For nearby trip into the outdoors, try Umstead Park

By VALERIA DU SOLD

William B. Umstead state park is one of the closest recreation areas to UNC.

Located 11 miles west of Raleigh, Umstead park's two sections offer camping, hiking, fishing and other activities.

The 3,979 acre Crabtree section of the park has 28 individual campsites each with a picnic table and fire place. The campsites are \$4.50 per night.

The lake at the Crabtree section offers fishing, but not swimming. Boats can be rented at the park for \$1 per hour during spring and summer, but no private boats are allowed.

Besides fishing the park also offers 30 miles of hiking trails and 50 miles of bridle trails, and many use the park for jogging.

"People jog up and down the park roads every evening," said park Superintendent James C. Johnson.

The Reedy Creek section of the park offers group camping only for groups of up to 100. These group campsites include cabins and a mess hall plus showers and electricity. The price of a group campsite for one night is \$30 to \$40 depending on the amount of utilities used.

A lake for fishing and swimming is also offered at the Reedy Creek section along with five miles of hiking trails.

In both sections picnicking for the day is free and picnic tables are provided. The park is open all year, but group camping in the Reedy Creek section is limited to April 1 to Oct. 31. The park is open from 8 a.m. to 6 p.m. daily.

For more information on Umstead park call the Crabtree section at 919-787-3033 or the Reedy Creek section at 919-467-7259.

If you're going... the Reedy Creek section of the park is located 11 miles west of Raleigh on Interstate 40. The Crabtree section is 10 miles west of Raleigh on highway 70. ☐

The Polks "At their price, they are simply a steal!"

Audiogram

"Polks are vastly superior to the competition." Musician Magazine

Lab and listening tests prove Polks measure and sound better. Experts agree Polk speakers will give you the highest quality sound and the most listening pleasure for your money. They will deliver amazingly life-like, box-less, three dimensional sound with breathtaking clarity and detail in your listening room from your hifi system.

"Polk speakers are so vastly superior to the competition..." a remarkably well integrated and coherent sound that adapts itself ideally to all kinds of music... the kind of open, uncolored, perfectly imaged sound we thought began at twice the price... **Sound quite magnificent** with a good mid-powered popular brand receiver... They make the popular speak-

ers in their price range seem dim, colored, boxy and just plain insufficient. **Our advice is not to buy speakers until you've heard the Polks.** Musician Magazine

Better sound in your home Polk Audio loudspeakers will give you more listening pleasure and greater long term satisfaction from your music, your records and your hifi system. They offer you the best sound for your money and are affordably priced
