

Group tries to aid race relations

By KYLE MARSHALL
Staff Writer

Entering its fifth year of striving to help race relations at UNC, the Black-White Dialogue is scheduling an organizational meeting Wednesday at 7 p.m. in the Carolina Union.

"We try to promote sensitivity with regard to minorities," said Joyce Clayton, assistant dean of the General College. "Students and faculty get together to help minorities feel more a part of the university environment."

Regular meeting dates have not yet been determined for the year, said mathematics professor William H. Graves, who co-sponsors the dialogue with Clayton. A typical meeting consists of five to 10 black students, one or two white students and one black and one white faculty member.

"The dialogue members are generally very cordial, not hostile," he said. "The faculty is interested in what the black students say. It's a good device for keeping lines of communication open."

Clayton said applications for students interested in participating in the group will be available at the meeting Wednesday night.

"The main factor we're looking for is how interested the student is in participating," she said. "We want to find out the students' real reasons for being a part of it, and to a certain extent, we're looking for previous experience with this sort of thing."

"We have no instrument of measurement to see how well the program is working, and we can't say we're curing all ills. But we can say we're making an impact. It's one small way of getting to the problem," Clayton said.

Although no specific plans have been announced, Clayton said one goal of the Black-White Dialogue was to

be more sensitive to the needs of minorities. "We also hope that we can contact individual faculty members in various departments to get them to participate."

Beth Lueck, a lecturer in the English department, has been a faculty member of the dialogue for two years.

"Various groups on campus talk to the dialogue members, and we always get a well-mixed number of students at the meetings," she said. "The black students give their input on race-related problems. But it's also important that the faculty give a fresh perspective on what's happening on campus."

"I've encountered a few racial problems in my classes, where some white students resented the blacks in the class," she said. "It's difficult to know what to do in a situation like that. With the dialogue group, the faculty members share their experiences to help the others know what to do in those situations."

CAMPUS CALENDAR

Public service announcements must be turned into the box outside DTH offices in the Carolina Union by noon if they are to run the next day. Each item will be run at least twice.

TODAY'S ACTIVITIES

UNC-CH ECOS will have a potluck meeting at 6 p.m. today at Winkle Tax's lounge. A map is posted on the ECOS office door in Suite A of the Carolina Union.

Attention off-campus students: Please come to the first organizational meeting of the O.S.A. (Off-Campus Student Association) to be held at 5 p.m. today in the Carolina Union.

Association gives voice to students

By LISA PULLEN
Staff Writer

Off-campus students will have the chance to make themselves heard with the formation of a new Student Government-sponsored organization.

The Off-Campus Students Association will mark the second attempt by a Student Government administration to provide a forum for off-campus students.

The O.S.A., sponsored by Student Government's Housing Committee, plans to provide a service similar to that which the Residence Hall Association provides to on-campus students, said Jody Moore, Housing Committee member and organizer of the association. The association will hold an organizational meeting at 5 p.m. today in the Union.

"We see off-campus students as being separated not just physically from campus, but because they are not organized in groups. It (the Association) can serve as one strong voice," said Ellen Goldberg, chairman of the Housing Committee.

The need for such a group is greater now that freshmen are allowed to live off-campus, Moore said. Approximately 65 to 75 freshmen live off campus this year, he said. There are 13,000 graduate and undergraduate students living off campus, Goldberg said.

Last year under the Norberg administration, an organizational meeting for a similar organization, the Association of Apartment Dwellers, attracted two students.

After that meeting, further plans for the A.A.D. were dropped.

This year's O.S.A. plans to represent off-campus students by residence area, similar to the Campus Governing Council district system. "For the most part, we want to work with apartment complexes," Moore said. "It's easier to group people that way."

The association will concentrate on four areas of interest to off-campus students: intramurals, transportation, communication and the legal aspects of living off campus.

Initial projects the O.S.A. will undertake include providing bus and carpool information and improving communication with off-campus dwellers. An effort will be made to organize intramurals among apartment complexes and provide University Counseling programs.

In the future, Goldberg said that she would like to see the association become independent from Student Government. "We want it to have its own leadership," she said. "If it were run independently, it could get a lot more done and be more effective."

All students, graduate and undergraduate, are encouraged to attend the meeting, Moore said. Students should check at the Union desk for the number of the meeting room.

"We would like to get a few people to help us organize," Moore said. "We want people who live in private homes, trailers, tents — anybody."

stores From page 1

quently will discuss the situation with the parties involved.

"I investigate every single one very aggressively," Susan Ehringhaus, assistant to Chancellor Christopher C. Fordham III, said. Many time the complaints turn out to be non-existent, she said, because of the foresight and surveillance of the Student Stores. They are constantly checking to make sure none of the items they sell violate the Unstead Act, Ehringhaus said.

"We are allowed to sell anything commonly found in campus stores as long as we give our profits to a student scholarship fund," Shetley said.
