Year 'Round Service and Supplies Plus Discount Prices Make Your STUDENT STORES HEADQUARTERS for Texas Instrument, Hewlett-Packard and Sharp Calculators and a complete line of accessories

PLUS 90 DAYS OVER-THE-COUNTER EXCHANGE ON ALL CALCULATORS

TEXAS INSTRUMENTS

- TI-58C. Advanced programmable calculator with plug-in Solid State Software modules and new constant Memory feature. Reg. \$115.00 **\$103.50**
- TI-MBA. Advanced programmable for advanced business majors. Reg. \$70.00 **\$63.00**
- SLIMLINE TI-35 II. Economical scientific calculator for students and professionals, with Constant Memory feature. Reg. \$25 **\$22.50**
- TI-1750. III Light, small economical. Performs additions, discounts, square roots, percentages and has a 4-key memory. Reg. \$14.95 **\$13.95**
- SLIMLINE TI-1031. Economical pocket portable electronic calculator with memory. A handy LCD calculator with most needed functions for everyday personal use. Reg. \$10.95 **\$9.85**

PLAIN PAPER PRINTING CALCULATORS

- TI-5215
Reg. \$175.00 **\$157.70**
- TI-5219
Reg. \$205.00 **\$184.50**
- TI-5120
Reg. \$75 **\$67.50**
- TI-5130
Reg. \$90 **\$81.00**

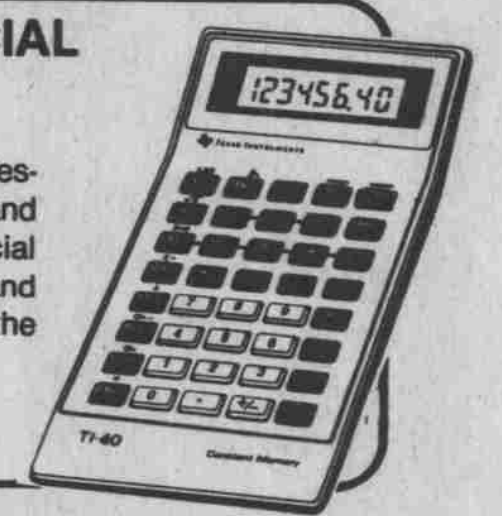

BACK TO SCHOOL SPECIAL

- TI-59. An extraordinary card programmable calculator with plug-in Solid State Software and magnetic card storage. For professionals in business, science and engineering. Reg. \$250.00 **\$191.00**

BACK TO SCHOOL SPECIAL TI-40

The perfect tool for today's students and professionals. The TI-40 has scientific functions and statistics with software support features. Special features include Pi, factorial, percent, constant and change sign. Streamlined, tilt top styling puts the facts at the best angle for viewing.

Reg. \$30.00 **\$22.95**

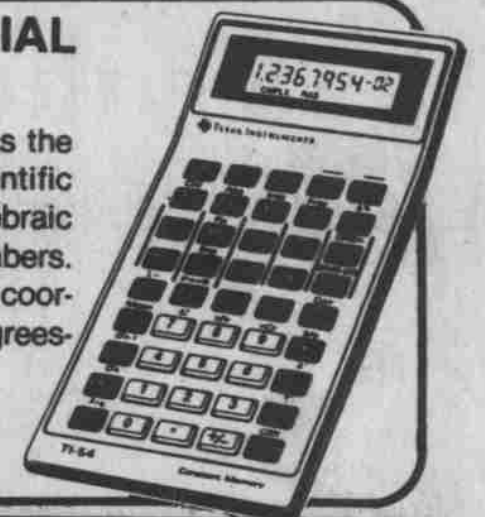

- TI-PC-100C. Printer for above calculator. Reg. \$225.00 **\$202.50**
- SLIMLINE BUSINESS ANALYST-II. A powerful LCD financial calculator with statistics. Constant memory feature retains data whether unit is on or off. Reg. \$50.00 **\$45.00**
- TI-55-II. Versatile scientific calculator with statistical and mathematical problem-solving and simple programmability. Reg. \$50 **\$45.00**

BACK TO SCHOOL SPECIAL TI-54

The TI-54 advanced LCD scientific calculator has the power to meet the professional and scientific challenges of the 80's. The calculator with algebraic computations for both real and complex numbers. Built in conversions include polar to rectangular coordinates, degree/minutes/seconds to decimal degrees and their inverses, also linear regressions.

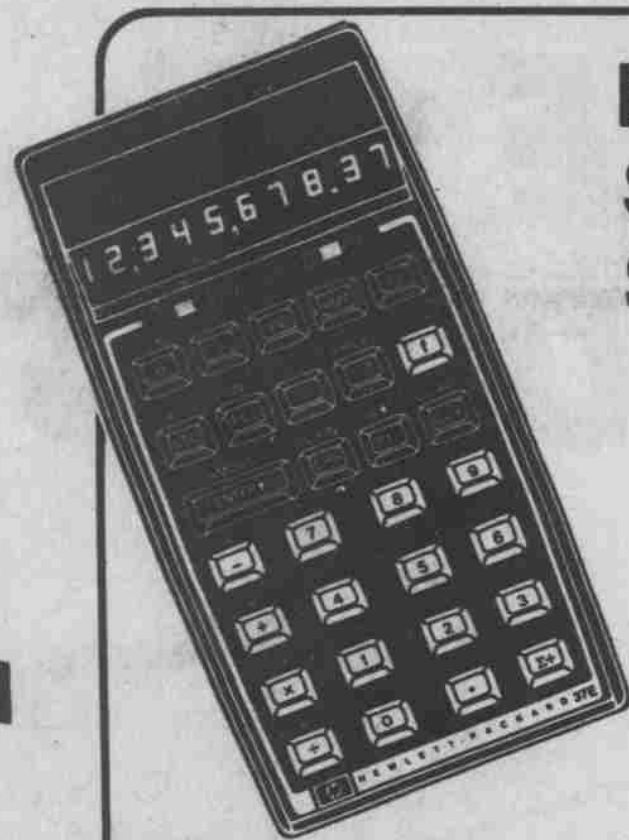

Reg. \$40.00 **\$30.59**

BACK TO SCHOOL SPECIAL TI-30

This unique TI Algebraic operating system with 15 sets of parentheses and up to 4 pending operations allows problem to be entered in the same order it is stated algebraically. Scientific notation allows you to work with very large or very small numbers. Plus memory. Functions include percent, constant, roots, powers, reciprocals, logarithms, degree/radian, modes, and trigonometric functions.

Reg. \$15.00 **\$10.65**

BACK TO SCHOOL SPECIAL

Great Value
At Only

\$70

Reg. \$90.00

HP-37E—Business Management. Best choice for a basic business/finance calculator. Features HP's unique "cash flow sign convention" to let you solve problems intuitively. Can handle Present Value, Payment and Future Value calculations simultaneously. Calculates percents, discounts, markups, figures amortization schedules. Statistics with trend line forecasting. 5 financial and 7 addressable storage registers.

PH-33C—Programmable Scientific With Continuous Memory. This entry level keystroke programmable features fundamental programming capability as well as a complete set of preprogrammed scientific functions. With 8-user storage registers and a program capacity of 49 fully-merged lines, the HP-33C's easy-to-master programmings capability can perform repetitive scientific calculations quickly and accurately. Continuous Memory. Reg. \$110.00 **\$99.00**

HP-34C—Advanced Programmable Scientific With Continuous Memory. Incorporates the most advanced programming capabilities in a keystroke programmable. Designed for technical professionals and students who need the flexibility and power of advanced programmings. Includes the "Solve" and "Integrate" function. Reg. \$150.00 **\$135.00**

HP-38C—Advanced Financial Programmable with Continuous Memory. HP's most powerful financial calculator. Multitude of built-in financial functions. Easy to master programming capability. Reg. \$150.00 **\$135.00**

HP-41C. Alphanumeric full performance programmable with continuous memory. Communicates in words as well as numbers. Impressive power with over 400 lines of program memory, on 63 registers of data storage. May be expanded to 2000 lines of program memory or 319 registers for data storage. Reg. \$250 **\$225.00**

HP-41CY. Alphanumeric full performance programmable with continuous memory. Same as the 41C but with 2,233 bytes or 319 data registers. May be expanded to 6,454 bytes or 603 data registers. Reg. \$325 **\$292.50**

HP-12C. Programmable Financial Calculator. Up to 20 data storage registers are available for manual storage of numbers. Reg. \$150.00 **\$135.00**

HP-11C. Programmable Scientific calculator with continuous memory. 63 lines of memory-storage registers and 20 data storage registers plus the index register (RI). Reg. \$100 **\$90.00**

BACK TO SCHOOL SPECIAL HP-32E Advanced Scientific with Statistics

All HP-31E functions plus math and metric capabilities. Hyperbolics. Comprehensive statistics. ENG, SCI, and FIX display modes. Decimal degree conversions 15 addressable storage register.

\$52

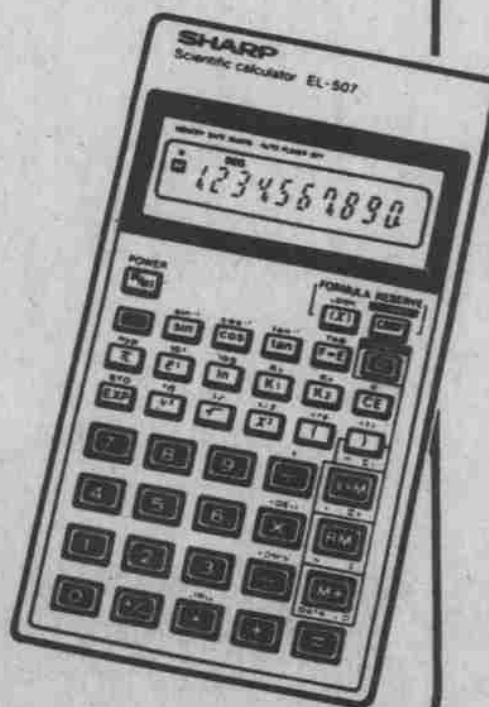

Reg. \$65.00

BACK TO SCHOOL SPECIAL EL-507

- Store up to 38 program steps built up from any of the 507's scientific functions.
- 15 levels of parentheses with up to 7 pending operations.
- Easy-to-read 10-digit liquid crystal display.
- Scientific notation (8-digit mantissa, 2-digit exponent).
- Memory Safe-Guard™ feature (protects all stored data and/or program steps even when power is off).
- Comes in its own attractive wallet.
- 10 digit LCD-8-digit mantissa/2-digit exponent, 5 storage memories/3-key independent memory, memory safe guard, 38 program steps, 15 levels of parentheses with 7 pending operations.

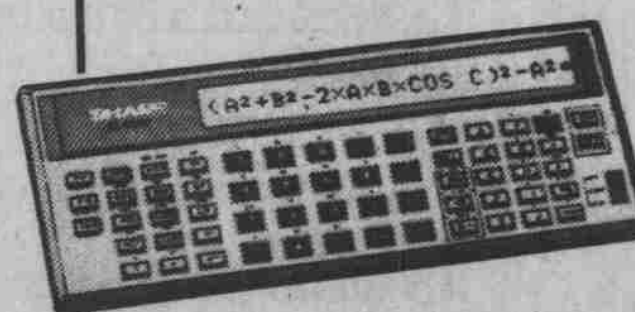

Reg. \$39.95 **\$27.95**

•EL-506H. 10 digit LCD scientific calculator. 3 key memory, power, logs, exponential, reciprocals, factorial, percent, scientific notation, angle/time conversions, coordinate conversion and statistical calculation. Reg. \$29.95 **\$26.95**

EL-323. "Thin Man" Wallet-sized 8-digit basic calculator. 4-basic arithmetic functions with 3-key memory. Full floating decimal point mode of operation. Percent and square root key. Constant, power, reciprocal and chain calculations auto power off. **SPECIAL PRICE \$9.85**

Thin Scientific Calculator With A Super Capacity Dot Matrix, Alphanumeric Display That Writes An Equation And Remembers It.

Reg. \$89.95 **\$56.00**

EL-5100

- 24-digit dot matrix LCD.
- Algebraic Expression Reserve (A.E.R.) mode stores formulas and protects them with Safe Guard™.
- Direct formula entry.
- Rolling writer display allows the entry of up to 80 characters.
- Trig., inverse trig., hyperbolic and exponential functions.
- Number of samples, mean, Σx , Σx^2 , std. deviation, combination permutation and regression calculations.
- Instant playback of equations for review or corrections.

BACK TO SCHOOL SPECIAL EL-329

"Thin Man" Metric Converter. Wallet-sized 8-digit basic calculator with built-in metric conversion. 4 basic arithmetic functions with 2-key memory. Percent and square root keys. Auto power off.

Reg. \$16.95 **\$13.25**
