# GRAFFITI

By CHRIS CAIN  
Staff Writer

*Editor's Note: This week's column begins a series called graffiti, a column guaranteed to bring you the zany, the bizarre, the just-plain strange. Sometimes it's happenings, sometimes it's quotes, but always it's like graffiti — a little off-the-wall.*

Geez wow. You thought you got rid of graffiti the minute you flushed, but here's enlightenment from men's room's all over campus.

Communist Alert! They got San Francisco a long time ago, but we all knew they'd never get SOUTH San Francisco, out where the auto-graveyard slimepit pollution factories are. But they did it. They shut down the Spruce Drive-In. If this drive-in is not reopened by June 1, we just might have to take military action. Remember, without eternal vigilance, it can happen here. # We Install FUN!

PHOTOGRAPH BY PAMELA ROYAL

"And it's fun to install! There are few things that make us happier than seeing the look on our customers' faces when they hear their car stereos for the first time. We take a great deal of pride in our work. We like making 'dream systems' a reality. That's only possible because Stereo Sound carries what are recognized worldwide as the highest performance brand name mobile electronics components made. And the essential quality is there in every system we carry regardless of price. We install confidence as well. All of our installations are guaranteed for as long as you own your car. Technically we install music systems, cellular telephones, & the like. But when we see that customer's face we know what we really install... is FUN!"
