# Garbage overflow will remain

An overflow of garbage in the trash dumpsters at Big Fraternity Court will remain there, Town Manager Chester Kendzior said Monday.

The fraternities have been placing the overflowing garbage in plastic trash bags and putting the bags next to the dumpsters.

The front-loading trucks which collect the garbage twice weekly from the three dumpsters at the fraternities are one-man operations, Kendzior said. The driver would have to get out of the truck and pick up the garbage himself which would cause scheduling difficulties, he said.

Kendzior suggested that the fraternities buy another dumpster to accommodate the garbage overflow. He estimated that the dumpster would cost approximately \$400, depending on its size.

Another dumpster would take up parking space in the already-crowded area, Jerry Askew, vice-president of Pi Kappa Alpha fraternity, said.

"If we take the time to bag the garbage," Askew said, "the least the town could do is

pick it up."

Harold Harris, a Public Works Department employee, said that each truck has a certain number of containers to service in an 8-hour period. "We must provide equal service for all," he said.

Askew said he attended the Board of Aldermen meeting three weeks ago when the problem with unauthorized sludge at the county landfill was discussed. He said he felt the town could do something about the garbage overflow problem if it desired to.

# Carrboro Task Force organized

Nineteen Carrboro citizens, including several UNC students, met Sunday night to organize a political coalition to bring what they hope will be a new direction to Carrboro politics.

The group, the Carrboro Task Force, will organize a non-partisan voter registration campaign, present platforms for change in Carrboro, and possibly run candidates for

mayor and the Board of Aldermen in the November election.

Ernie Patterson, a former UNC student and the leader of the Carrboro Task Force, said, "Students must be involved in Carrboro politics if they are to get better services," such as a public transportation system, street and sidewalk repairs and lower water rates.

Harriet Emory, another Carrboro resident, presented statistics showing that only 11 per cent of the eligible undergraduate students living in Carrboro voted in the last

election and only 20 per cent of the eligible graduate students voted.

The primary goal of the group is to push for a November vote on the Carrboro bus referendum. "In terms of cost to the town and convenience to the voters, November is the best time for the referendum," a member said.

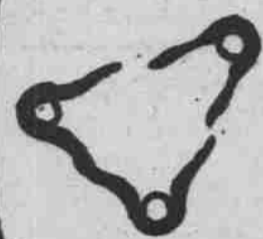

Six subcommittees were appointed Sunday night to study and develop proposals in the areas of transportation, public utilities, public services, growth and zoning, recreation, and greater cooperation with Chapel Hill.
