

Robocop

from page 4

mares drive him to seek his killer, Clarence Darrow (Kurtwood Smith), the head of an underground mob. Of course the mob has connections, and Darrow is in cohorts with the Number Two man at OmniConsumer Products — Jones.

The nightmares are not the only things Murphy retained in his transformation to a cyborg (part human, part machine). He also retains an Old West gun twirl, which his previous partner, Officer Lewis (Nancy Allen), recognizes. Together Lewis and Robocop remove the slimy mob from the Detroit streets and the corruption within the Omni corporation.

Robocop, with Weller's adorable face and mannerisms, is a likable creature. He's a superhero with heart — and he's not as sappy as Superman or Lee Majors.

Unfortunately, the movie falls short on comedy and overemphasizes blood-and-guts violence. The original machine cop, ED 209, screws up and wipes out a young exec, driving thousands of bullets into his chest. And to top it off, one of the bad guys falls into toxic waste and his skin melts, turning him into a monster-like creature. And then he gets splattered across an oncoming car. Get the point?

If moviegoers don't shy away from "Robocop" because they think it is juvenile, they will be in for a big surprise. It is a dry-humored, blood and guts film. However, although the movie has its good points — great acting, unusual cinematography, a well-written plot for such a futuristic idea, subtle irony and an appealing creature — the violence is a negatively powerful element.
