## "Anyone who likes people-and selling-would like my job"

When Robert C. Schropp was a senior at the University of Omaha, he had definite ideas about his future.

"I wanted a job dealing with people - in sales or the personnel field," says Bob. "When the Bell interviewer explained how much emphasis the telephone companies put on sales and customer contacts, I knew immediately that was for me,"

Bob graduated with an A.B. degree in Business in 1954, and went immediately with Northwestern Bell Telephone Company, in Omaha. Today, he is a sales supervisor with seven men reporting to him. His group is responsible for recommending and selling communications facilities like PBX switchboards, "hands free" speakerphones and "push button" telephone systems for all kinds of businesses.

"This is selling at its best," says Bob. "Customers respect the telephone company and the advice and service we can offer them. So they welcome our visits. And I'm getting valuable experience in business operations and in supervision that should help me move ahead.

"Anyone who likes people - and selling-would like my job."

Why not find out about career opportunities for you in the Bell Telephone Companies? Talk with the Bell interviewer when he visits your campus. And, meanwhile, read the Bell Telephone booklet on file in your Placement Office.

Bob Schropp holds frequent training sessions (left) to polish sales techniques.. At right, he points out some advantages of a key telephone to a customer while on a field coaching visit with one of his salesmen.
