

Campus Briefs

Chad And Jeremy

Chad and Jeremy, the English popular singers, will appear in concert here Feb. 24. The two Columbia recording artists will sing twice in Memorial Hall, at 7 and 9 p.m. Phi Mu Alpha Sinfonia will sponsor the shows. The proceeds are to help the fraternity give a music scholarship at UNC next fall.

Three Chapel Hill singing groups — The Virginians, the Luv'd Ones, and the Bayside Singers — will also appear on both programs.

Chad and Jeremy have released several popular records, including "Yesterday's Gone," "Summer Song," and "Willow Weep for Me."

Tickets for the concert are \$2.00. They are on sale now at Y-Court, G.M., and the Record Bars in Durham and Chapel Hill.

Wesley Foundation

An anonymous gift of \$5,000 has been made to Wesley Foundation at UNC through the Board of Education of the Methodist Church in Nashville, Tenn.

The same out-of-state donor also made grants to the Methodist Center at the University of Texas and to Harvard Wesley.

According to the Rev. Robert L. Johnson, Methodist Chaplain and director of Wesley Foundation at UNC, the money will be spent for an expanded ministry in the area of the fine arts. The prospect of commissioning a musical work with the remainder of the money has also been discussed.

Placement Service

Seniors and graduate students should register with the University Placement Service immediately, Placement Director J. M. Galloway said yesterday.

Freshmen, sophomores, and juniors, should also register soon for help in finding summer jobs.

Students seeking employment after graduation should complete the registration process as soon as possible, Galloway said, so that they may take job interviews through the office during this semester.

The peak period for employer visits on campus is dur-

ing February and March, when five or six companies per day will be conducting interviews.

Hershey Visits Duke

Gen. Lewis B. Hershey, director of the Selective Service System and responsible for putting millions of U. S. servicemen into uniform, will appear at Duke University's Page Auditorium February 13 at 8:15.

Hershey is expected to answer some of the criticism which recently has arisen from a number of educators and congressional figures in recent weeks.

Professional Careers in Cartography

CIVILIAN EMPLOYMENT with the U. S. AIR FORCE CREATING AEROSPACE PRODUCTS

Minimum 120 semester hours college credit including 5 hours college level math. The required math must include at least 2 of the following: college algebra, trigonometry, analytic geometry, differential calculus, integral calculus, or any course for which any of these is a prerequisite. Equivalent experience acceptable. Training program. Openings for men and women. Application and further information forwarded on request.

The average Graduate of Evelyn Wood

READING DYNAMICS

READS 4.7 Times Faster Than His Beginning Speed
With Equal or Better Comprehension.

What Students Say--

In Washington

"I must say that this is one of the most useful education experiences I have ever had. It certainly compares favorably with the experience I've had at Yale and Harvard."

—U. S. Senator Wm. Proxmire

"It is my opinion that if these techniques were instituted in the public and private schools of our country, it would be the greatest single step which we could take in educational progress."

—U. S. Senator Herman Talmadge

In North Carolina

I now have the ability to read a great many more books. I can easily read two average length books in an evening. I previously took two conventional reading courses and made no significant improvement. Based on beginning and end tests, my rate increased five fold with improved comprehension.

—Lt. Col. Louis Brooks, U. S. Marines Ret.

What She Said:

I can do my homework in half the time and know it better than I would have before. Yet, you get just as much out of the literary style as you would the old way. You get more of an overall picture instead of having the story come into your mind in bits and pieces.

High School Student
—Virginia Marshall Sutton.

What Her Mother Said:

I want to express my thanks for all you have done for Jinny. Before taking your course, she was having trouble in her schoolwork, although she had a high I.Q. and was very well-read. No one was able to diagnose her trouble as slow reading for she loved to read and had an extensive vocabulary. Finally, as a last resort, we decided to try your reading course. what a miracle it proved to be! Her reading rate came up from 250 w.p.m. to 5,281 w.p.m. and she has been on the Honor Roll at school ever since. It was a lucky day indeed when she enrolled in your course.

Thank you again—and now I am going to try Reading Dynamics myself and see if I can match Jinny's fabulous record.

—Mrs. Marshall Sutton, Mother

What Her Mother Said Later:

I have not only greatly increased my reading speed but my comprehension as well. I have also learned to study and comprehend technical material at a rate I would have believed impossible to achieve.

—Mrs. Marshall Sutton

Conventional rapid reading courses aspire to 450-600 words per minute. Most Reading Dynamics graduates can read between 1,000 and 3,000 words per minute, and many go even higher.

In Today's Fast Moving World . . .

- where 9 out of every 10 scientists who ever lived, are still alive.
- where more scientific progress is made in 1 day than was made in the whole world in the first 1000 years of the Christian era . . .
- where more new technical information has been published in the last 15 years than in the previous 15,000 years . . . fast and efficient reading is necessary to keep mankind alive and free in this most dangerous of all ages!

Fast and efficient reading is not new. Julius Caesar, Theodore Roosevelt, John Kennedy, John Stuart Mill and many others read this way. . . . What IS new is Mrs. Wood's unique methods of teaching Reading Dynamics skills. Today, thanks to her pioneering work over many years, not just the fortunate few but nearly everyone can increase his reading efficiency 300%, 500%, 1000%, or even more. So sure are we of this that we make the following . . .

MONEY-BACK GUARANTEE

We guarantee to increase the reading efficiency of each student AT LEAST 3 times with good comprehension. We will refund the entire tuition to any student who, after completing minimum class and study requirements does not at least triple his reading efficiency as measured by our beginning and ending tests.

FREE DEMONSTRATIONS

- of Reading Dynamics will be given at 4:30, 6:30 and 8:30 P.M. in
- CHAPEL HILL, Carolina Inn, Club Room Mon., Feb. 6
- DURHAM, Duke University, Engineering Bldg. Tues., Feb. 7
Room 201
- RALEIGH, YMCA, Hillsboro St. Wed., Thurs., Feb. 8, 9

AT A DEMONSTRATION YOU WILL GET INFORMATION AVAILABLE AT NO OTHER TIME, AND MAY PRE-REGISTER.

Classes will meet once a week for 10 weeks.
Sessions start at 7:30, end at 10:00 P.M.
Please Come 30 Minutes Early For First Session.

COURSES BEGIN

- CHAPEL HILL, Downstairs at the Zoom-Zoom Mon., Feb. 13
- DURHAM, Duke University, Engineering Bldg. Tues., Feb. 14
Room 201
- RALEIGH, YMCA, Hillsboro St. Thurs., Feb. 16

WE SUGGEST THAT YOU PRE-REGISTER NOW.
(New Enrollments Limited To 30 Per Class.)
