

Women's soccer kicks off

By MICHAEL PERSINGER
Staff Writer

With nine starters and 13 lettermen returning from last year's 23-0 national champions, there is good cause for optimism on the part of UNC women's soccer coach Anson Dorrance ... if the injuries don't catch up with him.

After playing last year with virtually no serious injuries, Dorrance has lost two players, Susan Ellis and Suzie Stollmeyer, to knee injuries in preseason practice. Ellis was an important part of last season's team, starting on defense. Stollmeyer is a freshman this year and would have seen action at striker.

Although these injuries are setbacks, they are not debilitating. The Tar Heels still have enough talent to be considered the team to beat in 1982.

The Tar Heels open the season hosting UNC-Wilmington Sat., Sept. 11.

"Last season we definitely had the strongest program. The question now is whether or not we can improve as fast as the competition does," Dorrance said.

"You can be sure that we will be tough again with all the people we have coming back."

The best of the returning players are first team All-Americans Stephanie Zeh (striker) and Dori Kovanen (back), second team goal keeper Marianne Johnson, and third team midfielder Laurie Gregg.

Sophomore Zeh did it all as a freshman last season as she led the nation in scoring, with 36 goals and 16 assists. "It could be hard for Stephanie to match last season's productivity, simply because she will be a marked woman," Dorrance said. "She will draw the opposition's best defender every time out, and that would affect anyone's output."

Zeh was a bit more confident, adding, "Anson is teaching me some new techniques and some new moves, so I don't think I will be completely shut off. It will be more difficult, though."

Zeh will be joined on the front line by

senior Janet Rayfield, an honorable mention All-American in 1981. The open spot in the front line could be filled by sophomore Kathy Kelly, who had 12 goals and 15 assists as a reserve last fall. Freshman Betsy Johnson, an all-stater from New York, could contribute early, possibly as a striker.

The midfield positions look strong as Dorrance returns two starters and the two top reserves from last year's team. Gregg, a senior transfer student from Harvard, scored 13 goals and had 10 assists in her first year with the Tar Heels last season.

Also returning in the midfield positions will be sophomore Emily Pickering, last year's assist leader with 18, sophomore Amy Machin, who could also contribute at the vacated front line position, and sophomore Pam Royal, a reserve last year. Stollmeyer was also expected to contribute here before her injury. Dorrance had called her the "best player from the Class of 1982."

All four starters from last season's backfield will return, but with the injury to Ellis, only three will be available. Sophomores Kovanen, Suzy Cobb and Dianne Beatty could be joined by freshman Lee Thorne of Wilson, N.C., to form this season's starting defense.

Carolina allowed only eight goals in 1981, compiling 17 shutouts, and both of the goalkeepers from that squad will return. Johnson started 18 games last year and had a 0.33 goals against average, and sophomore Beth Huber, whose goals against average was 0.46, will be the top backer.

"Marianne did not get all the credit she deserved last year, because the opposition didn't take many shots at her," Zeh said. "She is definitely the best goaltender in the country."

The Carolina schedule will be a tough one in 1982, with five major in-season tournaments on the agenda, as well as games with 1981 national tournament entrants Central Florida, Connecticut, Missouri-St. Louis and Cincinnati. Performance in the regular season is crucial

Basketball tryouts slated for Monday

Those interested in trying out for the UNC women's basketball team should attend an organizational meeting and workout Monday, Sept. 13 from 5:30 to 7 p.m. in Carmichael Auditorium. Positions for team managers, scorekeepers and statisticians will also be discussed.

this year, since the NCAA has trimmed the national championship field from 16 to four teams.

"Of course, the injuries will hurt because we don't have much of a bench," Zeh said. "I still think we will be just as

good if not better than last year. We will be the team to beat this year, and for the next two as well."

"Four straight national championships are not out of the question," Zeh said. "We still have the most talent."

This calculator thinks business. The TI Student Business Analyst.

If there's one thing undergrad business students have always needed, this is it: an affordable, business-oriented calculator. The Student Business Analyst. Its built-in business formulas let you perform complicated finance, accounting and statistical functions—the ones that usually require a lot of time and a stack of reference books, like present and future value calculations, amortizations and balloon payments.

It all means you spend less time calculating, and more time learning. One keystroke takes the place of many. The calculator is just part

of the package. You also get a book that follows most business courses: the *Business Analyst Guidebook*. Business professors helped us write it, to help you get the most out of calculator and classroom. A powerful combination. Think business. With the Student Business Analyst.
