

Campus Calendar

The DTH Campus Calendar is a daily listing of University related activities sponsored by academic departments, student services and student organizations officially recognized by the Division of Student Affairs. To appear in Campus Calendar, announcements must be submitted on the Campus Calendar form by NOON one business day before the announcement is to run. Saturday and Sunday events are printed in Friday's calendar and must be submitted on the Wednesday before the announcement is to run. Forms and a drop box are located outside the DTH office, 104 Union. Items of Interest lists ongoing events from the same campus organizations and follows the same deadline schedule as Campus Calendar. Please use the same form.

power plant, which was constructed to meet the increasing University demands.

Students will not have to pay the cost increases this year, Kuncel said, because the housing department has absorbed this year's increases. But this will probably force the housing department to postpone the scheduled renovation of Graham Residence Hall in the summer.

The postponement of Graham's renovation is still indefinite, Hicks said. Hicks said his committee, consisting of three students and four housing officials, was exploring financial alternatives so the renovation of Graham dormitory could take place as soon as possible.

"Right now it looks like the Graham renovation will be postponed for one year," Hicks said. "Hopefully, we can come up with some creative financing that would allow us to renovate Graham next year and still keep up with the renovation schedule."

"One possibility — and this is still all speculative — would be to renovate two buildings per year. But there are a lot of financial details that need to be worked out."

persistent and effective leader, and he said he knew of no black faculty members that had left the University because of Cell.

The National Collegiate Black Caucus and other minority groups have accused Cell of being inaccessible to students and have attempted to block her reappointment.

Hardin also addressed the controversy over the site of the new business school. While none of the possible sites have been rejected completely, Hardin does believe it is important to listen to student concerns, he said.

Citing space restrictions on campus, Hardin did not rule out expansion to more remote areas.

"Remoteness should not really be a key factor in choosing a site. We cannot

University staff, then there is no effective committee."

The dramatic increase in housing utility costs — such as electricity and water — has forced the housing department to look into new ways of cutting expenses, Kuncel said. This year's rates are especially high because of the new

think that there is enough room to have everything near the undergraduate facilities and still preserve the quality of life here on campus."

In its annual report, the Faculty Committee on Athletics announced that the President's Commission had proposed resolutions that would limit the length of the basketball season and cut practice time in half for football.

The committee also reported on the performance of the Athletic Support Program. Chairman Richard Hiskey defended the program.

"The Athletic Support Program is not just a tutorial program for dummies. It helps athletes utilize the wide variety of resources available to students at the University."
