It's More Difficult To Be A Girl Than It Used To Be, Says Dean Kitty

By DOUG SMITH The Raleigh Times "It's much more difficult to be a girl today than it was 20 years ago."

lines aren't as clear as they once were, but there have been no drastic changes since I've been here," she continued.

has changed somewhat during the past 20 years," she added. "BIG SHIFT" One of the biggest shifts in UNC's rules for women students came when the University began admitting freshman and sophomore women.

KATHERINE CARMICHAEL

"Girls haven't changed as much as you might think, but I have noticed they are marrying at an earlier age now, and the rate of married women working is going up. The number of years a woman works for pay is also going up."

RECORD SWELL Miss Carmichael has seen the female enrollment swell to a record 3,000 since she has been at UNC. What problems has this caused? "With the exception of a dorm for nursing students and an addition to Spencer (the freshman girls' dorm) there have been no residences for women constructed since the 1930s," she pointed out.

What Seems French Isn't

By ALINE MOSBY NEW YORK (UPI)—France may not like the United States these days, but Americans still worship many things "French"—even if they're not so French.

French doors were developed in France. So was "French toast," but you never will find it on a restaurant menu there — it is strictly a way for a poor housewife to use stale bread by dipping it in beaten egg and milk and frying it in sugar.

Except for potatoes, the French do not deep fry foods. They "saute," meaning cooking meat or fish very quickly in a small amount of butter, and then sometimes in a non-fattening liquid such as wine. Most French food is not fattening.

"French fry" it in cups of oil to produce a fattening, tasteless and heavy piece of sawdust.
