## Gans Seeks Campus Code Revision

### ★ ★ ★ ★ ★ Magician Appears On This Tuesday

By BOB GAILLARD

C. Shaw Smith, billed as "A Magician, Quite Possibly," will appear at Graham Memorial on June 24 at 8:30 p.m. Musical accompaniment will be provided by his partner-wife, Nancy.

Known for his fast talk and smooth slight-of-hand, Mr. Smith has led a varied life since doing his first professional show 24

C. SHAW SMITH

### Grant Given To Carl Blyth

A two-year grant for research in applied physiology, valued at \$24,817, has been awarded to Dr. Carl S. Blyth, assistant professor of physical education at UNC.

Dr. O. K. Cornwell, chairman of the UNC Department of Physical Education, announced the grant from the Office of the Surgeon General, Department of the Army.

The research project is entitled "Influence of physical characteristics, psychological factors and drugs on the capacity of man to work in the heat."

The aims of the project are to determine the effect of body type, physical fitness, and body fat content on the ability of the human organism to tolerate exercise and heat stress; to determine the physiological and/or psychological indices that will allow prediction of man's capacity to withstand heat and exercise stress of long duration; and to determine the relative importance of physiological adjustment as compared with psychological adjustment to exercise and heat stresses.

Dr. Blyth will have as consultants in the project, Dr. A. T. Miller, Jr., professor of physiology in the School of Medicine, and Dr. Thelma G. Thurstone and Dr. T. E. Jeffrey of the UNC Psychometric Laboratory. Dr. W. H. Peacock, professor of physical education, will also assist Dr. Blyth in the project.

The Applied Physiology Laboratory was established in 1946 by Dr. Cornwell with Dr. A. T. Miller, Jr., as director. The laboratory is located in Woollen Gymnasium and is used by students doing graduate study in physical education and students majoring in physical therapy. In 1949 Dr. Blyth was appointed to the Department of Physical Education and in 1956 was appointed director of the laboratory.

years ago. In college he helped finance his college expenses as a part-time magician and since graduation from Davidson College has been a teacher of English, Commandant of Cadets at a military school, a general secretary of a YMCA, director of a College Union and coordinator of student activities as well as becoming known as an after-dinner speaker, a magical entertainer and a master-of-ceremonies.

During World War II this versatile performer entertained 2,000,000 G. I.'s in 27 different countries around the world as well as in the United States.

Mr. Smith, who lives in Davidson, N. C., received a Master's Degree in English from the University of North Carolina following his war tour around the world and has since been associated in the education field while maintaining his name and reputation in entertainment circles of the Eastern U. S.

He holds membership in the Southeastern Magician's Association and the International Brotherhood of Magicians and is an associate of the Society of American Magicians.

Mr. Smith still maintains that his greatest magical feat was in fooling his wife into marriage—and that she is still his "cutest trick!"

Smith has played at the University many times before. He played several years at Boys State and for Graham Memorial. His show is excellent entertainment for people of all ages and children are cordially invited.

### Summer Plans Made For You

Attention all sororities, fraternities, men's and women's dormitories! Latest news is that the Summer School Activities Council has scheduled the yearly Watermelon Festival for July 9, at 5:30 p.m. at Y Court. The girl you choose to sponsor will then compete for the title of Watermelon Queen during the dance that night, ending the festivities. Judges for the contest will be announced next week.

During the afternoon, everyone attending will get a free watermelon, and for the more ambitious, there will be a faculty-student competition to see who can eat the most watermelon. Other forms of entertainment have been planned, together with the dance at night, beginning at 7:30 p.m.

Again the help of the student body is needed to help organize all of the activities. A lot of work has to be done and so far, support has been limited. Anyone who has time is asked to come to the next meeting of the Summer School Activities Council Tuesday, June 24, at 3:00 at the Roland Parker Lounge No. 1 on

### Playhouse Opens June 23

The Durham Star Playhouse, the first professional star system summer theatre in North Carolina, will open in the Durham High Auditorium on June 23, with the production of the "Happiest Millionaire," starring Jeffrey Lynn. Mr. Lynn is well remembered for his many roles in motion pictures, including such films as "The Fighting Sixth-Ninth," "Four Daughters," "All This and Heaven Too," "Letter to Three Wives," and "Up Front." The last few years he has been active in Broadway productions, television and summer theaters.

Peter Sinclair, professor of Economics at UNC and a participant in Carolina Playmaker productions, is one of the producers of this summer star theatre. Amanda Meiggs, who is well-known to University audiences for "Peer Gynt," "The Lark," and "The Comedy of Errors," will be a member of the professional resident company. John Stockard, a former Carolina Playmaker and assistant technical director of "Horn In The West" will serve as technical director for the Playhouse.

Seven more productions will be presented during the summer, each running Monday through Friday at 8:15 p.m., and Saturday matinee, 6:00 p.m., evening, 9:15 p.m.

Well-known Broadway and Hollywood personalities — Lillian Roth, Walter Abel, Sheperd Strudwick, Lisa Ferraday, Joanne Dru, Edward Everett Horton—will appear from week to week as stars of the various plays.

In addition to "Happiest Millionaire," "Janus," "Angel Street," "Monique," "Middle of the Night," "White Sheep of the Family," and "Inherit the Wind" are scheduled for production.

Season and individual tickets are on sale in Danzigers' and Kemp's Record Shop in Chapel Hill.

the second floor of Graham Memorial.

Thursday, June 26, tentative plans have been made for either a swimming party or blanket party. At the moment, one of the main factors is lack of sufficient help. Posters will be placed around campus next week announcing the party.

### Summer President Asks Many Changes

The question of admissions, a revision of the campus judicial structure, a definition of the campus code, and an investigation into the possibility of bettering student-faculty relationships will be some of the problems tackled by the Summer School Government Board this summer, according to Curtis Gans, acting president of the student body.

These problems will be added to the current problems of parking meters and the Bell Tower parking lot.

In action this week, the Board passed a measure which if adopted

CURTIS GANS

### TV Study To Begin August 4

Over 100 television studio teachers, regular classroom teachers participating in the North Carolina In-School Television Experiment and teachers in other experimental TV projects will convene in Chapel Hill for a three-week workshop beginning August 4.

The workshop is being sponsored by the University of North Carolina School of Education. Arnold Perry, dean of the school, has announced that teachers involved in the N. C. in school TV experiment may enroll for the regular workshop August 4-15 without credit or for the entire workshop (August 4-22) for three semester hours of college credit.

Dean Perry added that students who have met necessary prerequisites and are enrolled for work at the University may receive graduate credit acceptable in meeting teacher certification requirements.

Some four-fifths of the students attending the workshop will come from the North Carolina In-School Television Experiment which is financed largely by the Fund for the Advancement of Education.

This experiment has involved 19 North Carolina school systems during the current academic year and it is expected that 26 school systems will be enrolled in 1958-59. The number of junior and senior high school students taking courses by television at the present time is approximately 7,000.

ed in the fall by the Student Legislature would provide for the business manager of the Carolina Quarterly to be selected by the Publications Board of student government rather than the YMCA-YWCA.

The board approved a report of the Bell Tower parking lot committee, which would set up parking for all freshman and sophomore cars during the next year in the new lot. Under the provisions of this measure all cars on campus belonging to freshmen and sophomores must be parked in the lot during the hours of 7 a.m. to 3 p.m. An exception to this was made in the case of married freshmen and sophomores.

The Board felt that it would clearly be an invasion of individual rights if the cars were not allowed to leave the lot; however, the Board made it clear that those freshmen and sophomores who parked within the restricted areas of campus and town would be subject to loss of car privileges for at least a year.

In commenting on the need for judicial revision and for the revision of the Campus Code, Gans said, "I feel that the tendency to have a court for every purpose reflects a tendency that is manifest in the growth of the University. This tendency is the break-up of the unified campus into various schools and interest groups, thus breaking up the college atmosphere of the University."

"Furthermore, unenforceable legislation, such as the Campus Code make student administration very difficult. It is thus necessary to re-examine the old customary rule of the thumb—the least government is the best government—in order to pave the way for enforceable legislation and responsible student government."

June 24—Shaw Smith, magician, Graham Memorial

June 23 — Y-night, McCorkle Place

All Week—End of the World show at the Morehead Planetarium. Shows are at 8:30 p.m. in the evenings during the week and three shows on both Saturday and Sunday.

Summer Chorus on each Tuesday and Thursday at 4:30 p.m.

All Week—Woollen Gym and Kessing Pool facilities are open.

Bridge Tournaments every Monday night in Graham Memorial at 7:30 p.m.

Each Wednesday night at 7:30 p.m. in the Rendevous Room of Graham Memorial there are free bridge lessons.

June 26 — Free film at Graham Memorial entitled the "Glass Slipper."

Also don't forget the Watermelon Festival on July 9, just around the corner.
