

# Riots Not Racially Caused, Hoover

WASHINGTON—(AP)—J. Edgar Hoover said Saturday summer riots in the North were neither race riots nor the work of Communists or other extremist organizations.

Instead, the FBI Director said, they represented "a senseless attack on all constituted authority without purpose or object."

Hoover reported at President Johnson's request on the FBI's investigation of disturbances in seven northern cities and two resort areas from coast to coast between July 18 and Sept. 7. The bulk of his 19-page report dealt with the seven cases of big-city violence.

While racial tensions contributed to the city rioting, Hoover said, none of the disturbances was a race riot "in the accepted meaning of the phrase."

"They were not riots of Negroes against whites or whites against Negroes. They were not a direct outgrowth of conventional civil rights protest."

"Victims of the rioting were often Negro store owners as well as white. Their assaults were aimed at Negro as well as white police officers struggling to restore order," he said.

Hoover made short shrift of charges that the riots were instigated by the Communist Party or other organizations. He said:

"No evidence was found that the riots were organized on a national basis by any single person, group of persons, or organization."

In all cases, he said, mob violence was "dominated by the acts of youths ranging in age up to the middle 20's. They were undoubtedly characterized by responsible people as 'school dropouts,' 'young punks,' 'common hoodlums' and 'drunken kids.'"

"The evidence indicates that aside from the actions of minor organizations or irresponsible individuals, there was no systematic planning or organization of any of the city riots," he said.

Of the New York City riots, Hoover said, "the Communist Party in the USA does not appear to have officially instigated these riots though its members were observed taking part in some and its former members were leaders" of some small groups involved.

Hoover also dismissed charges that the riots stemmed from "excesses by the police." To the contrary, he said, in each city officers "were generally restrained in their conduct even in the face of continuous insults, barrages of rocks, bottles, Molotov cocktails and fire bombs."
