

Congress Probes Effects Of 'Pill'

WASHINGTON (UPI)—A gynecologist warned Congress Wednesday that millions of American women were gulping birth control pills like "chickens eating corn," unaware they may cause cancer, blood clots, diabetes and artery disease.

"The widespread use of oral contraceptives, such as has developed in the United States in the past 10 years, has given rise to health hazards on a scale previously unknown to medicine," Dr. Hugh J. Davis told Sen. Gaylord Nelson's Senate small business

subcommittee on monopoly. The crowded hearing, Congress first probe of "the pill," was interrupted by three members of the Women's Liberation Front, a militant feminist group. "One of us was made sterile by birth control pills!" she shouted. Another

was pregnant. Another witness, Dr. M. James Whitelaw of O'Connor Hospital, San Jose, Calif., said oral contraceptives make some women permanently sterile. He agreed with Davis that intrauterine devices—"the loop"—diaphragms and other contraceptive methods work as well without the hazards.

University Hamilton, Ont., said a chromosome study of 227 miscarriages showed that among women who became pregnant within six months of discontinuing oral contraceptives, there was a "clear increase in one type of abnormality which leads to ... miscarriage."

'King Day' Memorial Set

By United Press International—The nation Wednesday prepared to pay tribute to the memory of Dr. Martin Luther King Jr. on the anniversary of his birthday with a round of memorials seldom accorded a dead private citizen.

New York, Kenneth Curtis of Maine and Frank Licht of Rhode Island—declared the second anniversary of the assassinated civil rights leader's birthday, "Martin Luther King Day."

The Georgia Senate's Business, Trade and Commerce Committee passed a resolution Wednesday to make Jan. 15 a day of memory for the slain Negro leader. But under senate procedure, the measure won't reach the full body for a vote until Friday, the day after the birthday anniversary.

King's body was removed Tuesday from Southview Cemetery and reinterred near the church in downtown Atlanta.

Dr. Frank Riessman, a professor of educational sociology and director of the New Careers Development Center at New York University, will speak at UNC Friday or social policy planning with emphasis on career development for the poor.

Officials ordered schools closed Thursday in several cities, including New York, Baltimore, Kansas City and Harrisburg, Pa.

Several governors—among them Nelson Rockefeller of New York—will also be holding ceremonies.

The Rev. C.K. Steel, Tampa, Fla., first vice president of the Southern Christian Leadership Conference which King headed, said he would ask Florida Gov. Claude Kirk and Tampa Mayor Spurgeon Camp to proclaim Thursday a holiday.

Dr. Riessman will make two presentations under the sponsorship of the School of Public Health. The first will be at 9:00 a.m. in the auditorium of the School of Public Health. At 10:00 a.m. Riessman will speak at a general student-faculty seminar in Room 331.

Riessman served as director of the Mental Health Program at Lincoln Hospital and as an associate professor in the Department of Psychiatry at the Albert Einstein College of Medicine prior to 1966. He has authored or co-authored numerous books, including "Mental Health of the Poor" (1964), "New Careers for the Poor" (1965), "Up from Poverty" (1968), and "Strategies Against Poverty" (1969).

Siegel Highlights Spring Frat Rush

Barry Siegel, often described as the "publicity chairman of the fraternity world" will address a convocation of all freshmen men on Wednesday February 4, according to Interfraternity Council (IFC)

Rush Chairman Peter Berg. Siegel, executive secretary of Zeta Beta Tau national fraternity, was chosen as the Interfraternity Man of the Year for 1969 by the National Interfraternity Conference, and received the Alpha Delta Gamma Interfraternity Award "for his outstanding contributions to the nation and its people and particularly to the Interfraternity system" in 1968.
