McAdoo leads Carolina past Pittsburgh, 90-75

by Mark Whicker
Sports Editor

PITTSBURGH — Robert McAdoo showed a record Pitt University crowd why he was a junior college All-American last year, and more importantly, showed Carolina the way to a 90-75 victory Saturday night over the troublesome Panthers.

The 6'9" McAdoo, in his second game as a Tar Hee, scored 27 points, snatched nine rebounds, and led a second half charge after Dean Smith's crew had

led by only two at half time.

And the jammed packed crowd of 5,552 yelled for an upset in old Fitzgerald Field House. "Big Mac" scored seven straight points in little over a minute to give UNC an eleven point lead.

The Panthers, led by the long-range gunning of guard Mike Paul, cut the lead to 76-67 with 5:21 to go and got the ball back on a turnover. But reserve forward Don Johnston took a rebound to set up a George Karl layup and UNC coasted from there.

The second half heroics saved a happy

homecoming for Pittsburgh suburbanites Karl, Dennis Wuycik and Steve Previs, but they could find little to celebrate about in the first half.

Pitt slowed down Carolina with an aggressive man-to-man defense and erased a ten-point lead when Carolina went six minutes without a field goal near the end of the half.

Guards Paul and Kent Scott led the Panthers to a 50 per cent field goal percentage in the half, and all that kept the Tar Heels in the lead was Pittsburgh's overabundance of fouls.

Sophomore Bobby Jones, 6'9", and McAdoo helped Carolina get ahead by seven early in the second half, but Paul and sophomore Bill Knight, who fouled out after 12 points, led the Panthers back.

The ball hawking of Jones, the fast break artistry of Karl, aroused by his home-town fans, and McAdoo's strength finally clinched the triumph.

Wuycik scored 21 and Karl got 20. Jones added 12 with nine rebounds and a superb shot-blocking performance. Previs only scored two but contributed seven assists.

Bill Chamberlain, whose suspension was removed by Smith Friday afternoon, was effective late in the second half and scored eight points with five assists.

Pittsburgh Coach Buz Ridl praised the second ranked Tar Heels. "They had too much manpower for us, even though our kids played well," he said.

The Tar Heels amazed the crowd by substituting freely even though the game was close throughout.

Carolina, now 2-0, meets Princeton in Jadin Gymnasium tonight.

| North Carolina | FG | FT | R | F | TP |
|----------------|-------|-------|----|---|----|
| Wuycik | 6-9 | 9-9 | 5 | 1 | 21 |

Once-beaten Princeton host Tar Heels tonight

by Mark Whicker
Sports Editor

PRINCETON, N.J. — When Coach Dean Smith heard that Princeton had lost to Penn State 72-70 Friday night, he considered it bad news.

The highly rated Tigers will try to prove Smith right at 8 p.m. today when they play the second-ranked Tar Heels in 7,500 capacity Jadin Gymnasium.

The Tigers are what Coach John Lotz calls "a legit good team." They feature All-American candidate Brian Taylor, captain of the U.S. Pan American team, who averaged 29 points as a freshman and 23.5 as a sophomore.

Taylor led all scorers with 21 in the loss to Penn State. His backcourt teammate is 6'2" Ted Manakas. He usually calls the teams shots on the floor but can shoot as well. If Taylor and Manakas aren't already in the East's best backcourt, they may be next year, since both are juniors.

At center is 6'10" Andy Rimol, the tallest player in Princeton history. He averaged almost 20 points as a freshman.

Another sophomore, 6'6" John Burger, and 6'6" captain Al Duffy are the forwards. Burger was held scoreless by the Nittany Lions, but the usually low-scoring Duffy picked up 13 points. Both are good rebounders and Berger averaged 14.6 as a freshman.

Coach Pete Carroll lost 6'8" Bill Kapler at the beginning of the season with knee surgery. So Gerald Couzens is an important figure, at 6'7".

At least Couzens will be prepared to face the Tar Heels tonight. His senior sociology thesis is "Relation of the Basketball Team to Larger Society," and he won't meet much larger society this season than 6'9" Robert McAdoo, 6'9" Bobby Jones, 6'6" Dennis Wuycik and 6'6" Bill Chamberlain.

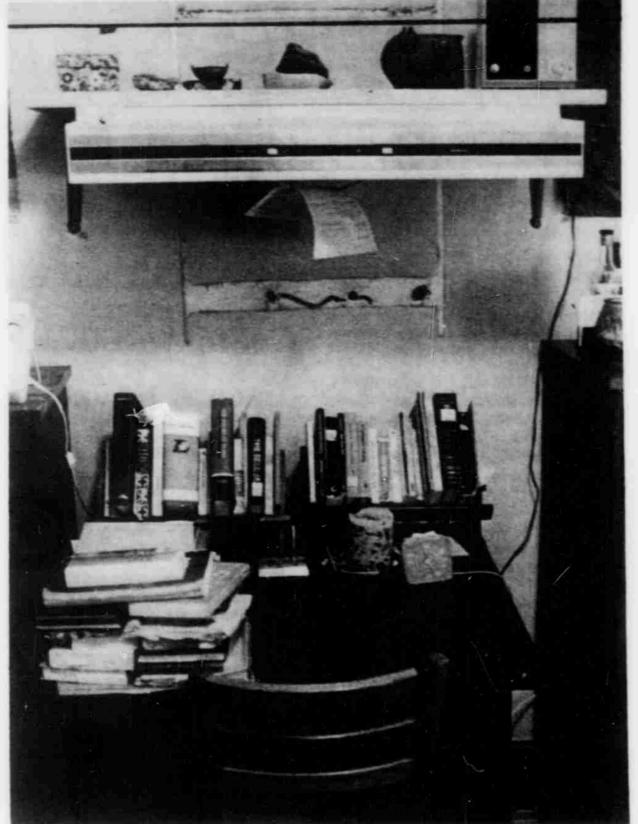

With Chamberlain back from suspension, Smith has awesome front court depth. Don Johnston, 6'8," and

6'10" Craig Corson have improved so much that sophomore scoring leader John O'Donnell may get much time in this year.

McAdoo scored seven straight points in Carolina's 90-75 win over Pittsburgh Saturday night and at times he dominated the game. And Wuycik, who always scores more than he appears to, was perfect on the foul line and scored 21 points.

There may not be a more unselfish player in college basketball than Steve Previs, who got seven assists at Pitt. He'll be guarding the dangerous Taylor tonight, and George Karl, who has hit 13 of 15 floor shots this year, will be guarding Manakas.

Princeton will be the toughest team Carolina has faced thus far. The Tigers hope their backcourt aces can make up for Carolina's superior size and depth. However, the Tar Heels are favored to win their third game.

This stove hood above a student's desk in Connor Dormitory was installed due to a paperwork mistake, according to Residence Life Director Robert Kepner.

Stove installation: paperwork mistake

by Greg Turosak
Staff Writer

The installation of a stove hood in 209 Connor dorm by the University Physical Plant during Thanksgiving break was due to a paperwork mistake in the Office of Residence Life, according to the office's head.

"The primary fault lies with Residence Life," said Robert F. Kepner, director of the office. He said the office had ordered the installation of stove hoods in various locations, and the order for the Connor dorm was "simply not noticed" in the shuffle of paper work.

Physical Plant workmen installed the appliance to fulfill an order signed last year when room 209 was not a bedroom.

Dorm residents said a maid asked the workmen not to install the stove hood above one of the room's desks, but they completed their orders anyway.

The residents of the room, Beth Swann and Tricia Mobley, were unaware of the addition to their room until they returned from vacation.

"I couldn't figure out what it was," said Miss Mobley. "At first I thought it was some strange new light because we don't have any desk lights."

She later determined it was part of a stove which took up the space formerly occupied by her bookshelf.

Connor has been trying to get a kitchen for more than a year. Previous efforts, by former dorm president Carolyn Krisulewicz last year, had been diverted because of a lack of funds.

Connor's current president, Janet Stephens, wanted to have the kitchen placed in the basement. However, the basement is now occupied by Gamma

Robert Kepner

Sigma Sigma service sorority who moved last fall from their old home in Cobb.

Miss Stephens' efforts this year have been directed at getting a new place for GSS to stay. Connor could not put the kitchen in a room other than the basement, said Miss Stephens, because of the expense of rewiring and pipework in other rooms.

Because of the severe overcrowding in Connor, Miss Stephens said, she was told recently by Residence Life to wait again until next fall for a kitchen.

Mrs. Graham Ramsey, Connor residence director, and Miss Stephens said they might consider leaving the hood there so the rest of the kitchen will have to be put in next year.

At meeting today

Aldermen to discuss vending

The Chapel Hill Board of Aldermen will be presented today with preliminary public market designs for vending on Franklin Street.

The board will meet at 4 p.m. in the Municipal Building.

Alderman Alice Welsh, a member of the board's street vending committee, said the designs will be presented to inform the aldermen of the committee's progress. Mrs. Welsh has been working with Town Planner Art Berger and design students from N.C. State University on the market sketches.

"I don't think we will be ready to take any action on vending Monday," Mrs.

Welsh said. "One of the problems with vending plans last summer was that the board was not in on the planning. The presentation Monday will be a progress report on where we stand now and what we've been doing in the last three months."

The public market sketches and designs for vending stalls will be displayed in the conference room in the Municipal Building for an hour before the board's meeting to give the aldermen an opportunity to examine the sketches and talk with the design students about them, Mrs. Welsh said.

The area proposed for vending is the

south side of Franklin Street in front of the University Methodist Church. The vending committee plans to brick in the grassy pods between the curb and sidewalk to create regulated vending areas.

The State design students have drawn specific stands and stalls to be mounted in the pod areas for vending.

In other business, Mayor Howard Lee will discuss with the board a proposal for forming a Triangle area consumer protection agency.

Lee said at the board's last meeting he would like to see Chapel Hill join with Raleigh and Durham to form a protection

agency to investigate products and businesses on behalf of consumers.

Lee said he would have some specific guidelines for the consumer agency and would investigate the interest of Raleigh and Durham in joining with the town.

Architect Tom Bridges will also meet with the board to discuss bids received for remodeling the Town Hall courtroom.

Renovation of the courtroom is one of the major capital expenditures in the year's budget. The remodeling will provide for an additional day of District Court here each week and meeting quarters for the Board of Aldermen.

Weather

TODAY: cloudy and mild, highs in the mid 50s, lows in the low 40s; chance of precipitation 30 percent.

Questionnaire distribution to aid course evaluations

A group of students attempting to evaluate the undergraduate curriculum of the University will distribute course evaluation questionnaires Tuesday and Wednesday in classes.

The questionnaires will be given to professors through department secretaries who will collect the questionnaires after they are completed and return them to the course evaluation group.

Answers to the questions will be punched on IBM computer cards and tabulated at the UNC Computer Center.

Tom Pace, co-chairman of the evaluation group sponsored by Zeta Beta Tau fraternity and Pi Beta Phi sorority, said he expects 3,000 of the course

evaluation booklets to be printed by mid March in time for fall pre-registration.

The group needs a minimum of \$3,000 from Student Legislature, Pace said, for printing and operational costs. He said \$285 was spent for the questionnaires and \$180 for the IBM cards.

Pace said the need for the course evaluation booklet was "basically due to the size of the University."

"The size of the University makes it virtually impossible for a student to have a reliable source of information about courses and professors," he said. "We hope this booklet will provide that source."

The questionnaires concern the

student's standing in the course and what he thinks of various aspects of the course's contents and requirements.

For example, one question is: "I consider the required readings for this course to be . . . a) very poor b) poor c) fair d) good e) very good."

The 22-question forms also concern quizzes, papers, lectures and amount of work of the courses.

The course evaluation group began their work last spring and will turn the results over to Creative Printers in Chapel Hill by mid February, Pace said.

He said questionnaires will be distributed for professors' opinions of their courses after Christmas vacation.

For low tar and nicotine...
True's the one
Regular or Menthol
Regular 12 mg 'tar', 0.9 mg nicotine av. per cigarette, FTC Report, Aug. 71
Menthol 13 mg 'tar', 0.7 mg nicotine av. per cigarette, FTC Report, Aug. 71
