Andrews asks for understanding

The Associated Press

RALEIGH — Rep. Ike Andrews, D-N.C., saying he had been drinking but was not drunk when arrested for driving under the influence of alcohol Saturday night, Monday asked for understanding and forgiveness.

"I can only ask for understanding," Andrews said at a news conference. "If people chose not to understand or forgive, or whatever nice words might be used, I can appreciate that."

Andrews said he was wrong to have been drinking in his car — admitting he drank rum poured twice from a bottle into a 10-ounce cup of Coca Cola — while driving from Washington, D.C., to his Cary home.

"I knew it was wrong when I did it," he said. "There's no one else to be blamed. There is no excuse. It's wrong. . . . I knew

it before I did it. I know it better now. I've embarrassed and hurt a lot of people. For that I'm sorry."

Andrews, facing Republican Bill Cobey of Chapel Hill in the most serious re-election challenge of his 10-year congressional career, said he had not made a final decision whether to remain on the Democratic ticket or step aside.

With the Nov. 2 election less than a month away, however, there was serious question about whether there was still time for him to withdraw and allow the Democratic Party to select a new nominee for the 4th District seat.

State Elections Board Chairman Robert W. Spearman, a Raleigh lawyer, said his understanding of the law was that Andrews had until midnight Monday to step aside. After then, Spearman said, Andrews' name would have to remain on the ballot.

Democratic Party sources said there was considerable pressure on Andrews for him to step aside. Andrews acknowledged some had advised him to step aside but said more supporters had encouraged him to remain in the race.

Andrews said he couldn't estimate the effect his arrest would have on his re-election chances but acknowledged it could cost him the election.

Andrews was arrested about 10:20 p.m. and charged with driving under the influence, speeding, failure to stop for a police car with siren and flashing blue light and illegal transportation of liquor. He was released on \$200 bond and a court appearance was scheduled for Oct. 18.

Police said Andrews failed to stop when officers turned on their blue lights, and that they chased his car for several miles — with reports ranging from 3 to 6 miles — before he pulled over.

Tylenol capsules found with 'powder'

The Associated Press

GENEVA, Ill. — A sheriff's deputy said Monday he wished he had "put two and two together" when he found hundreds of empty Extra-Strength Tylenol capsules and "a big pile of powder" in a parking lot two days before Tylenol was linked to cyanide deaths.

Officers Joseph Chavez and Al Swanson arrived at the Howard Johnson motel restaurant in nearby Elgin in separate patrol cars at 2:30 a.m. last Tuesday.

Both men became ill within hours of their strange discovery, experiencing symptoms such as vomiting, dizziness and

"boiling hot fever." Medical authorities now say contact with cyanide fumes could have caused such symptoms.

The parking lot was littered with two boxes, about four inches by four inches by six inches, and hundreds of capsules strewn on the pavement. There were no bottles to be seen.

In between the boxes and capsule parts, which were labeled with the 500 milligram Extra-Strength Tylenol dosage, was "a big pile of powder that looked as if it was dumped," Chavez said.

The boxes "said Tylenol on them and one of them was open," said Chavez. "I picked up the powder. It looked like hun-

dreds of capsules had been emptied. We looked at them and found a couple of capsules had been put together."

Barow said the 31 capsules were sent Friday morning by registered mail to the state Department of Public Health's toxicology lab in Chicago.

In light of the subsequent deaths, Chavez said Monday he feels "stupid. We should have picked it up and brought it in."

"I kicked myself in the head every time I think about it. Maybe we could have saved these people's lives, or at least got the investigation started," said Chavez.

National PAC sponsors TV spots

A national conservative political action group will soon broadcast television commercials in the Raleigh-Durham area to encourage people to vote for "conservative" Republican congressional candidates.

The Fund for a Conservative Majority selected areas where they could hit more than one of their target congressional districts, said Peter T. Flaherty, projects director for the Arlington, Va. based organization. The group has selected the 4th Congressional District and three other nearby districts in North Carolina.

The organization's target categories are: "vulnerable, liberal Democrats; conservative Republicans up for re-election; and open seats where incumbents are retiring or redistricting has occurred," Flaherty said.

The 30- and 60-second commercials, which will probably air this week, do not mention congressional candidates by name. A group of four

"Repeal O'Neill" commercials focuses on Democratic U.S. House Speaker Thomas P. "Tip" O'Neill Jr. of Massachusetts. "They are negative," said Flaherty of the commercials. "We consider them tasteful and fair. They are hard-hitting."

One commercial saying O'Neill has taken steps which are not in the best interest of the people, quotes the speaker as saying "there are instances where it's in the best interest of the nation not to vote the will of the people."

Another commercial features Rep. John LeBoutillier-R, N.Y. saying O'Neill describes himself as unalterably opposed to everything Reagan stands for. LeBoutillier then says the country needs a speaker who will work for Reagan's programs.

Another type of commercial the organization has produced is more "positive" and features President Reagan urging voters to elect a conservative Republican to Congress, Flaherty said.

June Milby, media director for the North Carolina Democratic Party, had not seen the com-

mercials, but when told about the "Repeal O'Neill" advertisements, she said, "Tip O'Neill is not running in North Carolina. Therefore, the commercials are meaningless. And the Democratic Party, unlike the Republican party, is not insisting its membership walk in locked step with the party."

She also said, "We've got to get some balance back into the economy if any of us are going to survive." She said the Republicans are going along with present policies but "the Democrats are going to try to give us the modifications needed."

David Flaherty, chairman of the North Carolina Republican Party and no relation to Peter Flaherty, said, "I think that's great. The national Democratic Party is spending over \$1 million on television commercials, and half of that is coming from unions. I think it (airing the commercials) is very desirable."

Flaherty said the state policy is involved primarily with commercials the candidates are doing themselves. The National Republican Party also is broadcasting commercials in Charlotte, Asheville,

Raleigh and Greensboro "reminding people that we're trying to turn things around and it can't be done in 18 months," he said.

The National Congressional Club, which aired commercials on behalf of conservative congressional candidates in 1980, is not actually producing commercials, said Bob Rosser, state political director for the club.

"We're highly supportive of certain conservative candidates," he said. "It's kind of hard to do that (run generalized commercials) because there are specific needs in each district."

Rosser said candidates using the Fund for a Conservative Majority's commercials created no problem for the club.

Fourth District congressional candidate Bill Cobey, a Republican, is not involved with the commercials. Claude Allen, Cobey's press secretary, said Cobey did not know very much about the ads, other than what he has read or heard, but he believed in the right of free speech and thereby, they have the right to run what they want to — as long as it is accurate.

BRIEFLY

BEIRUT, Lebanon — Israeli jets blasted a Syrian missile battery east of Beirut yesterday and Lebanese radio reports said the Israeli warplanes also struck at Palestinian positions in the eastern mountains.

Although Israel did not link the air strike to an ambush that killed six Israeli soldiers Sunday, it was announced following a special Israeli Cabinet meeting to discuss the attack on the Israeli troops.

The Israeli air attacks, the first since mid-September, came as U.S. special envoy Philip C. Habib was headed to Washington for consultations after talks in Israel and Syria on getting their occupying forces out of Lebanon.

Meanwhile, President Amin Gemayel asked acting Prime Minister Shafik Wazzan to head his government, and Wazzan immediately started negotiations to form a Cabinet.

A multinational force of 3,500 U.S., French and Italian troops has been patrolling and clearing land mines in the capital since last Wednesday, and Beirut was reported calm.

The Lebanese government asked for the return of the peacekeeping forces in mid-September, after then President-elect Bashir Gemayel was assassinated and Christian Phalangists were blamed for the massacre of hundreds of people in Israeli-surrounded Palestinian refugee camps.

AFTON — Thirty-nine juveniles and 44 adults, including the Rev. Joseph Lowery, president of the Southern Christian Leadership Conference, were arrested Monday while trying to block trucks carrying toxic PCB-tainted soil into a Warren County landfill.

Lowery, Ken Ferruccio, leader of the Warren County Citizens Concerned About PCB, and Fred Chavis, field secretary for the SCLC, were among those charged with impeding traffic. Bond for most of those arrested was set at \$200.

Police have made nearly 500 arrests in about three weeks of protest at the dump. Demonstrators contend the state chose the Warren County dump because the county has a high proportion of blacks and little political influence.

Children as young as 4-years-old were arrested while lying on N.C. 1604 Monday in an effort to keep the trucks from entering the landfill. Eyewitnesses said they were directed by adults in what organizers termed a "Students' March."

Several hundred gallons of PCB, formerly used in transformers, were illegally dumped along 210 miles of North Carolina highway in 1978. The chemical has been shown to cause cancer in laboratory animals. State officials say they chose the Warren County site because its soil structure made the landfill safe and because the county is sparsely populated.

WILKESBORO — Superior Court Judge George M. Fountain Monday dismissed one of three vehicle-related charges against state Sen. Harold A. Baker.

Baker was charged with possessing a stolen vehicle, changing a vehicle's identification and applying for a false title.

Fountain dismissed the charge of applying for a false title, saying the state failed to allege a crime for which Baker was charged.

Fountain ruled that statements on a motor vehicle title application don't have to be sworn statements. He also ordered trial to proceed on the other two charges.

Baker, a Republican from Wilkes County, was charged with buying a 1979 Ford truck that was reported stolen in Tennessee three years ago. Investigators charged that Baker then bought a burned 1979 Ford truck sold as salvage and exchanged the serial numbers on the trucks.

An indictment handed down by a Wilkes County grand jury also charged that Baker obtained a title to the stolen truck by using the identification number from the burned truck.

Baker has denied the charges and said he expects to be cleared. He said the charges may be politically motivated.

WASHINGTON — The Reagan administration won the Supreme Court's permission yesterday to participate in oral arguments over how far local communities can go in regulating abortions.

In a brief order, the nation's highest court said Justice Department lawyers will be allowed to voice the administration's view in a "friend-of-the-court" role.

In an unsolicited and extraordinary brief filed with the justices in July, the Reagan administration argued that states and local communities should have greater leeway to make legal abortions more difficult to obtain.

The brief marked the first time the Justice Department had presented its views in an abortion controversy in which the federal government was not a party and no federal law was involved.

For the record

A story appearing on the front page of the *Daily Tar Heel*, "Manager's salary higher than most" (*DTH*, Monday, Oct. 4, 1981), incorrectly reported that Chapel Hill Town Manager David Taylor was paid more for performing the same duties as the city manager of Philadelphia. It is true that Taylor's salary is greater. However, the functions and responsibilities of the jobs are much different. In fact, the Chapel Hill government largely revolves around the "town manager," whereas Philadelphia's government centers around the mayor, town council member Jonathan Howes said yesterday. The *DTH* regrets the error.
