

DTH review

'Baby Doe' deserves plaudits

by Adrian Scott
Feature Writer

A favorable review is a rare thing; but the UNC Opera Theatre's production of "The Ballad of Baby Doe" deserves one.

The story of the work centers round Horace Tabor, a Colorado silver magnate, who leaves Augusta, his wife of thirty years, in favor of Baby Doe, a young miners' sweetheart.

abolition of the silver standard, Tabor falls into penury and dies, while Baby Doe remains faithful to his memory until she freezes to death in one of his old silver-mines many years later.

The first of the many good points about the production was its casting. Julian Long, as Tabor, brought great maturity, a fine voice, and a lot of dramatic ability to the part.

Campus calendar

Alpha Epsilon Delta will have its spring rush meeting Monday night, February 15, at 7 p.m. in room 106 of the Basic Medical Sciences Building.

Tuesday, Feb. 23—taping. Other dramas are planned for later in the semester but the interest now is in getting interested people to gain experience in this first presentation.

There will be a meeting of all current recipients of North Carolina Scholarship Loans for Prospective Teachers tomorrow at 2 p.m. in Gerrard Hall.

The Peoples' Peace Treaty Steering Committee will meet tonight (Mon., Feb. 15) at 8:15 p.m. in the Student Union in Room 217.

There will be an orientation meeting for all tutors working at the Multipurpose center at the center Monday and Tuesday (Feb. 14, 15) at 3:30 p.m.

A ring showing and sale will be held today and Wednesday from 9 a.m. to 4 p.m. in the lobby of the Student Union.

Anyone interested in participating in the production of a radio drama should come to control room 3 in Swain Hall on Tuesday afternoon, 2-4 p.m., February 16th.

Found: Men's gloves left on counter of Placement Office. Claim at front desk of 211 Gardner.

Lost: Women's beige billfold. Contains desperately needed driver's license, UNCC I.D., and S.S. card. Keep money and billfold. Just return cards to Student Union Information desk or call 933-6051.

S. Viets may stay in Laos long time

SAIGON—The commander of South Vietnamese troops in Laos said Sunday his troops are prepared to stay there until the Ho Chi Minh Trail is shattered.

"It will not be a short period," said Lt. Gen. Hoang Xuan Lam, when questioned by newsmen about the duration of South Vietnamese land operations in Laos.

Lam's statement at Khe Sanh was contradictory to announcements by South Vietnamese President Nguyen Van Thieu who has said the South Vietnamese planned a Laotian campaign of "limited duration."

Church wants total withdrawal

WASHINGTON—Sen. Frank Church, D-Idaho, Sunday urged fellow Senate doves to abandon efforts to legislate a deadline for President Nixon to withdraw all U.S. troops from Southeast Asia.

Church said he still supported the McGovern-Hatfield amendment to impose a Dec. 31, 1971, deadline as a "gesture" of how the Senate feels about the war.

Church, the cosponsor of the 1970 Cooper-Church amendment banning American ground combat troops from Cambodia, is planning to offer a resolution that would set total withdrawal from Vietnam as the national purpose of the United States, without suggesting a fixed date.

Train fire kills 34 workers

BELGRADE—A flash fire swept through a passenger train loaded with steel workers inside a tunnel near the central Yugoslavia town of Zenica Sunday taking a heavy toll of life.

A Zenica police official said 34 bodies had been recovered by Sunday night from the two-mile long Vranduk tunnel and it was feared the death toll would rise.

The fire broke out on the Diesel locomotive hauling the nine-car train as it entered the Branduk tunnel at about 6 a.m.

On the train were about 200 workers heading for the early shift at the Zenica steel mills.

British shilling no more

LONDON—Britons Sunday began a tradition-shattering changeover to a new dollar-and-cent style decimal money, which many said they still did not understand.

From Monday morning onwards, the 800-year-old system of 12 pence (12 cents) to a shilling and 20 shillings to a pound (\$2.40) will be scrapped.

Answer to Saturday's Puzzle

Distr. by United Feature Syndicate, Inc. 15

In the old days they smacked us across the knuckles if we read with our hands!

Today, reading with your hands is quite acceptable.

In fact, it's somewhat of a status symbol, because people who read with their hands are graduates of the Evelyn Wood Reading Synamics Course.

The machine, while seemingly a good idea, didn't live up to expectations. It couldn't slow down when the reader ran into a confusing passage.

In 1945 Evelyn Wood discovered the hand as a device for reading faster.

Her reason for using the hand as a tool was to "give my students the ability to read groups of words at a time and to increase their concentration so they won't have to go back and re-read so often."

Her principle worked.

Since 1959, more than half a million people have taken the Evelyn Wood Course and have increased their reading speed by an average of 4.7 times.

Using the hand to read faster is a very interesting experience.

If you would like to try your hand at it, why don't you come to a Mini-Lesson? In one hour's time, we'll have you reading down the page faster than you can imagine.

In addition, you'll take home with you a definitely faster reading speed... one that can be used on newspapers, magazines, correspondence, textbooks, and technical journals. Also, we'll tell you about some of the other things that have made this the most popular extra-curricular course in the world.

It's a wild hour. And it's free.

COME TO A FREE MINI-LESSON

Table with columns for FEB. MINI-LESSONS (7:30 P.M.-8:30 P.M.) and 7:30 P.M. CLASSES (REGISTRATION 7 P.M.). Rows list locations like (IN DURHAM) Hilton Inn, (IN RALEIGH) Meredith College, (IN CHAPEL HILL) Carolina Inn, and (IN FAYETTEVILLE) YMCA.

GUARANTEE

We guarantee to increase the reading efficiency of each student AT LEAST 3 times with good comprehension. We will refund the entire tuition to any student who, after completing minimum class and study requirements, does not at least triple his reading efficiency as measured by standardized testing.
