

PS-8a

PS-5a

Wins on Campus.

ESS wins at UCLA

ESS No. 1 at The University of Wisconsin

ESS wins again at Georgia Tech

In a campus listening test, thousands of students chose ESS as their favorite speaker. 24 other popular name brand speakers were compared, including BOSE, PIONEER, JBL, AR, ADVENT, CERWIN VEGA and others. ESS speakers won 50 out of 52 comparisons and tied the other two comparisons. Often, ESS was

chosen by 4 out of 5 over speakers selling for twice the price (such as the BOSE 901 IV). The ESS speakers use the phenomenal Heil Air Motion Transformer for incredibly clear mid and high frequencies. And ESS speakers are so efficient, they usually require only 25 watts to play louder than other speakers with 100 watts.

Save \$50.00 a pair off the
ESS PS-8a or PS-5a
During August and September

The PS-8a, regularly \$430 pr., now \$380 pair

The PS-5a, regularly \$568 pr., now \$518 pair

Other ESS speakers from \$140 each
