

# Israeli cabinet votes to resume talks with Egypt

TEL AVIV, Israel — (UPI) The Israeli cabinet voted Sunday to resume direct negotiations with Egypt, capping two weeks of intense behind-the-scenes diplomatic activity by U.S. intermediaries.

The decision to send a delegation to the military talks in Cairo, probably sometime this week, was made despite personal attacks on Prime Minister Menachem Begin in the Cairo press, cabinet secretary Arye Naor told reporters in Jerusalem.

Begin says he will honor his anti-war pledge and believes Egyptian President Anwar Sadat will do the same, despite the break in their peace negotiations.

"I have the pledge given to me by President Sadat: No more war, no more bloodshed," Begin said. "That pledge was an absolute one to which I

responded in kind. It did not depend upon the continuation or disruption of the talks we started in November.

## news briefs

### Suspicious persons

Four suspicious persons were sighted at campus dormitories over the weekend, University Police reported.

Cynthia Currin, a resident assistant at Cobb Residence Hall, told police an unknown person was heard scratching on a window screen of a first floor room Sunday morning. At Whitehead

Dorm, a suspect was seen looking up at the south side of the building near a bike rack.

Three University Police officers searched both areas but found no suspect. However, police did apprehend a suspect after a suspicious-person sighting at the Craig Dorm lobby Sunday. Police later discovered the suspect was an outpatient at the N.C. Memorial Hospital psychiatric clinic.

Police apprehended a second suspect after residents of Hinton James Residence Hall observed a suspicious person. A spokesperson said the suspect appeared to have eyesight problems and had difficulty standing. The spokesperson said the four sightings were not related.

### Satellite possibly found

EDMONTON, Alberta (UPI) — A group of meteorologists in the Northwest Territories have reported locating a suspicious-looking black object that might be part of the Soviet spy satellite that fell from orbit over northern Canada five days ago, a Canadian Defense Department official said Sunday.

### Hijack attempt fails

WILMINGTON (UPI) — A flight attendant threw a drink into a hijacker's face Saturday night to foil his plan to divert a Piedmont Airlines plane from North Carolina to Cuba, airline officials said Sunday.

## Outbreak of wallet thefts continues

At least 13 wallets have been stolen from the main floor of Woolen Gym in the past 18 days, a University Police spokesperson said Sunday.

Sgt. Charlie Parker said all the thefts occurred after the victims left their clothes, wallets and other personal items at the edge of the floor while playing basketball.

All of the victims said they left their belongings

for only a few minutes. None of the wallets has been recovered.

University Police officials have assigned Sgt. Walter Dunn, a plainclothes detective, and two uniformed patrol officers to the case, Parker said.

Chief of detectives Lt. Charlie Mauer acknowledged that fewer persons may have been victimized if police had been able to assign more manpower to security in the gym. But he said students must be responsible for their own property.

"The only suggestion I can make other than putting valuables in a locker or a basket is to leave them back in the dormitory," Mauer said.

ON RICHARD NIXON — "The funny thing about being with Nixon is that you never know when he has left the room. Whereas Goldwater has a vivid perception of himself, sees and knows himself through his own eyes, Nixon can only know himself through other people's eyes. I seriously believe that Richard Nixon does not exist when no one is looking at him."

## New laws benefit tenants

By MELINDA STOVALL  
Staff Writer

Although landlords have the upper hand in Chapel Hill because of the scarcity of student housing, tenants have two new laws in their favor, according to Dorothy Bernholtz, attorney for Student Legal Services.

Both laws took effect Oct. 1, 1977. One guarantees tenants the right to safe housing. The other, the Tenant Security Deposit Act, requires a landlord to place all security deposits in a trust account with an accredited North Carolina bank or have the money bonded.

In compliance with the first law, landlords must meet the requirements of the city's minimum housing code. The Chapel Hill code includes the following requirements:

- All foundations, walls and floors should be sound with no peeling or cracked plaster.
- All stairs and porches should have handrails.
- All doors leading outside should have a lock and key, and windows also should have locks.
- Any habitable room must have at least one operable window.
- Screens and windows must have some type of weather stripping material.

Bernholtz said that if a tenant's residence needs repairs, he should mail the landlord a letter stating the nature of the repairs. If the landlord does not comply within a reasonable amount of time, the tenant may go to court and prove there is a need for repairs, she said. But, she added, a tenant cannot withhold rent payment without judicial approval.

Under the law, the tenant also has certain responsibilities. The responsibilities include keeping the premises as clean as conditions permit and not destroying or defacing the property.

# When you take away the uniform and the lifestyle what have you got?

### The Job.

The Coast Guard's involved in things like saving lives, fighting pollution, enforcing the law, and maintaining navigational systems. They're big jobs and they're important jobs. To the country and to the people who do them. And you could be involved in one of them after just 18 weeks in Officer Candidate School in Yorktown, Va.

As an officer in the Coast Guard you would be in a position of responsibility and leadership. It's a challenging job. One where you'll prove to yourself and others that the 4 years you spent in college were well worth it.

### The Pay & Benefits.

As an Ensign in the Coast Guard, your starting salary will be over \$10,000 a year. During your first 3 years, normal promotion and seniority will increase your salary by over 40%. Along with that come generous living allowances and benefits. Your medical and dental care is free. If you

get married, your family also receives medical coverage. If you make the Coast Guard your career, you can apply for post-graduate training. And if you're selected, we'll pay your tuition plus keep you on full salary while you're attending school.

There's also a generous retirement plan if you stay with us for at least 20 years. That's something you won't find with many private companies.

### The Opportunities.

The jobs the Coast Guard does are anything but ordinary. Which means that doing those jobs will pay off in training and experience that is anything but ordinary. You'll develop skills in management and leadership that will be invaluable to you and your career. Skills you can use whether you stay in the Coast Guard or not.

And you'll be able to travel. A Coast Guard Officer doesn't stay put. Your assignment could be in any of a variety of locations around the country or overseas.

### The Future.

As with any job you're interested in now, the future has got to be an important consideration. Where's the job going to lead you? In the Coast Guard your future is, to say the least, expandable. Whether you make it a career or not, the experience and skills you'll develop will be hard to match anywhere else. The most important of which will be the skill of handling yourself in a management situation. Because

that's what you'll be involved in on the first day of your job as a Coast Guard Officer. And when you've got that kind of experience, you can use it anywhere.
