THE DAILY TAR HEEL

# **Dull Tube Season Opens This Fall**

DTH.

Those students who haven't \*\*\*\*\*\*\*\*\*\*\* been too tied up with orientation week and the start of classes to watch television know that the video season for next year is varied, but, alas, dull. Every year about this time the networks present for public inspection the video fare for the coming year.

The technical machinery is in high gear, of course, and the screams you hear are those of producers who must share the series of production crews. Just about everything, including commercials, has gone into color, woefully overtaxing the color - processing laboratories.

NEW SHOWS

Meanwhile, among the 90 regular programs on the evening schedule, there are 34 new shows. Everybody has his candidates for glory and sudden oblivion.

NBC's "The Monkees," a comedy about a bunch of rock 'n' roll singers, was receiving considerable attention when interviews with the stars - to - be were halted. It seems the youngsters were acting bored about confrontations with visiting television writers.

Talk presists, however, that in its concept, the series has tried to capture some of the qualities of the Beatle movie, "A Hard Day's Night," which would be nice if true.

"ROUNDERS"

"The Rounders," an ABC entry, is a contemporary cowpoke comedy which its publicists term "lusty." But it is doubtful whether any early evening television programs, including "The Rounders," could really be described as lusty. Anything broadcast before 9 p.m. must be fit for tender young eyes and ears.

FOR TUBE FANS For the benefit of Carolina

students who indulge in that, the least strenuous and cheapest entertainment on the face of the earth, television viewing, the Daily Tar Heel will publish a regular schedule of shows over local stations that especially merit your time and efforts. Because of space limitations, a daily and complete schedule of programs is not possible. Watch for "Shows

The best of the stories, and very good one, is Max Steele's "Fiction, Fact, and Dream." It creates a thick sense of family life and character, while exploring the interweavings of an author's factual, dream, and imaginative worlds.

The editor, Michael Paull, is to be congratulated upon his first issue. The spattering of typographical slips does not detract from the quality of his magazine. And what a pleasure to read from one cover to the other without bogging down in a single manifesto, dull exegesis, or critical puff.
