

Captain Huddiford, arrived at Baltimore from Oporto, informs, that the French army have made several incursions towards the frontiers of Portugal (thru' Spain.) The inhabitants of the country appear much alarmed, being in expectation of a visit from them. This prospect occasioned the produce of Portugal, suited to the British market, to fall rapidly.

FROM BERBICE.

Capt. Quin, arrived at Newburyport on his passage from Berbice, spoke the English sloop of war Aspina, capt. Aufpin, who informed, that an English squadron had gone to take possession of Cian, Surinam, Berbice and Demarara. He likewise spoke a French privateer, both of which treated him well.

Capt. Sloane, was spoke at sea, Oct. 3, 20 days from Martinique, confirms the above, and says further, that Demarara, Surinam and Berbice, have actually been captured.

FROM SURINAM.

Capt. Somes arrived at Gloucester on Sunday last, in 27 days from Surinam. The place had not been attacked, when he departed; but a few days after sailing, in lat. 7° 3', he saw a fleet steering directly for Brandt Point, and counted 25 ships. There were many troops at Surinam, and the inhabitants had been armed to assist in defending the place, under an expectation of a visit by the British, and with a determination to make the best possible resistance.

Captain Paulding, of the ship Eagle, arrived at New York in 49 days from Amsterdam, bringing Amsterdam and Leyden papers.—He informs that boats were building, and other preparations for the invasion were going on at Amsterdam and the Texel with great activity. Generals Victor, Carew and Le Seine, were at the Helder on the 26th Aug. reviewing the troops, examining the works, stores, &c. Capt. P. conversed for sometime with an aid de camp of general Victor, who expressed himself perfectly assured that the invasion would take place and entirely confident of its success.

Previous to her reaching Amsterdam, the Eagle was (on the 11th July) captured by a New York Cutter, as noticed in former papers. After a detention of 18 days captain Paulding was offered a dismissal, or his paying the expences that had occurred, amounting to about 500 dollars. To this proposal he found it prudent to consent, and on complying with the terms, was permitted to pursue his voyage.

The ship Eagle, captain Riker, arrived at the same port in 32 days from Bell. St., and the brig George, Taber, in 42 days from Dublin. The Irish intelligence by these vessels is to the 6th September, inclusive.

Ireland is not yet restored to tranquility. The snake of rebellion is "scathed, not killed." Private afflications are frequent. Depots of pikes, fire arms, and military stores continue to be discovered; and the number of arrests is daily augmented. The trial of the persons who were taken into custody on suspicion of being concerned in the rebellion of the 23d July, commenced in Dublin on the 31st August, with the indictment of Edward Kearny, who was found guilty, and executed on the day following. The trials of Thomas Maxwell Roche, Owen Kirwan, and James Byrne, took place on the 1st September; they were all found guilty, and hanged on the 2d. The court were proceeding with the remainder of the prisoners at the date of our last accounts.

Four ladies (Misses Moore, Shaw, McCracken, and Dixon) have been apprehended on suspicion of harbouring William Ainslie Holton, a chief of the insurgents, and formerly in the service of the E. I. Company. Many persons with whom he has had dealings, have also been taken into custody; the general himself is thought to be an emissary of government.—The young ladies are in close confinement.—Two brothers of one of them have been arrested, and it is supposed will be executed.

No insurgent of distinction had been brought to trial on the 6th September.

A patriotic fund, on the principle of that established at Lloyd's coffee house in London, has been set on foot in Ireland;

but its progress is comparatively slow. The highest subscriptions are two of 1000, one by the lord Lieutenant, and the other by the bankers David Latouche & Co.

Extract of a letter from London, received at Liverpool, Sept. 1.

"Whatever may be the ultimate designs of the French force, collecting in Italy; whether intended for the Morea or Egypt, as it appears by the Hamburg Mail of this morning, that Lord Nelson has taken possession of the city and port of Messina, and consequently commands the whole island of Sicily, they will in him find obstacles which all their exertions and enterprise, may not be able to surmount.

"A private letter from Hamburg, dated August 28, says, the distress occasioned by shutting the Elbe, has become so acute, that thirty suicides have occurred in this city in the course of one week.

"A postscript to the above letter says—It is just reported that the negotiations of Prussia have succeeded so far as to obtain the evacuation of the opposite banks of the Elbe, by the French.—The latest news also from Spain, are all in favour of Britain.—The British ships of war at the mouth of the Elbe have taken a number of vessels laden with corn."

"A pamphlet lately published at Hamburg, accusing the Hanoverian ministry of betraying their country to the enemy, has already gone through seven editions.

"His Britannic majesty's protest against the Hanoverian convention at Coblenz is said to have made some impression at Vienna."

The great Inconvenience which the Citizens of Brunswick County and the District generally, experience from the want of a proper Seminary of Learning, and the Disadvantages relating to Parents from sending their Children abroad for the Purposes of Education, will, it is hoped, stimulate them to lend their fostering Protection to an Institution so highly important to the Welfare and Happiness of a free and independent State.

The natural Advantages of Smithville as a Place of Education, are many and of the first Importance.

Its Situation is agreeable, and being in Sight of the Atlantic, from the Stability and Picturesque of the Air, and Goodness of Water, a Place of polite and fashionable resort in the Summer; whence, in Addition to the Advantages of Country Schools, the Manners of the Students would be polished and their Understanding refined.—It bids fair to be a Place of commercial Importance, and from its Vicinity to the Sea and constant supply of Marin-Diet, Boarding might be effected on easy Terms as in any Part of the District. The County in which it lies is acknowledged to be the best Range for Sheep in the State, and although not immediately by virtue of its own, is supplied with other Provisions by the Facility

of Navigation, and probably cheap Marin-Diet, it deserves to be encouraged at District Schools and should the Traders be assisted by the Alliance of their fellow-Citizens, to carry the good Diffusion into Execution, which they fondly hope will be the Case, it shall be their Care and Study to procure Teachers of the most respectable Talents and Character, and to establish the Institution on a Basis that will prove a lasting Benefit to, and Moniment of the Public Spirit and Liberality of the District.

Tickets to be had of J. Jn. Lord, Joshua Potts, Benjamin Smith, Benjamin Mills, John G. Scott, A. Hall, and of other Gentlemen in each County of the District, who will give timely Notice by advertising at the Court-Houses of their having them for Sale. By Order,

JOHN CONYERS, Secretary.
