

Read this to prepare for the big test.

Chapter 1

Along with college, goes a multitude of decisions: books, classes, professors, room-mates and not least of all, a good, reliable, affordable and delicious pizza delivery company.

Domino's Pizza invented free 30 minute pizza delivery over 20 years ago. And, we work very hard to be certain that you'll be able to see the difference between the original and everyone else.

We still make every pizza by hand and every order is, "one-at-a-time". There's no pre-made pizzas sitting around collecting dust.

We still sell our pizza at a price you can afford and our delivery is still free. Our coupons show you exactly what you get, and how much you pay, right down to the penny.

We've increased our portions dramatically over the years so that the

price you pay brings you a richer, tastier, better looking pizza to satisfy even more "persons-per-pizza".

And, of course, we invented the 30 minute or FREE guarantee. It says; barring "acts of God" and providing you're there to receive it, that if we don't deliver your pizza to your door in 30 minutes or less, your pizza is FREE. Absolutely.

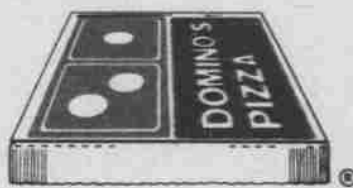

Now that you've done your homework, when the big test comes around, you'll score very high.
