

# Wierman, Pistole, Mason win senior offices

By JIM ZOOK  
Staff Writer

Maintaining a steady lead throughout the evening, the ticket of Scott Wierman and Sally Pistole captured the offices of senior class president and vice president, respectively, by defeating Steve Fetter and Laquetta Robinson in Tuesday's runoff elections.

Wierman and Pistole received 570 of the votes cast, compared to 440 for Fetter and Robinson in the unofficial totals.

Also, Barbara Mason defeated Thomas Kepley in the runoff for senior class treasurer. Mason pulled 552 votes, while Kepley received 323 votes in Tuesday's voting.

"It feels fantastic," Pistole said moments after the final totals were posted in the Great Hall Tuesday night.

"We've worked hard for the last month, and there were times when we never thought we would come to this moment, but it's just a great feeling," Wierman said.

Wierman said he thought a boost in his campaign was because of last minute politicking Monday night and the early morning hours of Tuesday. Wierman, Pistole, and several campaign workers distributed more than 1,300 flyers in that time, sliding them under the doors of juniors' rooms across campus.

Wierman predicted the flyers would

help a lot. "If we had had more time we would have gotten them to every junior," he said. "I think it showed the junior class that we are willing to make the effort. At least that's what we tried to stress."

Both Wierman and Pistole stressed they were looking forward to working with Fetter, Robinson, and Cheryl Wilson and Randy Sprinkle, who were knocked out of contention in last Tuesday's general election.

"One thing that's important is that we couldn't have had better opponents than Cheryl, Randy, Steve and Laquetta," Wierman said. "They were all good sports and it'll be fun to work with them."

Robinson said her biggest problem

in the campaign was a lack of notoriety.

"I think the visibility played a key factor," she said.

Robinson added she was looking forward to working in any capacity with the senior class officers.

Barbara Mason said she was pleased with the results of the Senior Class treasurer election. "I didn't know what to expect," she said. "I had a test yesterday and I have one tomorrow, so I haven't had much time to think about it."

Like the losers in the presidential races, Kepley said he is also looking forward to an active role in student activities, not only in senior class events but also as the Campus Governing Council representative for District 18.

# Rude Boys buzz their way to regional championship

By AMY BRANEN  
Staff Writer

The Rude Boys, UNC's college bowl team walked away Saturday as regional champions of the Association of Collegiate Unions International tournament.

"It's sort of the ACC of college bowl," explained David Kushner, coordinator of the team. "We played Duke, N.C. State, the University of Virginia, UNC-Charlotte, Appalachian, and Davidson."

"We won all six matches. It wouldn't be an overstatement to say we decimated everyone."

In the final match, the Rude Boys, consisting of Blair Haworth (Capt.) Seth Katz, Jeff Carnes, Ron Black, and Adam Falk, beat the team from North Carolina State 445-220. "We averaged about 384 points a game,

our opponents averaged around 160," Katz said.

"None of our matches came down to the last question or anything like that," Carnes said. "Davidson came close, at one point they were ahead by 10 points with 2 minutes to go, then Seth answered a question right and we took the lead."

"Momentum is a very big thing. You seem to be a little quicker on the buzzer when you've gotten a few questions in a row."

The tournament starts at the local level. Each school holds a college bowl tournament within the school that anyone is allowed to enter. Last fall, UNC had 48 teams competing, the largest intramural tournament in the nation, Katz said. The winning team, the Rude Boys, moved into the regionals.

Next, the Rude Boys will go to the national championships, to be held this year at Ohio State University, and competing with the 14 other regional champions.

The Rude Boys recently starred on the WXYC talk show. "People called up and tried to stump us with trivia," Katz said. "We can answer most reasonable questions. We can't tell you how many nose hairs Edward Mulhare had in his last movie but we can tell you what elementary school George Jetson's son Elroy went to."

They can also tell you anything about the college bowl. It was started in the 1950s by Don Reed, and the televised version, originally hosted by Alan Ludden, aired until 1970. It also aired on CBS radio network until 1982.

# Jury continues deliberations in Allison trial

By MELANIE WELLS  
Staff Writer

A verdict could be reached today in the Orange County Superior Court case of Danny Nathan Allison, who is charged with breaking into a UNC student's room in Morrison dorm June 5 and sexually assaulting her.

The case was sent to the jury early Tuesday afternoon after lawyers made their closing arguments, but the jury was unable to reach a verdict after several hours of deliberation and will reconvene at 11:30 p.m. today.

Allison, 22, also faces 15 other felony charges in connection with a series of assaults against UNC women last spring and summer. The current trial, however, centers only on a breaking-and-entering charge and a first-degree sex offense charge stemming from the June 5 incident.

In the closing statement for the defense Tuesday, Robert Mahler, the public defender for Allison, presented a list of 15 reasonable doubts to the jury, challenging the District Attorney Wade Barber to respond to the questions. The main points were: another man was formerly a suspect in the case; no hair was found that matched Allison's; no vaginal cells were found on Allison's revolver, which was supposedly used in the sexual assault; Allison's character does not seem to fit the violence behind the assault; and Allison was reportedly in his apartment the morning of the assault.

Mahler reminded the jury that Allison was only on trial for the assault of the woman in Morrison dorm and not for the assaults of four other UNC women who testified against Allison because of the similarity of their assaults.

Barber, in his closing statement for the state, said that the woman did not pick Allison just to have a scapegoat. "She looked at hundreds of pictures," he said, "and when she saw Allison's, she said, 'That's him'."

Barber also said Allison had time to return to his Northampton Terrace apartment from Morrison dorm between the time of the assault and 8:40 a.m. when Allison's roommate said he saw Allison at home. The victim said Allison had entered her room at 7:50 a.m. and stayed for approximately 45 minutes.

In response to Mahler's list of doubts, Barber said no real evidence had surfaced linking another man to the crimes. He said there was no hair match because there was no hair left behind. Barber said that vaginal cells had indeed been found on Allison's revolver, but not on an automatic gun that Allison owned.

Barber also said Allison had time to return to his Northampton Terrace apartment from Morrison dorm between the time of the assault and 8:40 a.m. when Allison's roommate said he saw Allison at home. The victim said Allison had entered her room at 7:50 a.m. and stayed for approximately 45 minutes.
