55 Akins or Caldwell

Goodwill Games nothing but failure to communicate

By EDDY LANDRETH
Sports Editor

"What we have here is a failure to communicate." — from the movie "Cool Hand Luke."

A failure to communicate best describes the relationship between the American public and the recent Goodwill Games.

The Goodwill Games were an Olympic-style event set in the Soviet Union, staged by Ted Turner, "The Mouth of the South," and the Soviets.

Turner televised the event from his cable superstation in Atlanta, Ga., Channel 17. According to the ratings, most of the telecast was lost in space because few viewers in this country chose to watch.

Turner said the event was his attempt to further world peace. Let's hope world peace does not depend on the success of these games.

America has a love affair with the Olympics, which is revealed by the television ratings every four years.

The Goodwill Games just could not capture people's imagination in this country.

The games were certainly successful for the Soviets. They managed to win 118 gold medals, compared to 42 for the United States. Overall, they won 241 medals, to 142 for the United States.

There were several instances of glory for the Stars and Stripes. The men's and women's basketball teams surprisingly took the gold.

It should be noted that men's basketball was not officially part of the Goodwill Games, but the world championships. It was the first time the United States had won the event since 1954. The men's basketball games were televised as part of the Goodwill coverage, but they took place in Spain.

UNC played a role in men's basketball in the form of guard Kenny Smith. He was the star of the championship game with 23 points, including the game-winning basket.

Besides world peace, Turner surely hoped for some old-fashioned capitalistic profits. Instead, the losses were reported to be in the millions. This probably does not upset Turner too much. His major-league baseball team, the Atlanta Braves, annually loses millions of dollars. He must have very deep pockets.

One factor Turner probably hoped would ensure the games of an audience was the boycott of the Olympics by the United States in 1980 and then by the Russians in 1984. Since the lack of competition between the countries did not create an audience, the next games, which are scheduled for 1990 in Seattle, Wash., may be doomed before they begin. They would be scheduled to occur two years after the next Olympics, in which the two countries are expected to meet.

Maybe by 1990 Turner can improve his ability to communicate with the American viewing public.

Of Olden, Love and Bowling

By MIKE BERARDINO
Staff Writer

If you're anything like me, you're probably sick and tired of reading about drugs in sports. If so, this column is for you. The following notes, quotes and anecdotes pertain exclusively to the non-pharmaceutical side of the sports world: a sort of potpourri of summer sports shorts designed to enlighten and entertain. Here goes:

Well, the plot continues to thicken in the soap-opera story of talented Virginia basketball star Olden Polynice. You remember Olden, of course. He's the one who several months ago was caught shoplifting a \$17 set of stereo headphones. At first, it seemed the Big O, a rising senior, would be suspended for the fall semester but would be eligible to rejoin the team on Jan. 1, just in time for the crucial stretch of ACC games.

Alas, on Monday UVa Athletic Director Dick Schultz revoked Polynice's athletic scholarship, proclaiming him out for the upcoming year but eligible to return for the 1987-88 season.

Despite the latter possibility, don't expect to see the big guy step on an ACC court to do battle ever again. His options? Well, it's too late to join the NBA for this season. The Continental Basketball Association is

always a possibility. Or how about Europe?

But if the CBA proves fruitless, Polynice can sell the rights to his story to CBS for a made-for-TV movie. **The Perils of Polynice** maybe? Or **That Fatal Walkman — The Olden Polynice Story?**

Former UNC golfer Davis Love III is drawing raves on the PGA circuit for his long-distance driving. Love is bashing his tee shots an average of 285.4 yards — tops on the tour. However, there's more to golf than moon-shot tee-shots. Witness the less-than-legendary list of

other linksters in the top 10 in driving distance — John McComish, Steve Jones, Bill Glasson and Dan Forsman.

Here's one from the "You must be joking!" file. After four live shows, ESPN's Wednesday night coverage of the pro bowler's tour is faring quite well, thank you. The two-hour show is averaging 1.6 in the Nielsens, not bad for a sport where the biggest thrill comes from picking up the elusive 7-10 split. My inherent curiosity prompts me to ask, "Who are these viewers? And don't they have anything better to do?"
