the letter, Dr. Godfrey explained the purpose of the requirement in the new ruling which says that instructors will report to the student's academic dean when the student has missed three consecutive classes.

"This requirement merely calls to the attention of the Administration that the whereabouts of the student should be checked. It will not lead to any other action by the Dean unless the instructor wishes it to do so."

What's it like to be with IBM?

considering mathematical research. But he liked the excitement and diversification of business and industry, and he wanted to use his mathematical background in that area. It was not until he was interviewed by IBM that he became aware of this new field for mathematicians. A few months later, he began his career as an Applied Science trainee.

John Jackson has progressed rapidly since he joined the Company. He's now the Washington representative operating with one of IBM's key Divisions, Military Products, in the Washington, D. C., office. With his wife Katherine, daughter Lisa, and John, Jr., he enjoys life in the nation's capital.

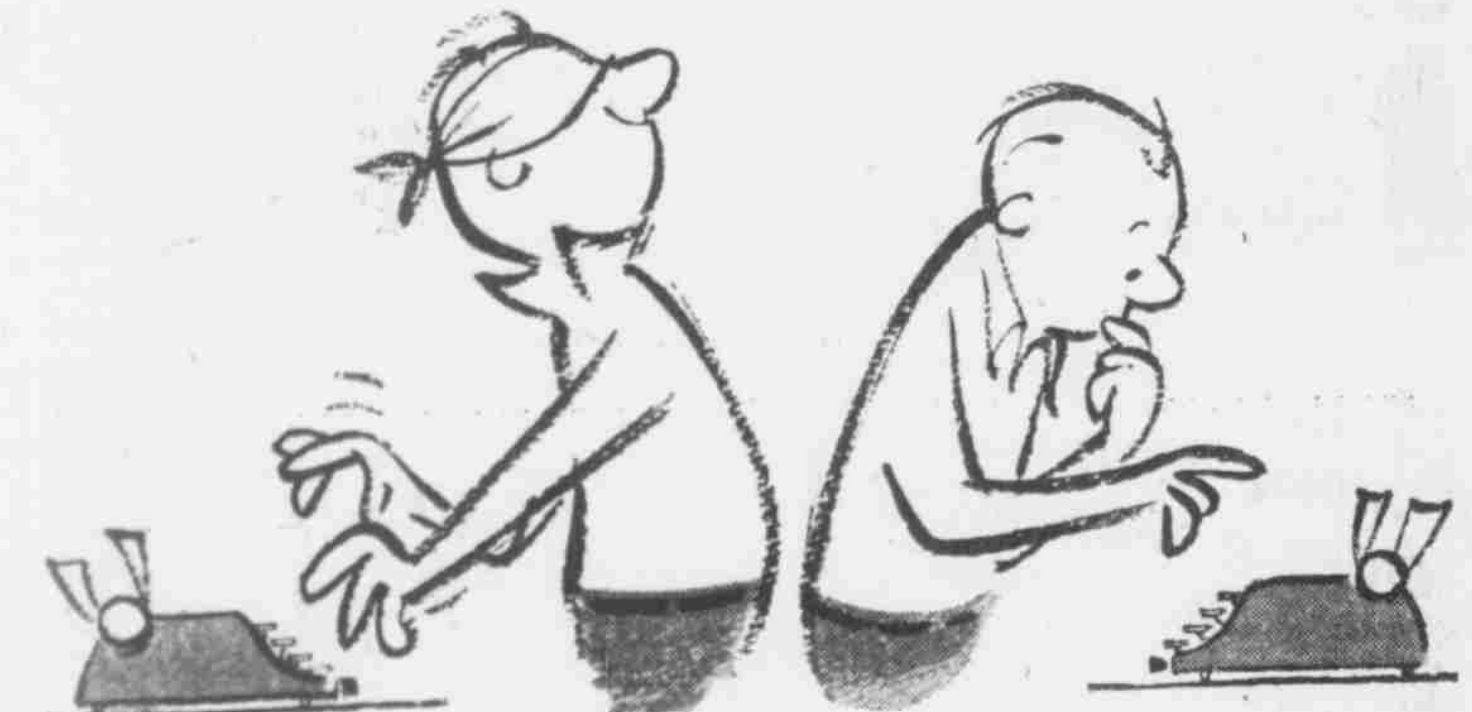

Interesting and challenging responsibilities, plus the knowledge that he is making a substantial contribution in a rapidly expanding area of IBM that is important to the Company and to the nation, assure John Jackson that he is moving along a road of real future opportunities.

This profile is just one example of what it's like to be with IBM. There are excellent opportunities for well-qualified college men in Research, Development, Manufacturing, Sales and Applied Science. Why not ask your College Placement Director when IBM will next interview on your campus? Or, for information about how your degree will fit you for an IBM career, just write or call the manager of the nearest IBM office:
