

## Attack feared

## Crisis shakes China

China is being shaken by "grave internal political developments," the official Soviet news agency Tass said Friday.

It said the Peking government was trying to divert attention from the crisis by urging the public to prepare for a Soviet military attack. The alleged military threat was being used by the Chinese as an excuse to explain canceling of the annual Oct. 1 National Day parade and mass rally in Peking, Tass said in the first Soviet reaction to reports of Chinese difficulties.

The news agency said Western analyses about what was happening in Peking were only guesses but added: "One thing is clear. A number of grave internal political developments are affecting the general situation in the People's Republic these days."

Peking journalistic circles have

information, Tass said, the populace is being told China was "being threatened on its northern borders and that an attack is being prepared upon China, and therefore there is no possibility to celebrate the holiday." The slogan "Prepare for War" is part of the scare campaign, it said.

In the listening post of Hong Kong, UPI correspondent Charles Smith said analysts were convinced China was locked

in a leadership crisis and that most tended to believe it involved the death of Chairman Mao Tse-tung or his heir, Defense Minister Li Pao.

An American source in Japan speculated the China situation was due to tensions with Russia along the Ussuri River. The source said all military flights were suspended Sept. 15 and only sporadic civilian flights had been allowed since.

## 90 expelled

## British oust spies

LONDON—The British government, acting on information supplied by a defector from the Russian secret police, ordered 90 Soviet officials expelled from

spying Friday and told another 65 they would be barred from re-entering Britain.

The expulsions were on a scale unprecedented in peace-time relations between major powers.

The foreign office did not identify the KGB secret police agent who defected to Britain earlier this month and told about Russian espionage activities.

"This man, an officer of the KGB, brought with him certain information and documents, including plans for infiltration of agents for the purpose of sabotage," said the foreign office.

The government said the 90 Soviet officials from the embassy and other Russian organizations have been ordered to leave Britain within two weeks.

## Israel admits firing missiles

Israel's armed forces chief acknowledged indirectly Friday that Israeli war planes fired U.S.-made Shrike missiles at Egyptian missile sites along the Suez Canal last weekend in retaliation for the Egyptian downing of an Israeli military transport plane.

Lt. Gen. Haim Bar-Igav, in a television interview, said the action was meant to make it clear to the Egyptians further breaches of the cease-fire would be followed by an "appropriate" Israeli reprisal.

In reply to a question, the chief of staff disclosed Israeli possessed American-made air-to-ground missiles, but did not say explicitly such missiles were used in Saturday's attack.

But his reference to "last Saturday's action" was interpreted by military observers as an indirect admission such missiles were indeed used against Soviet-built missile sites on the Egyptian side of the canal.

## U.N. upholds debate on 2-China question

UNITED NATIONS, N.Y. — The General Assembly decisively defeated an Albanian move Friday to prevent debate of the two-China policy.

A 65-47 vote with 15 abstentions, to include the item on the agenda for debate expected next month gave the momentum to Washington's drive to save a U.N. seat for Nationalist China.

The Albanian deputy foreign minister, Reis Malile, asked the assembly to override the decision of its steering committee to include both pro-Communist and pro-Nationalist items for the debate on the China issue.

The assembly approved without a vote its committee's decision to inscribe an item sponsored by Albania and 20 other countries calling for the seating of Peking and the expulsion of Chiang Kai-shek's Nationalists from all U.N. bodies.

The United States is pushing two resolutions. One would seat Peking in both the Assembly and the Security Council, the other would require a two-thirds vote of the Assembly to expel the Nationalist government.

## Planes hit Red positions

SAIGON — American warplanes were reported Friday to have attacked Communist positions in the four Indochina nations, and the Viet Cong pledged to retaliate 5 to 10 fold in the South for massive air strikes it called "criminal war actions in North Vietnam."

The U.S. command said B52 bombers hammered the Ho Chi Minh supply trail in Laos and Communist troop concentrations and supply lines in Cambodia Thursday night and Friday morning.

## Pepsi invades Poland

NEW YORK — Pepsi-Cola and Coca-Cola are getting ready to invade Communist Poland.

Pepsico, Inc., said it has licensed a Polish government firm, Agros Foreign Trade Enterprises, to produce and market Pepsi-Cola.

Coca-Cola Exporters, Inc., said it understood a similar deal had been negotiated with Coca-Cola or was about to begin.

Pepsico said as far as the parent company was aware, no Pepsi-Cola has been imported into Poland in recent years. Early in the cold war, the communist parties in all the European countries made a political issue out of Coca-Cola and sought to boycott its sale in Italy, France and other European countries.

## MIRV delay rejected

WASHINGTON — The Senate rejected legislation Friday to postpone deployment of the nation's newest offensive missile system to promote international arms control.

The vote was 35 to 12 against an amendment sponsored by Senator Hubert H. Humphrey, D-Minn.

Warning that the United States has "enough nuclear power to burn the earth, to scorch everything," Humphrey had sought to put into reserve for one year an estimated \$2 billion for the multiple independently targetable reentry vehicle.

## Justice may be woman

WASHINGTON — With a rare opportunity to fill two Supreme Court vacancies at one time, President Nixon may choose to make the historic nomination of the first woman justice in the nation's history.

Nixon himself fueled growing speculation in this direction. In Detroit Thursday, he said "a woman who is qualified should be appointed to any court—district court, circuit court, or supreme court."

Nixon said he is more interested "in their judicial philosophy that I am in the part of the country they come from or whether they are a woman or a man."

## 'Fail-safe' approved at SALT talks

WASHINGTON—The United States and the Soviet Union have agreed on a new "fail-safe" system designed to prevent accidental nuclear war, including use of communications satellites for the Washington-Moscow hotline, the White House announced Friday.

The agreement was reached during the fifth round of the Soviet-American Strategic Arms Limitation Talks (SALT) in Helsinki, Finland, which were adjourned Friday until Nov. 15 in Vienna.

The accord will be signed next Thursday at the State Department by Secretary of State William P. Rogers and Soviet Foreign Minister Andrei Gromyko. Senate ratification is not required.

The terms of the agreement, disclosed by the White House, provide for a mutual commitment to refrain from nuclear retaliation in the event of an accidental firing of a nuclear weapon or detection of unidentified objects on early warning system, pending instantaneous consultations between Washington and Moscow.

## Tito assured of self rule

BELGRADE — The official communique on Leonid I. Brezhnev's visit will contain Soviet guarantees Yugoslavia has the right to run its own affairs, government sources said Friday.

The Soviet Communist party secretary and his host, President Tito, spent Friday in Karadjodjevo, a hunting lodge northwest of Belgrade, ending three days of talks and putting the finishing touches on the communique.

The communique, which will reinforce Yugoslav independence from Soviet dictate will be issued Saturday, probably after Brezhnev leaves for home, the sources said.

## Rocky blames exploitation

ALBANY, N.Y. — Governor Nelson A. Rockefeller said Friday some of the blame for the Attica prison riot deaths must be placed on persons who "exploit legitimate grievances not because they want to correct them, but because they try to use them for the overthrow of our society."

Rockefeller, in a speech prepared for the opening of the New York State Bar Association Building, said that "the tragedy at Attica is another symptom of the deep-seated illnesses of our society."

## Classifieds

For Sale: RCA Tape player and 45 8-track tapes — 933-4346.
