news in brief

Shotgun Killer
RALEIGH, Feb. 19 (AP) — Jan Rivers Hackett, 16-year-old youth charged with the shotgun slaying of a teenage girl friend, began a 60-day observation period yesterday at the state hospital here.

Commitment papers were signed yesterday for the youth, president of the Junior class at Ahoskie High School and a football and basketball star.

Police said he admitted firing three rounds from a shotgun into a pretty 16-year-old classmate, Dolores Newsome, of Ahoskie. Her body was found beside a country road near Ahoskie last Tuesday.

A motive for the shooting remains a mystery.

Ice Forge
CAIRO, Ill., Feb. 19 (AP) — A gigantic 17-mile ice gorge is building up in the Mississippi River, and ice gradually choking off river traffic on other streams.

Five towboats and their barges trapped temporarily in the huge ice gorge starting five miles north of Cairo had managed to ram their way out early today and headed south.

"Nothing is moving north today," the Army Engineers' office at Cairo reported. There was a possibility some southbound vessels still would attempt to buck the ice jam.

Phi Debates Pound Case
The Phi in its weekly meeting Tuesday night debated the case of Ezra Pound, a noted American poet confined in St. Elizabeth's Mental Hospital in Washington.

High Point of the evening was guest critic Dr. Lyman A. Cotten's comment on the problem with reference to the arguments given by the members of the society.

A large crowd of between 50 and 60 students was on hand to listen to the debate.

The bill favoring Pound's release from the asylum passed the society by a vote of eight to five, with one abstention. In an unofficial vote of all present the bill was rejected 37 to 21.

The President of the Phi, Jess Stribling, turned the chair over to Parliamentarian Don Gray at the opening of the meeting and introduced the bill himself.

President Stribling began by showing how Pound's abnormal youth tended toward irrationality and even insanity. He also minimized the effect of the allegedly treasonable statements made by the poet over the Italian radio during World War Two.

Urges Release
Finally stating that since Pound's insanity is not criminal and since his imprisonment impairs his poetic output, Stribling urged that Pound be released into the care of his wife.

Various other speakers referred to Ezra Pound's insanity and pointed out that no insane man, poet or not, should be released.

Rep. Don Jacobs noted that Pound would have to stand trial for treason if released and was still managing to write good poetry in St. Elizabeth's. The vote then was taken, and the bill passed.

Dr. Cotten of the Department of English rose to give a criticism of the arguments presented during the debate.

Sir Winston Churchill Sick With Pneumonia

ROQUEBRUNE - CAP-MARTIN, France, Feb. 19 (AP) — Sir Winston Churchill has pneumonia and pleurisy, his doctors said tonight. But he smoked two cigars today and was described as comfortable and in good spirits.

A medical bulletin issued at 9:30 p.m. through Montagu Browne, the former prime minister's private secretary, said:

"Sir Winston Churchill is suffering from pneumonia at the base of the lung and pleurisy. He had a good night and has passed a comfortable day."

The bulletin was signed by Lord Moran, Churchill's private physician who flew in from London, and Dr. David M. Roberts, his physician on the Riviera. Browne added:

"Sir Winston is in good spirits."

He passed the day reading papers, talking to his family and dealing with correspondence.

Newsmen had been promised the medical bulletin would be issued late in the afternoon. Asked about the delay, the secretary replied:

"You must realize that we wanted to inform members of his family about his condition before they read it in the papers."

Told that Dr. Roberts had earlier said Churchill's condition was not dangerous, Browne commented:

"If Dr. Roberts said his condition is not dangerous then I am prepared to accept that this is true."

The secretary said there would be another medical bulletin tomorrow night. He said he did not believe he would have any official news tomorrow morning.

Campus Chest Drive Emphasizes Student To Student Giving Idea

In this year's Campus Chest Drive, the members of the 1958 Board of Campus Chest are emphasizing the "student-to-student" idea of giving. They have expressed hope that each Carolina student will identify himself personally with the common effort of all members of the world university community to overcome the obstacles faced by some in the achievement of university training.

Fifty per cent, the largest allocation, will go to World University Service.

"It is not just a financial drive," says Libby McCord, Co-Chairman of Campus Chest, "but an educational one. Successful education brings thoughtful giving, based on an awareness of world student needs on a conviction that the needs of others are important to each of us personally and to our future."

World University Service is an international organization dedicated to mutual assistance in meeting the most crucial needs of the university community.

Throughout the world, it offers American students and professor an opportunity for giving to students abroad who are in need and for increasing international understanding, both at home and abroad.

The initial program of World University Service, launched after World War I, provided for universities in central and southern Europe. Since that time, the organization has grown into a world-wide operation of students and professors fighting ignorance and need on an international scale.

In Europe, where World War II disrupted lives and weakened the physical and moral fibre of almost every student, World University Service offered aid to refugees; provided scholarships, medicines, and food; and contributed to the operations of an international center offering rest cures.

Legislature To Meet Tonight

The Student Legislature will meet tonight at 7:30 on the top floor of Old East.

A bill introduced by Ralph Cummings (SP) "to organize administration of the Bell Tower Parking Lot" will come out of committee.

John Brooks (SP) bill concerned with the composition and organization of the Carolina Quarterly, the Carolina Forum and the Publications Board will come up for action.

The bill to revise the Student Council, has been held to committee because, according to Jack Lawing, chairman of the ways and means committee the bill's introducer, Roger Foushee (SP), can not be present.

Lawing also said his committee wants to talk with members of the Student Council and study the bill more fully.

Permanent Committee Is Formed

By SARAH ADAMS

At the urging of Student Body President, Sonny Evans and IFC President, Bill Redding, an emergency meeting of a special committee to discuss fraternity problems has been called for this afternoon at 3 o'clock.

Due to recent problems affecting both the fraternities and the University at large, both Evans and Redding feel that a meeting "to both pinpoint the problems and make specific recommendations" has become expedient.

Dance And Concert
The concert will be held from 3 o'clock to 5 o'clock the afternoon of Feb. 28 in the Tin Can. The dance will be held from 8 p.m. to midnight the same day.

Featured entertainer for the occasion will be Buddy Morrow and his orchestra. Morrow is well known for his recordings of "One Mint Julep" and "Night Train."

The Tin Can is being turned into a giant outdoor ballroom for the occasion. Vice Chairman Jim Menzel said six 3,000 foot rolls of crepe paper have been ordered to help create this atmosphere. Menzel and Jim Vance are in charge of decorations.

GMAB has set aside \$1,000 to convert the former airplane hanger from a gym to a ballroom.

Semi-Formal
Dress for the all-campus event will be dark suits for the men and cocktail dresses for the girls. Boudreau explained that the dance was not made a formal affair in order to keep the expense down for the students.

"The dance is for everybody, and everybody can afford the tickets, but having to rent a tux would run the price up," he said.

Pressures
According to Evans, "The pressures on responsible students from all areas of the campus to come up with solutions and recommendations to alleviate various situations is great and urgent, and we are hoping for immediate action, the results of which will be a better and more contributing fraternity system."

Redding said, "After some discussions and recommendations, I feel that the entire problems can best be solved through the efforts of a committee of this type."

Gary Greer Is Elected President Of Di Senate

By VIRGINIA SANDIDGE

Gary Greer was elected president of the Diabetic Senate Tuesday night by acclamation, succeeding Gerry Boudreau.

Other new officers include: Rick Wolfer, president pro tem; Andy Canoutas, clerk; Rudy Alberts, critic and Buddy Gardner, treasurer.

The Di defeated a measure which would have called for sharing of corporation profits between management and labor. The vote was 4-3.

The measure stemmed from an idea of United Auto Workers President Walter Reuther, who recently suggested that members of the auto industry share their profits with their employees.

The positive debaters said that labor should receive the majority of the profit, while the negative side said that labor has no right to the money invested by the capitalists.

A vote of the senators resulted 4-3 for the negative. Boudreau cast his vote, making the final result a tie. The vote of the guests also resulted in a tie.

Boudreau, in an out-going speech, said, "I would like to encourage students to come and hear the debates and to join the Society. It is a very valuable experience in public speaking."

Next week's topic has been changed to, "The Bombing of Tunisia."
