around, such as staying home and working rather than traveling over the summer, Morris said.

"We might expect the students to make sacrifices," she said.

She disagreed with Reagan's view that the federal government did not have an obligation to aid students who wanted to go to college. "The federal government doesn't have the right to advocate that all students can earn their way through college."

"The government has a responsibility to educate the youth of America, which is the best resource we have today."

If Reagan's proposed cuts are approved, undergraduate and especially graduate student programs may again be limited to the wealthy, Morris said.

Students should be aware that the deadline for applying for financial aid is March 1, and the likelihood for late applicants receiving aid is very small, she said.

"The University has every intention of using all the resources available to help fill the void left by any cuts in federal aid," Morris said. "Right now the ball is in the students' court. They have to get their applications in on time."

In the past, the financial aid office has handled more than \$20 million for the 9,500 UNC students who have received it.

The office has had an increase in the percentage of collections of student loans this year, which will help the office receive more money for future loans, Morris said.

The financial aid office is planning to propose alternatives to the administration this week, Morris said. These alternatives include expanded job-finding services and increased efficiency in the office.

The UNC administration, the financial aid office, and the Graduate and Professional Student Federation will announce specific plans to protest the proposed financial aid cuts next week, Morris said.

There is no need for students and parents to start writing to their congressmen now because the issue may not come before both houses of Congress until this fall, she added.

However, if students write as many letters as were written by Social Security recipients when social security was to be cut (there were 1.2 million letters received each day by Congress during debate on Social Security), it will be "a whale of an effect" on the way Congress votes on the proposed cuts, Morris said.

Because of the proposed cuts, students may be forced either to take time off to work instead of going to school, or work and go to school at the same time, which would be very difficult for most students, Morris said.

# Campus Calendar

Public service announcements must be turned into the box outside DTH offices in the Carolina Union by noon if they are to run the next day. Each item will be run at least twice.

## TODAY'S ACTIVITIES

Busmasters will have a meeting at 7 p.m. at Peppi's. Plans for this semester's activities will be discussed. It is important that all old and prospective members attend this meeting.
