der, known for their spirit and contributions to residence hall programs, are being replaced by graduate men and highway patrolmen. Ken Giles, the governor of Wolfe College and the men living in the area can understand being asked to move so that women can replace them; but being faced with the proposition of being moved out to be replaced by other men is not at all understandable.

Ken Giles, the governor of Wolfe College, Tom Manley, UP chairman, who began the original protest, and I have planned a meeting Sunday with Rep. David Britt to discuss the problem. The ceiling limitation is the real trouble. We hope to impress this upon Rep. Britt so that Carolina can at long last provide new coed housing.

Failure to have the ceiling raised will, in a few years, result in the policy over which Tom Manley expressed fear yesterday—transform the campus into a dichotomy of men and women. The time to make our desires known is now—this is not a temporary decision. I feel that the administration has gone to considerable trouble to help the student body and it is time we supported them in trying to raise the construction ceiling.

about the motivations of the Administration have been voiced by student representatives to the press. I do not believe that they are very well informed about this situation, or the reasons that motivated this proposal by the Administration.

We have been in touch with Mr. James Wadsworth, the Director of Housing, who explained that this shifting of male students was done in order to make room for more undergraduate women on this campus. Mr. Wadsworth has indicated that with this influx of more women, the ratio of women to men on the Chapel Hill campus will be increased. The reason why these women were assigned to residence halls toward the center of campus was because the walk from South campus to the classroom areas would be a long one for girls, not to mention the fact that it would not be altogether advisable to have them walk such a distance at night.

President Powell has further been assured that those long - time residents of the men's residence halls effected will be given special preference in room assignments in other men's halls by the Housing office.

The Housing office has proposed that Craige Hall be converted into a graduate men's hall that will exclude freshmen residents. The reasoning for this proposal is that a relationship between younger undergraduates and graduate students in the same living quarters would prove to be a strain and would not be in the best interests of all parties involved.

On behalf of President Powell, let me assure those students and their representatives who are opposed to this plan that the issue is not settled, and that Bob Powell will be happy to meet with anyone who feels this proposal is not in the best interests of the student body and will consider all arguments carefully.

'Black Power' Hurts NAACP, Dr. Johnson Informs Students

By **ROBERT G. LITTLE**
Special to the DTH

The "Black Power" philosophy can be a major hindrance to the work of National Association for the Advancement of Colored People, a Kenan professor of sociology and anthropology said here.

Dr. Guy Johnson told the campus NAACP chapter Wednesday night that the Negro is hampering quick future action on civil rights by riots and violent demonstrations.

"Black power" or "black supremacy" has created much heat which shouldn't be taken too seriously," Johnson stated.

And black power leaders, such as Stokely Carmichael, should use their positions to help Negroes legitimately gain political power, he said.

"Situations will remain as they are until Negroes have political power," Johnson said, "and without this power, the Negro has to plead for the things he needs."

In order to get this political power, the Negro has to rely on white support, not on Carmichael's theory that Negroes are going to take over, Johnson said.

"Negro political power in Congressional districts will

has said that the NAACP has always worked against violence. Johnson said that it is the fact that "black power"

repudiates the theory of non-violence, that hurts the NAACP.

take notes FAST!

Learn **ABREVIATRIX**—the new streamlined system of shorthand—in as little as **FOUR DAYS** in your own free time. Correspondence courses and special schools are NOT necessary to learn the **SHORTEST SHORTHAND**. The new "Shorthand in 4 Days" kit shows in easy-to-follow form the symbols of "Abreviatrix", namely, familiar English letters and numerals. There are no strange hieroglyphics to learn. Abreviatrix saves 67% of the strokes made regularly. Thus, you have far more time in class to listen and think intelligently. Transcribing notes is simple and practically error-free because you use the alphabet.

Included in the Abreviatrix kit is a Practice Handbook which helps increase your speed constantly. In time, you can expect to take between 60 and 120 words per minute. For Abreviatrix two-book kit, send check for only \$2.98 to
