Sophs Will Stage Seminars

By KAREN FREEMAN
DTH Staff Writer

A majors seminar program, covering virtually all available majors, will be conducted during the first week after Christmas as a project of the sophomore class.

Sophomores will have the opportunity to discuss their majors with professors and faculty from the various fields and departments informally. Areas to be explored will be the academic requirements of each major, what majoring in a particular area involves, and where each major will lead after college.

Student Body President Bob Powell supported the program strongly, saying the program is "a tremendous idea and I enthusiastically support it."

"The decision involving the choice of one's major is a critical one, and I would urge all sophomores to take advantage of this opportunity to familiarize themselves with all the options open to them for a major."

The program is also endorsed by Student Body Vice-President Bill Purdy. "The Sophomore Class Majors Seminars Program is one of the most constructive projects undertaken by a class government in recent years... It should be a meaningful and fruitful experience."

Students whose majors fall under the same general category will meet together briefly before dispersing into smaller groups by specific areas. Sophomores and all others are invited to attend.

The schedule for the seminars has been set up as follows:

January 5, 7:30 p.m., Carroll Hall —social sciences: political science, economics, sociology, psychology, anthropology.

January 6, 7:30 p.m., Gerard Hall —fine arts: music,

dramatic art, art. January 9, 7:30 p.m., Carroll Hall —natural sciences: chemistry, physics, math, zoology, botany.

January 10, 7:30 p.m., Gerard Hall —humanities: history, religion, journalism.

January 11, 6:30 p.m., 11 Murphy Hall —business administration, English, classics.

January 12, 7:30 p.m., Carroll Hall — Foreign Languages: French, Spanish, German, and Russian.

Mrs. Kennedy Finds New Book Shocking

NEW YORK (AP) — Mrs. John F. Kennedy, saying "I am shocked" by passages in the book, "Death of a President," disclosed yesterday that she will seek a court injunction to halt its publication.

She said the book, by William Manchester, is "tasteless and distorted."

It deals with the assassination of President John F. Kennedy and the events in the days immediately after the tragedy.

Mrs. Kennedy's lawyers said they expected to file a complaint within 48 to 72 hours asking for a temporary injunction.

Mrs. Kennedy issued the following statement:

"Look Magazine, Harper & Row, and Mr. William Manchester have repeatedly made clear that only legal action can alter their insistence upon publishing at this time—without regard to accepted standards of propriety and good faith, and in specific violation of my wishes, my contract with Mr. Manchester, and the dignity and privacy

which my children and I have striven with difficulty to retain—a premature account of the events of November 1963 that is in part both tasteless and distorted.

"It's inaccurate and unfair references to other individuals, in contrast with its generous references to all members of the Kennedy family, are perhaps beyond my prevention; but to expose to all the world at this time all the private grief, personal thoughts and painful reactions which my children and I endured in those terrible days does not seem to me to be essential to any current historical record.

"I am shocked that Mr. Manchester would exploit the emotional state in which I recounted my recollections to him early in 1964 and I am equally shocked that reputable publishers would take commercial advantage of his failure to keep his word. To the author and publishers, this book will be only another transient chapter in their work; but my children and I will have to live with it for the rest of our lives.

Does it hurt to chill beer twice?

Not that you'd want to. Sometimes it just happens... like after a picnic, or when you bring home a couple of cold 6-paks and forget to put 'em in the refrigerator. Does rechilling goof up the taste or flatten the flavor?

Relax. You don't have to worry.

A really good beer like Budweiser is just as good when you chill it twice. We're mighty glad about that. We'd hate to think of all our effort going down the drain just because the temperature has its ups and downs.

You can understand why when you consider all the extra trouble and extra expense that go into brewing Budweiser. For instance, Budweiser is the only beer in America that's Beechwood Aged.

So... it's absolutely okay to chill beer twice. Enough said. (Of course, we have a lot more to say about Budweiser. But we'll keep it on ice for now.)
